Charley Robinson, who suffered a triple fracture of the right wrist several weeks ago while engaged in running ice into a beer vault, is having quite a serious time. Lack of blood circulation caused the partial decay of two fingers and for a time it looked as though the fingers would need be amputated. Electrical treatment may, however, save them. Fortunately Mr. Robinson carried accident insurance that yields him about \$30 a week.

The county commissioners completed settlement with County Treasurer Durbin Saturday and elsewhere is published the statement for the six months ending December 31st. On the first of January the balance in the hands of the treasurer was \$142,262.03. During the six months \$82,000 was paid out for school purposes.

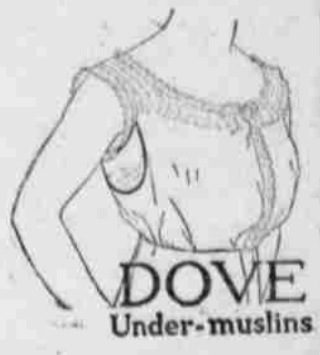

"Destroy all former price lists goods will be billed at the prevailing price on day of shipment" is the word sent out by paper manufacturers and jobbers. During the past five years the price of paper has steadily advanced until today the paper on which The Tribune is printed is nearly 100 per cent higher. No advance in the price of the subscription to The Tribune has been made, but if prices continue to increase it will be absolutely necessary to make an advance of twenty-five cents a year. Don't be surprised if we are compelled to boost the price.

**LAND OPEN TO ENTRY IS BUT 4,000 ACRES.**

The United States land office at Alliance has issued a circular letter in which it is stated that the lands to be opened for entry in that district on March 24, 1916, consists of 4,000 acres instead of 14,000 acres as reported by the public press. These tracts are called "farm units," and consist of from forty to 160 acres; most of them contain 80 to 100 acres each. In all there are forty-three units.

The water right charges are based on the number of irrigable acres in each unit, and run from thirty to 100 acres in each unit.

The same residence, improvements and cultivation are required on these homesteads as under the general homestead laws.

The water charges are not stated in the circular, but the charges under the Pathfinder project, of which this is a part, are fifty-five dollars per acre payable in twenty annual payments.

The teachers of the city met in conference at the high school building Friday evening and discussed various phases of school work. Miss Watts read a paper on the teacher's attitude toward agents and canvassers and a debate held on the question as to whether or not it is unprofessional for a teacher to tutor his or her own pupils for remuneration. Those who debated the question were Miss Bonekemper, Miss Doran, Miss Antolides and Mr. Flowers. It is the general feeling among local teachers that such tutoring should be avoided as much as possible.
