LOCALS MAKE FAINT SHOWING AGAINST LINCOLN

The North Platte ball team did not make much of a showing yesterday afternoon when pitted against the Lincoln team of the Western League, the score standing fourteen to nothing. The first three innings started off well, neither team scoring, but after that the Links got to Andrews, who occupied the box for the locals, and during the game touched him up for eighteen safeties. After the fourth inning, when the Links put three men across, the local players seemed to lose heart, and did not play with their accustomed ginger, and made several errors that brought cries of derision from the crowd.

The showing made by North Platte was hardly as good as expected. Few expected them to score, but it was generally expected that the Links would not be allowed to romp around the diamond so frequently or so playfully. However there are six men on the Lincoln team who are hitting a .300 or better gait, which is evidence that they are heavy hitters even when up against the best Western League pitchers. In yesterday's game they seemed to place their hit just where they wanted them to fall.

It was not much of a game, it is true, but it gave several hundred fans an opportunity to see Western League ball as it is played.

BANK BUILDING AWARDED TO McMICHAEL BROTHERS

The contract for the new First National Bank building was awarded Wednesday evening to McMichael Brothers of this city. The building which complete will cost in round figures \$50,000, is to be ready to be turned over to the inside finishers, A. Moorman & Co., of St. Paul, Minn., by October 1st, and it will require the latter firm four or six weeks to complete their part of the work.

Orders for the steel and the cut stone for trimmings were placed several weeks ago through Moorman & Co., and will be on the ground by the time they are needed, thus obviating any delay through non-arrival of material. The Victor Safe & Lock Co. will furnish the vault doors and safety deposit boxes.

A pencil sketch of the building shows the structure to be one of beauty, the architecture suggesting solidity rather than ornamentation, and will be the same on the south side as on the west front with the exception of the entrance.

The entire first floor will be used by the bank, the interior arrangement being such as to provide the greatest convenience in the transaction of business, both for the customers and the working force, and with special accommodations for the customers.

The office rooms on the second floor, of which there will be eleven, have all been leased for a term of years by professional men.

The McMichael Brothers are to be congratulated upon having secured the contract, for the building will be a monument to their skill as contractors and builders.

NOTICE

Any one wanting ice call on Joe Spies, the old ice man man, or phone Black 161.

UNION PACIFIC TENANTS NOTIFIED TO VACATE

Tenants who have leases on the Union Pacific right-of-way east of the freight warehouse were notified yesterday that they must remove their buildings one block east. Those effected by this notice are the North Platte Produce Co., Derryberry & Forbes and Anheuser-Busch Brewing Co., and the order becomes effective within thirty days. The removal of these buildings to sites further east is necessitated by the enforced moving of the freight warehouse east to make room for the new depot.

As to the time work will start on the new depot nothing has been given out, other than that orders for material have been placed. Whether the changes in officials at Omaha headquarters will delay the building is not definitely known, but it is generally presumed that it will not.

WAGE CONFERENCE OPENS IN NEW YORK CITY

New York, June 1.—The first joint conference between representatives of railroads of the United States and their conductors, trainmen, engineers and firemen for a settlement of the differences over working hours and wages began here today in executive session. It is predicted that several weeks will elapse before an agreement is reached.

"No outside arbitration," is the slogan of the employes, an answer to a suggestion that the questions at issue be given over to the decision of federal arbitrators in case the conference fails to agree. The principal question is whether the employes are entitled to an eight-hour basic working day—ten hours' pay at the present rate for eight hours' service. Against these demands the railroads have presented propositions for the consideration of the employes, relative to the day compensation shall be paid.
