No. 34

CITY MERCHANTS WILL HAVE "DOLLAR DAY"

Name Saturday, May 27th, As Day When Special Bargains will Be Given for \$1.00

Local merchants will observe Saturday, May 27th, as "Dollar Day," when they will offer the purchasing public certain articles for one dollar which ordinarily retail for \$1.25 or \$1.50. Each merchant joining in this "Dollar Day," and there will probably be twenty-five of them, will each offer some special article, or combination of articles, for one dollar, and so far as possible the offering of each merchant will be different from the other. This will give the public a large range of articles, and will include dry goods, notions, furnishing goods for men and women, certain classes of hardware, groceries, in fact practically all classes of merchandise will be offered.

It should be distinctly understood that the merchants are not attempting to palm off on the public old or unseasonable goods; quite the contrary, in fact. Every offer will be made on strictly up to date merchandise, just such as you need at this time of the year and guaranteed to be up-to-the-minute in style and quality.

And the important part to the purchaser is that he is getting \$1.25 or \$1.50 for his \$1.00.

"Dollar Day" will be held on the same day that the Oregon Trail Memorial Committee visits North Platte for the purpose of dedicating the Oregon trail marking which was erected near the state farm a year or so ago. Governor Morehead will be with the committee.

The J. S. Davis Auto Co. received a carload of Buick Sixes yesterday, all of which were sold before arrival. In speaking of the demand for cars Mr. Davis said that both his company and its sub-agents were away behind on their orders. "We were to have received four cars of Buicks each week during the months of April, May and June," said Mr. Davis, "but the factory has only been sending us an average of one car per week. The same condition prevails all over the country."

ORGANIZE BRANCH OF DRY FEDERATION.

L. O. Jones, state organizer for the Nebraska Dry Federation, delivered an address at the Methodist church Wednesday evening. This federation, said Mr. Jones, is a non-political, non-sectarian organization, the purpose of which is to make Nebraska a prohibition state.

A local branch of the Federation was organized by the election of J. H. VanCleave president, W. P. Snyder vice-president, A. F. Streitz secretary and Rev. Barton treasurer.

It is intended to prosecute a vigorous campaign in Lincoln county.

The Sidney License Fight.

W. P. Miles, J. L. McIntosh and several other Sidney residents came down yesterday for the purpose of applying to Judge Grimes for a writ of mandamus to compel the city council of that town to make a re-canvas of the vote cast on the wet and dry proposition at the election last month. Judge Grimes had been holding court at Tryon and did not reach home until late yesterday afternoon. The case will be argued before the Judge this forenoon.

The controversy arises over the fact that in one of the Sidney wards the vote was eighty for no license and seventy against. One of the clerks, however, tallied but seventy-nine dry votes, which made the vote in the entire city a tie. In canvassing the vote the city council found a discrepancy in the count and declared the vote a tie. The suit before Judge Grimes is for a mandamus requiring the city council to re-canvass the vote.

Masons Elect Officers.

Platte Valley lodge No. 32, A. F. and A. M. elected the following officers at the regular meeting Tuesday evening: Worshipful Master, C. C. Williams; senior warden, Dr. H. C. Brock; junior warden, Dr. J. B. Redfield; secretary Robt. Armstrong; treasurer, C. O. Weingard.

PAVING BIDS WILL BE OPENED THIS AFTERNOON

Bids for paving in the First district will be opened at two o'clock this afternoon by the city clerk at a meeting of the city council called for purpose. This is the second call for bids, all bids at the former call having been rejected on the ground that they were too high.

For several days past contractors and material men have been in town examining local conditions prior to submitting bids, and others arrived last night. There will be a number of bids on file, probably more than there were at the opening last month.

A number of the property owners who first favored vitrified brick and then switched to concrete, have gone back to brick. While the members of the city council have not publicly expressed themselves, it is known that their recent trip of inspection satisfied them that brick paving is proving the most satisfactory in all the towns they visited.

Carlisle Given Life Term.

Cheyenne, Wyo., May 11.—William L. Carlisle was sentenced to life imprisonment in the district court today in conformity with the recommendation of the jury which late yesterday returned a verdict of guilty on charges of robbing a Union Pacific passenger train near Corlett Junction April 4. GREEN WILL DOUBLE THE CAPACITY OF POOL HALL

T. L. Green has leased the room formerly occupied by the Waltemath saloon and will use it for pool hall purposes, thus doubling the capacity of his present hall. A thirty-foot opening will be made between the two rooms, which will virtually throw both into one. The table capacity will be doubled, five new tables having been ordered, and will arrive by the time the rooms are remodeled. A soda fountain will be added and the stock of cigars, tobacco and confections enlarged.

It is Mr. Green's intention to provide the public with one of the best arranged and most modern billiard and pool halls in the west part of the state and at all times maintain a strictly orderly and well appointed amusement resort. Later in the season a bowling alley may be placed in the basement of the building.

W. B. SALISBURY IS MARRIED IN OMAHA

William B. Salisbury, North Platte's efficient street commissioner was married in Omaha yesterday to Mrs. Nellie I. Grimes, a former resident of this city. The ceremony was performed by Rev. B. R. Van der Lippe, a Presbyterian minister, in the parlor of the Y. M. C. A. building. The witnesses were Miss Fosta Grimes and W. P. Taylor.

Intimate friends of Mr. Salisbury knew that he was soon to take this step, but had no knowledge of the exact date. However, "Bill" has never been a very strong self-advertiser. Congratulations are extended.

Secretary Fisher, of the Chamber of Commerce, is now preparing markers for the roads leading into North Platte. It is proposed to mark about 250 miles of these roads, and where roads fork an arrow will be placed pointing the road to this city and the distance. To those unacquainted with the roads these markings will be of great benefit.

The chicken business is receiving considerable attention from various householders in the vicinity this season. Mrs. Henry Coker has the largest "flock" we have heard of so far, the number of little ones hatched reaching the 1,000 mark.

Monday the J. R. White home on North Walnut street was placed under quarantine for diphtheria. Malcolm, the sixteen year old son, was found to be suffering from the disease and Drs. Gordon and Dent immediately took the necessary measures of precaution. A nurse from North Platte came Tuesday to care for the boy.

Monday morning William, the 12 year old son of Nate Trego figured in an accident which might easily have resulted more seriously for him. While "fooling" with a .22 revolver he accidentally discharged the weapon the bullet entering his body just above the hip bone. Will Jarman, at whose home he was, brought the boy to town and a physician removed the bullet, which was imbedded about a half inch beneath the skin. No serious consequences are anticipated. Needless to say, the lad was some scared, and with a mighty fling of the diminutive fire-arm he announced that hereafter guns in general will hold no charms for Bill.

Using Old Bottles.

A bottle may be cut off by wrapping a cord saturated in coal oil around it several times, then setting fire to the cord, and just when it has finished burning plunging the bottle into cold water and tapping the end you wish to break off. Oddly shaped or prettily colored bottles make good vases. The top of a large bottle having a small neck makes a good funnel. Large, round bottles make good jelly glasses.
