**HOME GROUND ALFALFA  
 MEAL PROVES BEST**

The North Platte Substation is now feeding to hogs, dairy cattle and horses alfalfa meal ground by Mr. C. Montgomery on his farm west of the Substation. This meal is being fed as a part of the grain rations. Mr. Montgomery invested in a small alfalfa grinder and is putting his alfalfa on the market in the form of meal. This is a new move on the part of a farmer for this section of the country. By grinding, the price is raised several dollars per ton, and thus far the home market among town people and farmers has taken all the product.

This mill cost about \$125 and is operated by an eight horse power engine. It handles one-half to a ton of hay per hour, requiring three men to operate it. The meal is superior in quality to the meal from the large mills. The process of grinding is different and does not pulverize the alfalfa into a fine, bothersome dust as do the large commercial mills.

This venture, which seems an assured success, recalls to mind the fact that the entire alfalfa meal industry was originated at the "Red Ranch" three miles west of the city when the Payne Investment company ground alfalfa for a hog feeding experiment conducted by the Experiment Station on that ranch in the winter of 1903-04. Since that date the grinding of alfalfa hay into meal has become an industry of rather large proportions and has extended the use of alfalfa very greatly.

It may be of interest to note that a gentleman at Cozad has patented a machine for grinding alfalfa from the swath green and wet. This gives a very excellent quality of meal as the juice crushed out of the stems and leaves acts much like molasses, adhering to the meal, and keeping it from becoming dusty. This machine has not been perfected on a commercial scale nor has a satisfactory drying process been found. Yet, it gives some promise of another advanced step in the handling of the third greatest or possibly the greatest agricultural plant ever brought into the state.

The North Platte Substation has entered in the National Western Stock Show to be held January 20 to 27, two car lots of fat hogs and several Duroc-Jersey harrrows in the individual classes. The Experiment Station at Lincoln has also entered a car load of steers and hogs in individual classes.

**The State Journal's New Novels.** The Journal has made a New Year's announcement of particular interest to lovers of good stories. It has announced the titles of eight of the best novels of the year which it will publish serially, one at a time, with more to come. The novels are: "The After House," by Mary Roberts Rinehart; "Heart of the Sunset," by Rex Beach; "A Rogue by Compulsion," by Victor Bridges; "Big Timber," by Bertrand W. Sinclair; "The Chief Legatee," by Anna Katharine Green; "Betty's Virginia Christmas," by Mollie Elliott Stewart; "Silver Sandals," by Clinton H. Stagg; and "Alice Devonne," by Edward Jepson.

Every reader of either the Journal or News will have an opportunity to read these new novels in serial form. The authors represent eight of the biggest names in present day fiction.

The bargain rate on Journal, \$3.00 daily to January 1, 1918, or \$4 daily and Sunday to January 1, 1918, will soon be withdrawn. Those desiring to read all of these novels should send in an order for the paper today, as the first novel will start soon. Those who prefer an evening paper may substitute the Lincoln News and Sunday Journal at the same price. Address State Journal, Lincoln, Neb.

**GOV. NEVILLE'S STAND  
 WILL SETTLE QUESTION**

**Recommendations on Prohibition Enforcement Legislation Removes Question from Controversy.**

"Governor Neville's straightforward, decisive stand on the subject of prohibition enforcement legislation ought to remove that subject from the domain of controversy," says the Lincoln Journal, a strong prohibition paper. "The legislature is dominated by the governor's party and by the governor's wing of the party. There can be few criticisms by members of other parties or factions of the governor's recommendations, for those recommendations will meet the views of nine 'drys' out of ten. The governor's own party associates can hardly refuse to stand by him at this stage of his administration. If there be any wets wishing to discredit prohibition by inefficient or over-drastring legislation, they have their own party to fight."

"The prohibition enforcement proposals outlined in the inaugural address, were obviously the fruit of a fair investigation of the subject. The experience of other prohibition states has discredited the drinking club and the locker system. The governor, doubtless to the dismay of many of his supporters, puts the ban on these devices for evading liquor laws. This was a danger point in the coming legislation. The governor has done a good turn in thus helping to settle that point safely. The declaration against a 'bone-dry' provision helps with another troublesome point. Good faith with the people of the state requires that the importation of liquor for private consumption as a beverage be not prohibited without further experiment. The voters understood that they were ousting the liquor traffic from the state, not prohibiting drinking. Again, the governor recommends the several devices for law enforcement which have been found essential in other states. Such are the liability of landlords, the authority of state officials to spur local officials to their duty, the setting up of a special law-enforcing body, the ample financing of the law enforcing machinery, and jail sentences for bootleggers.

