YOU'LL soon want to choose your coat for fall and winter. Knowing the correct style features for the season will make it so much easier to choose right.

You'll find not only correct style, but the added value of superior quality and tailoring in these Wooltex coats.

Thirty-four years of coat designing and tailoring experience are back of coats that bear the Wooltex label. They lead America. They combine the best style ideas of the world's great fashion centers—Paris, London, New York and Cleveland.

Fashion says coats must have certain style features

See them in the coats

Your coat must show the natural lines of the figure, but without being tightly fitted. Or, it must hang loosely from the shoulders and may be loosely belted. Coats of either general style are smartly flaring from waist downward.

Collars of plush, cloth or fur

High, straight collars of plush or fur are ultra fashionable. Bands to match encircle the cuffs and lower edge. Self cloth collars are convertible, and may be worn low if desired. Revers are wide.

PURE wool materials tested by experts, and custom quality tailoring support correct style in every Wooltex coat.

No matter how many seasons you choose to wear your Wooltex coat, it stays good looking. It is refined, genteel—the ideal for a gentlewoman.

The variety of models, in many cloths and colors, makes it easy to select one that

Belts in novel effects

Belts were never so stylish. Belts all around or short belt effects at sides or across the front, are artistically used to add to the dressy effect of the whole coat.

Fabrics are greatly varied

Rough fabrics in solid colors, two-tone combinations of cloth and trimmings, and Scotch mixtures have Dame Fashion's stamp of approval. One of the decidedly fashionable coatings is Pompadour cloth, to be found only in the Wooltex Pompadour coats.
