BOOSTERS HOLD AN ENTHUSIASTIC MEETING

Fifty or more members were present at the smoker given in the district court room last evening by the Chamber of Commerce, and considerable enthusiasm was displayed on the subjects brought up for discussion and action.

Believing in the start made toward having North Platte recognized as a convention city, a motion was made that an invitation be extended to have the State Sunday school association hold its 1916 convention in this city. The convention this year is to be held at Broken Bow and Secretary Fisher and a strong committee will attend and urge the acceptance of the invitation.

A. W. Shilling, representing the Spanish War Veterans, outlined the program for the state convention of the association which will be held in this city Monday and Tuesday, June 5th and 6th. He asked the co-operation of the business men in decorating the city, in supplying autos for a ride which will be given to the ladies who attend, and also cars to take the delegates to the rifle range, where a shoot will be held. Mr. Shilling was assured that all would co-operate in making the visit of the delegates a pleasant one.

The building of the road between here and Brady was discussed, and remarks made by County Treasurer Durbin assured his hearers that the completion of a good highway between the two points would be rather slow work on account of financial conditions. The cost of a good road way is estimated at \$6,000 or \$7,000 and as the available funds in the entire second commissioner district is but \$3,300, it would require the taxes of at least two years to build the road, even if all the funds were used for that purpose. However, it was stated that work would be started immediately following the August levy, and the road placed in some sort of travel shape. In this connection a committee was appointed to inquire into the possibility of submitting to the voters of the county a proposition to increase the road levy.

The question of a Fourth of July celebration was discussed and submitted to a committee to be appointed by the president.

Placing telephone and electric wires under ground was brought up and Manager Morey spoke of the difficulty encountered in the work of placing high voltage wires in underground conduits. He knew of no Nebraska town of North Platte's size where high voltage was under ground.

Street lighting was discussed at length, especially the cluster light system, and it developed that the revenues of the city were not sufficient to pay for the current necessary for that class of lights. However, a committee will be appointed to see about placing the necessary underground wires before paving is laid, thus obviating the tearing up of the pavement should it later be decided to install cluster lights.

Secretary Fisher outlined the work proposed for the coming year and asked for the hearty co-operation of members, and chairmen of committees for several specific purposes.

At the conclusion of the meeting a lunch was served by Mrs. Fisher and Misses Hilda Anderson and Estie Westberg.

George Weinberg Takes a Bride

George Weinberg, nearly everybody knows George, surprised even his most intimate friends last evening by taking unto himself a bride in the person of Miss Irma Frederici. The ceremony occurred at the Lutheran parsonage, with Rev. Harman officiating in the presence of a half dozen relatives and friends.
