WET OR DRY WILL

BE ELECTION ISSUE.

Saloons or no saloons will be the issue at the coming city election, a petition for the submission of the question having been filed with City Clerk Elder Saturday. This petition contains seventy-nine signatures, which is ample to have the question submitted.

It was generally thought that the anti-license people would "lay-on" in the city election and devote their efforts to the state-wide prohibition which will be an issue this fall, but evidently that faction are inclined to first take advantage of the municipal election.

The anti-license sentiment is growing in North Platte if election figures prove anything. In 1912 the majority for license was 236, in 1914 it was just a hundred less or 139, and in 1915 it was eighty-five.

"North Platte dry" is to be the slogan of the anti-saloon element.

WILL RECOMMEND EXTENSIONS TO CARRIER DISTRICTS

One of the first moves to be made by Postmaster McEvoy for the efficiency of the North Platte service, will be the recommending of extensions to the present carrier districts. As at present mapped out the additional territory to be included in the districts consists of sixty blocks, forty of which are north of the track and twenty south of the track. The extensions in the Fourth ward cover quite an area in the northeast and west and northwest sections of the city while the extension on the south side would make the delivery extend to the south line of the Taylor addition and add quite a number of houses in the more extreme parts of the Banks' addition.

These extensions would add a number of miles of travel for the carriers, but it is believed the present men could do the work without entailing hardship to them.
This recommendation for the extensions will be forwarded to headquarters this week, and it is quite likely they will be accepted and the extended area authorized.

For County Commissioner
