What force cannot do, ingenuity may.
Industry is the mother of good luck.

PREPARE GEESE FOR MARKET

Many Farm Flocks Would Pay Handsomely if Proper Attention Paid to Fattening of Fowls.

There are many reasons why geese and ducks are not more popular table fowls than they are, but the chief reason is that they are so poorly fitted for the market.

Many a farm flock of ducks and geese would pay a more handsome profit if some attention was paid to the fattening of it.

First, a young duck or goose must be had for fattening. Stock that is too old is not sweet and tender as it should be. One cannot build up a reputation by selling it.

Old stock, if less than three or four seasons of age, is better for breeding purposes than for market.

Youngsters hatched from the eggs of yearling and two-year-old ducks, and geese are the most vigorous.

A crate with a slatted bottom and set up off the floor or ground in an open shed is an ideal arrangement for winter fattening.

Provide a trough to fit in front of each crate and let the birds feed through the slats.

Arrange to give plenty of water or skim milk at all times. Dairy wastes can be well utilized in mixing up mash foods for fattening the fowls.

Do not crowd too many fowls in a crate. Let there be room enough for each bird to stand at the trough without trampling each other.

The birds should be provided with plenty of sharp gravel or other grit. Start them on full feed once and keep them on it for 18 days at least.

A duck or goose will lay on a large amount of fat in this time if properly fed. It is about as long as a water fowl can be fed with profit.

Feed a mash food of corn chop and oats three times daily. Let the base of this mash be at lover, cut alfalfa or bran. It must have a bulky base of some kind in order to do the fowl the most good. Corn or cornmeal alone is not a good fattener.

The idea of feeding mash food in that it puts more flesh on the fowls because it is more easily assimilated by the fowls' system.

Ducks and geese well fitted are always in big demand in the cities. Culls and poor and old stock will never bring over market prices.

EXERCISE FOR LAYING HENS
When Feeding Grain Scatter It Far and Wide and Make Fowls Hustle to Gather It Up.

In the first place do not overfeed. Bear in mind that if a hen is to be kept in laying condition, she must have exercise. When you feed grain, do not put it in a trough where the hens can stand and eat their fill, but scatter it far and wide, as the hens will find every grain. If the snow is on the ground after the cold season sets in, throw the grain in leaves or cut straw, so as to keep them busy. Do not feed grain exclusively, but give a variety. Allow ground meat or meat and bone fresh from the butcher, three times a week. Vary the grain, feeding corn, wheat and oats, and give cabbage, cooked turnips, clover leaves or any other food that the hens will eat.

FIVE SOUND POULTRY RULES
Keep Nests Clean—Gather Eggs Twice Daily and Store in Cool Place—Sell the Roosters.

It is urged that all farmers and poultrymen adhere strictly to the following rules in handling their poultry and eggs:

1. Keep the nests clean; provide one nest for every four hens.
2. Gather the eggs twice daily.
3. Keep the eggs in a cool, dry room or cellar.
4. Market the eggs at least twice a week.
5. Sell, kill, or confine all male birds as soon as the hatching season is over.

Feathers From Geese.
The big Toulouse geese should produce you something over a dollar's worth of feathers a year even where the feather market is known to be cheap, as in the far-out country places. Add this to its other profit and you have a valuable asset for profit in such a goose.

WONDERFUL PROGRESS IN CANADA

It is Over the Hill—Splendid Bank Clearings, and the Crop Returns Reveal Vast Possibilities for the Future.

"There are opportunities for investment in Canada now that may prove attractive to American capital. Land prices in the west are low and wages less than on this side of the line, and whatever the outcome of the war, the future of the Dominion is assured as one of prosperity in the development of its vast resources." *Chicago Tribune.*

A short time ago the Canadian government asked for private subscriptions to a loan of fifty million dollars. Less than a month was given for completion of the subscription. On November 30th, the day upon which subscriptions were to cease, it was found that 110 million of dollars had been subscribed or 60 million dollars more than the amount asked. If there were any so pessimistic as to imagine that Canada was passing through a period of hard times the wonderful showing of this subscription should put aside all doubts of Canada's rapidly increasing prosperity.

