POSTMASTER McEVY URGES GIVING STREET ADDRESS

"If letters addressed to North Platte residents gave the street number or postoffice box number, the efficiency of the service would be materially increased," said Postmaster McEvoy today. "There may be three men in town named John Smith, or three women named Ella Jones. If the street number is not given how are we to know to which Smith or Jones the letter should be delivered? The same applies to those who receive their mail through boxes at the postoffice. Much confusion and delay in delivery of mail can be obviated if people, when writing a letter to which they expect an answer, will give their street address."

BURK'S BIG

Uncle Tom's Cabin Company Under a Mammoth Canvas Will Exhibit at North Platte Monday Night September 18th.

"Uncle Tom's Cabin" is the most beautiful play in the English language and justly deserves its popularity. The only play that is identified with American history. It has endured 50 years, and each succeeding year but serves to add laurels to its wreath of popularity. It breathes of loyalty and liberty; it will inculcate in the youthful mind a love of honesty, morality and Christianity; it boldly stands for all that is good, and upholds to scorn and contempt all that is bad, and for these reasons it appeals to all Christian people as the ideal of a great and moral play. Some practical suggestions to fathers and mothers: If you cannot afford to visit but one show this season, this is surely the one. We especially aim to amuse and instruct the children and present nothing inimical to youth and innocence. It will return you both instruction in American history and wholesome recreation, more than ten times the price of admission, and is just what it is advertised to be—moral and refined and instructive as well as amusing. Burk's Big Uncle Tom's Cabin Co. will exhibit at North Platte Monday night, Sept. 18. Under canvas. Prepare for the coming event. A grand Gala Holiday for the rich and poor alike.

Announcement of the Fidelity's New Policy

The Policy that is Different

There has been a growing demand for a plan of insurance which will combine as far as possible the features of those most popular of insurance policies—

The Life and Endowment Plans.

The life plan makes protection during life the chief object of insurance and the most important period that we need this protection is during our active period of life, say from 20 to 60 years of age.

The Endowment plan combines protection with an investment feature, from which the insured will reap the benefit of living at the end of the endowment period. Under the usual endowment forms, says 10, 15, 20 or 25 years endowment policies, the premium is high for the protection afforded (above the average man's ability to pay) and where the sacrifice is made and they are carried, the endowment period comes early in life and you use the money, lose the protection early in life and when you come to old age you are not much better off.

The Fidelity now issues a policy, to a great extent, combining the life and endowment features and overcoming all these objections.

The Installment Endowment at Age 60

This policy gives protection during the active period of your life, viz:—From the time you take it out until you are 60 years of age. You make your last premium payment when you are 60 years of age, and commence drawing the face of the policy in ten equal installments. The premium on this policy is just a little more than for a whole life policy. Phone the office for an appointment for further particulars and advantages of this policy.

Mutual Building & Loan Ass'n.

OF NORTH PLATTE, NEBRASKA.

ASSETS \$840,000.00

To Prospective Building & Loan Borrowers; Non-resident Building & Loan Companies are advertising the fact that they have reduced the monthly payments of borrowers to \$1.10 per month on each \$100.00 borrowed, making the monthly payment the same as the Mutual Building & Loan Association of North Platte. They fail to state that of the \$1.10 paid to the non-resident company, there is only thirty-five cents credited as a principal payment, the balance seventy-five cents being taken for interest. Of the \$1.10 monthly payment to this association on each \$100.00 borrowed sixty cents is for interest and fifty cents is credited as a principal payment.

This difference in the amount credited the borrower will result in the borrower in the non-resident company being compelled to pay not less than \$25.00 more on each \$100.00 borrowed in order to discharge the debt than they would if they were doing the business with this Association.
