**SUFFERED FOR FOUR YEARS.**

Mr. J. M. Sinclair of Olivehill, Tenn., writes: "I strained my back, which weakened my kidneys and caused an awful bad backache and inflammation of the bladder. Later I became so much worse that I consulted a doctor, who said that I had diabetes and that my heart was affected. I suffered for four years and was in a nervous state and very much depressed. The doctor's medicine didn't help me, so I decided to try Dodds Kidney Pills, and I cannot say enough to express my relief and thankfulness, as they cured me. Diamond Dinner Pills cured me of constipation."

**ROAD BUILDING**

**CONVICTS AS ROAD BUILDERS**

Need for Co-Operation Between State Highway and State Prison Departments is Outlined.

The state highway department should hire convicts from the state prison department in exactly the same way as it would hire free laborers, and at the same price per day. During the hours of work the men should not be thought of as convicts, but simply as employees of the highway department. No payment should be made for a single hour not worked and a man discharged should be removed at once and permanently, while the highway department should have no responsibility for nor authority over the convicts at any time nor in any manner except to conduct their work or to discharge them.

This need for co-operation between the state highway and state prison departments is strongly urged in a report made to the New York state highway department by David J. Shorer, who was in charge of the convict road work in Green county, New York, during the summer of 1914.

Mr. Shorer's practical experience has demonstrated the importance of the recommendation for co-operation between the highway and prison departments in conducting convict road work, which the national committee on prisons and prison labor has advocated for a number of years and has been instrumental in embodying into the laws of the state of West Virginia.

The work in Green county, New York, was carried on under most difficult conditions. The men arrived at the camp before the organization and equipment were completed. They were sent there without regard to their suitability for the work and almost one-fourth were totally unfit and had to be returned to the prison. Arrangements for feeding the men were unsatisfactory, while winter made efficient work impossible fully two weeks before they were removed from the camp.

In spite of these difficulties Mr. Shorer reports that, taking the 60 convicts who were retained at the camp, and comparing them with 51 civilians also working at the camp, the convicts averaged better than the civil-

fians and as good as any ordinary contract gang. Under proper conditions he maintains there will be no difficulty in using convicts for this type of work with good results for the money expended.

The national committee on prisons and prison labor calls special attention to this report and its conclusion that two factors are essential to the success of convict road work. Responsibility for administration must be placed in the hands of those competent to meet it, and the men encouraged through a system of rewards so that they feel they have something to gain through good work.

**LOSS CAUSED BY ROAD THIEF**

Farmer Forced to Haul Small Loads and Deprives Him of Opportunity to Sell Products.

The bad-road thief forces you to haul small loads; drive slowly; wrench and twist the life out of your horse, harness and vehicle, often breaking and damaging the latter until great and expensive delays are occasioned. It also steals your opportunity to dispose of your farm when you wish to sell, for no man will pay as much for a farm bordered by a poor road system as he will for one with a well-kept highway, and some will not buy a farm at all when the road system is poor. The loss of time and money, where the above named conditions exist, makes it imperative that you open all the drain ditches along the road, drag this silent, notorious thief to death with the King road drag.

**Built Up Rural Communities.** What we need is good roads and modern homes. Help the farmers secure these and you will do more toward building up the rural communities than any other two things.

**Dangerous Road.** A road is a road—but when it is a high, narrow grade with steep sides and a flat surface, it is a poor road and a dangerous one.

**Brings Farms Nearer Town.** A farm ten miles from town on a hard road is nearer than a farm five miles from town on a soft road.

**ANURIC!**  
The Newest Discovery in Chemistry

This is a recent discovery of Doctor Pierce, who is head of the Invalid's Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how sure "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric" manufactured by Dr. Pierce, or even write Dr. Pierce for a large trial package (10c). If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Dr. Pierce's chemist will examine it, then Dr. Pierce will report to you without fee or charge.

**NOTE.**—"Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.
