1911 - - SERVICE - - -1916

That which has stood the test of Time for five years must have merit. The merit in this case has been a service to customers that was not "just-as-good" but a service that was BETTER.

We have known the needs of customers in this community and our age and record of success prove us able to meet those needs.

KEITH COUNTY BOOSTERS PLEASED WITH TRIP

The Keith County Community Club which visited this city Tuesday, returned on a special train at 9:30 that night. A number of them expressed to The Tribune their enjoyment of the day, the visit to the state farm being especially interesting to the farmers who were among the party.

The visitors were driven all over the farm in the autos furnished by the North Platte citizens—eighty-four of the cars—including a trip to the top of the hill where the plant growing tests are made. All phases of the work on the farm were examined and explanations made by Supt. Snyder and his associates, who handled the crowd in a very acceptable manner.

At noon luncheon was served to nearly four hundred and so well was the committee organized, that all were fed within forty minutes. R. R. Dickey served his standard brand of ice cream to the attendants and Harry Porter his thirst quenching beverages.

Following dinner addresses were made by President Thoelecke representing the Chamber of Commerce, M. J. Forbes in behalf of the North Platte business men, and Louis Nacey in behalf of the farmers of Lincoln county. C. J. Eicher, of Ogalalla, responded for the Keith County Community Club.

Returning to town the visitors witnessed a ball game between a team of the visitors and one composed of local business men, the former winning by a score of six to five.

After supper the visitors were entertained at a band concert.

Commissioners Buy Tractor.

After investigating the merits of several makes of tractor engines, including practical demonstrations of their work, the county commissioners this week purchased a forty horse power Twin City machine, capable of drawing two eight-foot blade graders. This grading outfit in charge of competent men, can grade a mile of road at about one-third the cost the county has paid in the past. It is the intention of the commissioners to place this tractor in charge of a qualified man, and with it do all the county grading.

It is probable that the first work to be done with the tractor will be on the Lincoln Highway between the east end of the bridge and Maxwell.

Pres. Thoelecke Expresses Thanks.

"The Chamber of Commerce wishes to extend its heartiest thanks to the individuals who aided in the entertainment of the Keith County Boosters who visited the city Tuesday, and especially the business men of North Platte and the Lincoln county farmers who for the day laid aside their urgent work and donated both their company and their motor cars toward entertainment. It is this spirit that makes for a bigger and better North Platte and for a more prosperous Lincoln county, and when all can pull together in this fashion it is an indication that the time for the marked growth is not far away."

(Signed) O. H. THOELECKE, President.