"The legislature should now have no trouble to agree early in the session to a bill embodying such features as these for keeping faith with the people of the state. The earlier it is passed and signed the better, for with the liquor law out of the way it is possible that the remaining work of the session may be done unhampered by liquor lines. The which is a long sought, long needed goal in Nebraska."

**Record Made by Railroad.** The Pennsylvania railroad system in 1916 carried 196,294,146 passengers on the lines east and west of Pittsburgh without the loss of a single life in a train accident according to statistics made public by the company. It was a record-breaking year in the handling of both passengers and freight traffic. No passengers have been killed on any lines of the Pennsylvania system in a train accident, the statement says, for three years, during which time 553,890,063 persons were transported approximately fifteen billion miles. More than nine million freight and passenger trains were operated over the company's 12,000 miles of railroad lines in the three year period.

**PEOPLE AND EVENTS.** Certified milk took a seat in the luxury class in Chicago on the first day of the year. Labor, expert curing and other precautions sent the price up to 18 cents a quart, an advance of 3 cents in a single jump.

Larry Phipps of Denver, reputed to be Colorado's wealthiest citizen, sent three hand-picked and hand-drawn New York's cards to his three children. The cards were good for \$50,000 each at the banks. Isn't Larry "a love of a dad?"

Detroit has a millionaire police chief and a millionaire deputy sheriff. Both pull down their piles from automobiles and feel their time has come to render some real service to the community. The importance of the job so appealed to the deputy that he invested in a hand-picked \$1,800 star.

Oregon is "bone-dry" by the edict of a whooping majority. Some wet spots persist and drainage schemes make little progress. Astoria is typical. The city's new mayor, elected by a vote of 1,800 to 600, publicly announced: "If a man is arrested for intoxication and the officer doesn't take him home to his family, but takes him to jail, then the officer had better look for another job, then and there." Trust the cop to steer a safe course.

Last week, Dr. O. D. Johnson, of Gothenburg, purchased the practice of Dr. E. W. Fetter, who has practiced here for a number of years, but is now located in North Platte. Dr. Johnson, has a good practice at Gothenburg, and we understand will make that town two days each week, and in order that the people of this vicinity may have a physician at all times, Mr. Fetter will come here the two days that Mr. Johnson is away.—Brady Vindicator.

**SLAVES ONCE SOLD  
 IN FREE NEBRASKA.**

No longer can Nebraska boast that she has always been the home of the free. A few days ago a lawyer while digging in the county records at Nebraska City, found the return of a sheriff in a "slave sale" under execution.

The sheriff's return reads as follows:

"Sheriff's Return—This writ came to hand on November 15, 1860, and was served by levying on the following described property, to-wit: One negro man named Hercules; one negro woman named Martha, slaves, and belonging to Charles F. Holly, said levy being made on the 17th day of November, 1860. I caused a notice to be published in the Nebraska City News, according to law (see execution), that I would offer the above described property for sale at public auction in front of the court house in Nebraska City, in said county, on the 5th day of December, A. D., 1860 between the hours of 10 o'clock a. m. and 3 o'clock p. m. of said day and at the time and place specified in said notice I first offered Hercules, and there being no bidders for him, I then offered the said Hercules and Martha together and sold the same to William B. Hall for the sum of \$300, he being the highest and that being the highest sum bid for said property the same was sold to him."

William P. Birchfield, Sheriff.

**A Big Wheat Check.**  
 Veggy Bros. presented a check at the First National bank last week for over \$8,000, which was for 5,000 bushels of wheat which they had delivered in town. The Veggy farm, which is four miles east of Chappell, produced about 18,000 bushels of wheat the past year and in addition to what was sold from the farm previous to the 5,000 bushels and what was taken to seed 600 acres that they have, still have several thousand bushels yet to market.—Chappell Register.

LET US INTRODUCE  
 QUALITY TO YOU

Quality in Cigars has been our aim since we began making cigars in North Platte over thirty years ago. We put quality in the first cigars we made, and that same quality is in the cigars we make today. Schmalzried's Cigars have stood the test of those more than thirty years. What greater evidence of quality could you desire? If you have not been smoking Schmalzried's cigars, try them—they are certain to please.
