### W. L. PARK A POSSIBLE SUCCESSOR TO MOHLER.

Among the possible successors to President Mohler, of the Union Pacific, the Omaha Bee mentions W. L. Park, now vice-president of the Illinois Central. It would certainly be fitting that Mr. Park become president of the Union Pacific, for it was with this great trans-continental line that he began his career as a freight brakeman, and ascending through the various positions to that of general superintendent which he resigned to go with the Illinois Central. It would not be unreasonable to surmise that Mr. Park might have a desire to become the active head of the great road which he once served as brakeman, thus covering positions at both ends, an ascendancy any man, no matter how influential, might well feel proud.

Certainly the people of North Platte, and particularly his old-time friends, would be heartily glad to have him named as the successor to Mr. Mohler.

**A Great Combination.**  
Hogs, Corn, Tankage, and Money. But you will not get all the money from your hogs unless you use tankage. Read the following from a firm you all know:

North Platte, Neb., May 18, 1916. Mr. R. N. Lamb, City.

Dear Sir:

Believing that tankage to be good food for hogs, last fall we purchased some from you to feed a bunch of hogs. The corn we were feeding them was exceedingly poor, very soft and chaffy and not marketable.

We fed this soft corn with ground wheat of a poor quality, too poor for market purposes, along with the tankage of about a quarter pound per head per day.

May state that the gain on these hogs was remarkable and far above our expectations. They made us big money, and realized us a good price for our poor grade of corn, which was unmarketable and we feel that by using the tankage as we did the gain was a great deal larger than it would have been without it, and we are well paid for our investment in tankage.

Yours very truly,  
BRATT & GOODMAN,

By E. R. Goodman.

Most experimental farms will tell you that it will pay to feed tankage to pigs from the time they are weaned until they go on the market, why not get all the money from your hogs.

45 percent protein tankage at \$2.25 per cwt. \$23.00 per ton.

We still have some same seed left. Phone 67 R. N. LAMB.

A few days ago sixteen carloads of Idaho hogs formed part of an east-bound train. They were enroute to South Omaha. It is but recently that hogs have been shipped from Idaho to the eastern markets; in fact it is only a few years since that state consumed more pork than it grew.

North Platte railroad men express their regret over the resignations of President Mohler and General Manager Ware, who are highly regarded and have proven exceptionally fair in their dealings with the employees. Naturally the North Platte employees are interested in the successors, for it may mean a general "shape up" of all the officials. Usually when a new man takes a high office, he brings with him friends who succeed other officials under him and so on down the line.