The bank clearings of Winnipeg for 1915 were a billion and a half of dollars. Think of it. Then, in addition, there were the bank clearings of the other cities throughout Western Canada. Regina, Saskatoon and Moose Jaw also show big increase in clearings. The Winnipeg statistics show that the city has done the biggest financial, commercial and industrial business in its history in 1915. A billion and a half are big clearings, representing business on a per capita basis of over \$7,000 per head for every man, woman and child in the city, and has gone ahead of big manufacturing cities like Buffalo, and runs a close second to Detroit. It has shown bigger bank clearings than the middle west cities of Minneapolis and Duluth, and has exceeded Los Angeles, Seattle and other noted shipping centers. It is now side by side with the ten biggest cities in North America in amount of bank clearings.

But because the war helped Canada recover quickly from a natural economic depression it does not follow that, at the end of the war, the country must suffer a relapse, and straight way return to a state of inactivity and hard times.

A Winnipeg paper, with a well-known reputation for conservatism in economic matters says:

Canada's undeveloped fields should prove a mighty factor after the war in adjusting the country's business from one period to another. The staggering figures of this year's crop, showing increases in production of 50 per cent over last year, give a slight idea of the future wealth stored in vast stretches of prairie plain yet untouched by the plow. The Northwest Grain-Dealers' Association on September 1 estimated that the wheat crop of the three Prairie Provinces would amount to 250,800,000 bushels. On November 10 that estimate was increased to 307,230,000 bushels. The Dominion government on September 13 estimated the Western wheat crop at 275,772,200 bushels, but on October 15 those figures were changed to 304,200,000 bushels.

Monetary Returns for the Western Crop.
And the amount of money which the west is receiving for its grain has not yet been wholly appreciated. Up to the 10th of December the Canadian west had received some 170 million dollars for 182 million bushels of its grain crop, of which 149 million bushels was wheat. The average price of No. 1 Northern wheat for September was 93¢ cents; for October 98½¢ cents, and for the first three weeks of November \$1.03½. On the 10th of December there was fully 120 million bushels of wheat to be marketed. This would leave about 30 million bushels for local consumption in the Prairie Provinces.

Bradstreet says:
"Confidence seems to have returned in Canada; grain crops are exceptionally large, prices pay the farmer, and the war-order lines provide work and aid in circulating much money. Credit is more freely granted, and interior merchants are disposed to buy rather liberally."—Advertisement.

One Kind.
"Pa, what are blood relations?"
"War stories, my son."—Boston Evening Transcript.

WOULD YOUR SKIN STAND THIS TEST?

The bright lights of an evening gathering show up mercilessly the defects of a poor complexion. But the regular use of Resinol Soap makes it as easy to have a naturally beautiful skin as to cover up a poor one with cosmetics. It lessens the tendency to pimples, redness and roughness, and in a very short time the complexion usually becomes clear, fresh and velvety.

In severe or stubborn cases, Resinol Soap should be aided by a little Resinol Ointment. All druggists.—Adv.

WHAT IS URIC ACID?

THE CAUSE OF BACKACHE, RHEUMATISM, LUMBAGO

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its overabundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" is 37 times more potent than *Holia*, and consequently you need no longer fear muscular or articular rheumatism or gout, or many

Used to Shells and Their Contents.

A stranger became one of a group of listeners to a veteran of many battles, says Postmaster General Burlington. The veteran had about concluded a vividly colored narrative of a furious battle, in which he had taken part.

"Just think of it," exclaimed one of the party, turning to the stranger. "How would you like to stand with shells bursting all around you?" "I have been there," responded the newcomer.

"What? Have you, too, been a soldier?" "No," answered the stranger. "I am an actor."—Philadelphia Ledger.

Use Marine after Exposure in Cold, Cutting Winds and Dust. It Restores, Refreshes and Promotes Eye Health. Good for all Eyes that Need Care. Marine Eye Remedy Co., Chicago, Sends Eye Book on request.

Rapid.

Rosa—His yacht is quite fast, isn't it?
Rayne—Very fast. You ought to see how it is going through his money.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach.—Adv.

Complaint of ill luck is often an apology for laziness.

When a man begins to talk about purifying politics, he wants an office.

OTHER DISEASES WHICH ARE DEPENDENT ON AN ACCUMULATION OF URIC ACID WITHIN THE BODY.

Send to Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents for a trial package of "Anuric" Tablets. If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best store and ask for Dr. Pierce's "Anuric." Dr. Pierce's reputation is back of this medicine and you know that his "Pleasant Pellets" for the liver and his "Favorite Prescription" for the livers of women have had a splendid reputation for the past fifty years.
