We prescribe Toric or curved lenses in many cases because they allow a wider range of vision, fit closer to the eye and are more becoming to most people. For persons needing glasses for both near and far vision we supply invisible bifocals which we have fitted with excellent success. HARRY DIXON, Optometrist and Jeweler, North Side of Dewey street.

During the three days that the office of the Associated Charities has been open in the public library, eighteen or twenty applicants for aid have called. Just now the greatest need seems to be underclothing for children. Those having this class of garments which they wish to donate will please notify Miss Annie Krampf.

Entitled to Recognition

Whether the high school foot ball team wins or loses the remaining two games of the season, its success on the field has been such as to demand recognition from the North Platte people. We all feel proud, and justly so, of the record made, and The Tribune suggests that this pride be shown through a banquet to be tendered the members at the close of the season. A banquet is suggested, though if any one has something better to propose, let's hear it. In any event, let's give the boys the recognition they deserve.

Students Celebrate

Two or three hundred high school students celebrated Friday evening the victory over the Omaha foot ball team. A big bonfire was kept burning in front of the high school building for an hour or more, an improvised cannon was brought out and fired and the atmosphere was rent with enthusiastic school yells. The basket labeled Omaha Hopes was again brought out and paraded on Dewey street followed by a big crowd of "boo-hoing" girls mopping the tears from their eyes. It was a big day and a great evening for the students.

Burns Shot by a Tramp

The remains of O. O. Burns, formerly of Myrtle precinct, who died at Pasco, Wash., were received here Thursday and funeral services held at the Christian church. Interment was made in the Myrtle cemetery.

It was stated in these columns that the deceased had met his death in a railroad accident, but this was erroneous. He was employed as a brakeman on the Northern Pacific, and when he ordered three tramps off a train, one of them shot and instantly killed a former brakeman named McCann who was with Burns, and also shot Burns, the latter falling from the car and fracturing his skull, from which he died a short time later. asaqimothoapgl eETAOIN ETAAI

Mr. Oberst left for Chicago Saturday and will return with his family about December first.

State Herd Effect.

The Kearney Hub says: Tuberculosis exists in the fine dairy herd of Holstein cows which is owned by the State Industrial school. During the past week State Veterinarian Anderson spent a few days here and during that time he applied tests to the herd and found tubercular symptoms in many of the cattle. This herd has been highly prized not only by the school officials but also throughout the entire state and was a pride of dairy herds at Nebraska's institutions.

Big Engine Gets Grand Prize.

The grand prize was awarded the Burlington's engine No. 6110 at the San Francisco exposition. This is the largest road engine of the non-articulated type ever built. It weighs nearly 300 tons, is almost eighty-four feet long and carries seventeen tons of coal and 10,000 gallons of water. Its firebox is as large as a homestead shack and the inside diameter of the front end of the boiler is seven feet four inches. It took thirty-seven days to move this engine from Philadelphia to San Francisco. A number of engines of this type are already in service on the Burlington.

Lexington Comes Friday.

Another game of foot ball will be played on the local field Friday afternoon with Lexington high school as the opposing team. The Lexington boys have been playing fast ball, and promise to make a good showing against the local team. This will be the final game on the home grounds, and a large attendance is asked in order to replenish the treasury after the heavy expense in getting the Omaha team here.

The North Platte team will close the season with a game at York on Thanksgiving Day.

Quite a number of high school students, and a number of enthusiasts who are not students, are planning to attend the York-North Platte foot ball game at York Thanksgiving Day.

The former had been employed as a Union Pacific officer there and will take a position as yard watchman here.

RUMORS OF UNION PACIFIC RAILROAD EXTENSION

The belief is current, and there is reason why it should seem probable, that the Union Pacific is now getting ready to extend its line west from Hailg. A stretch of sixty-five miles which would take the road to a junction with the Colorado & Southern, is supposed to be involved in the present building intent. Judge Lovett accompanied President Mohler and a party of other officials over the west end of this route recently, and this report follows so closely that it looks like the orders are actually out. Step by step the Union Pacific is making its progress toward the long-contemplated through main line cut-off between North Platte and Medicine Bow. The various recent developments as to the south side canal and more recently the big Gering sugar factory would render this report still more plausible.—Gering Courier.
