The relation of the Junior High school to the Senior high school has not been definitely established yet and it has been decided to work it out by experience rather than by guess. The board of education has appointed Miss Grace Holman of the Senior high school as the head of the new Junior High with the title vice-principal. In some places the Junior high school is under the jurisdiction of the principal of the Senior high school in matters which affect both the schools, such as discipline on the school grounds, pupils of one school interfering with pupils of the other, the use of the gymnasium, dressing rooms, etc. In other schools each school is an independent unit and each has a principal who is directly responsible to the superintendent.

Supt. Tout is arranging an exhibition of photographs of the different interests of the North Platte City schools for the educational department of the Nebraska State Fair at Lincoln next fall. This exhibition will have pictures of the different school buildings, some of the classes, playground activities, the different societies and other interests of the high school and co-operative interests of the city.

Graduation exercises will be held at the Keith theatre on the evening of May 24th. Thirty-four pupils will be given diplomas at that time.
