

Our Optical Department

The eye examinations in our Optical Department are made by licensed Optometrists who have the experience that comes from examining hundreds of eyes, and who are exceedingly thorough in their work.

They employ the most approved modern apparatus in their examinations, which are made under normal conditions, no drugs being used for any purpose.

For determining and prescribing for cases of refractive errors, our Optometrists will give you exceptionally satisfactory service.

When symptoms of disease or other conditions that should have the attention of a specialist are found, our Optometrists frankly advise our patrons to such effect. Under no circumstances do our Optometrists treat diseased conditions.

If on making an examination it is found that glasses are required, the next step is the calculation of the proper formulae for the lenses.

This frequently calls for very careful judgment on the part of the Optometrist, as in some cases of long continued eyestrains the eyes cannot stand lenses which would make a full correction of their refractive errors.

THE KATZENJAMMER PICNIC DRAWS BIG CROWD.

The "Katzenjammer Picnic," presented at the Keith Tuesday and Wednesday evenings under the direction of Clara Louise Payne and for the benefit of the Episcopal guild, attracted a crowded house the first evening, and a large audience the second evening. As a home production it was as good as has ever been presented—it abounded with catchy music, novel and varied costumes and pretty dances, and introduced characters so well known to readers of the comic sections of the daily papers. There were Mr. and Mrs. Katzenjammer and the Katzenjammer kids, Happy Hooligan and others who created much amusement. Worthy of particular mention were E. D. Birge and Jay Smith as Mr. and Mrs. Katzenjammer, Louis Kelly and Cecil Cool as Hans and Fritz, Clark LeDoyt as Happy Hooligan, Mamie Pizer as Tabitha Pimrose, and the dances given by little Lena Mary Stone and Marian Huxoll. These were oriental dancing girls, sailor and gypsy dancing girls, the Nebraska girls, the sunbonnet kiddies and other specialties, including songs by Dr. Cressler, Paul Harrington, Mrs. Frank Hatch and a quartette composed of Mrs. Hatch, Miss Hinman and Messrs. Munger and Harrington.

There was not a moment's halt in the program, which was over two hours' duration; one act following another in rapid succession. That the entertainment pleased was evidenced by the hearty applause given each number. It was a splendid entertainment and every one taking part did his or her share in making it a pronounced success.

1500 Cars in County
County Treasurer Souder says license has been issued to about 1,000 automobile owners in Lincoln county, and there are yet nearly 500 who have not applied for license. These latter should not, however, delay too long else there may be trouble. The license fee, less the thirty-five cents paid the state for the number plate, goes into the county automobile road dragging fund, and this year the licenses will provide a fund of nearly \$1,500 for each of the three commissioner districts. That sum of money ought to keep the roads well dragged and in good condition.

Married Wednesday.
Miss Florence Jenkins, of O'Neil, and Sinclair Cunningham, of this city, were married at three o'clock Wednesday afternoon at the home of the bride's uncle at 221 west Sixth street. Rev. Robert White performed the ceremony in the presence of a few relatives. Mr. and Cunningham left that evening for Omaha and other eastern points after which they will be at home in this city. The bride recently came here to make her home with her uncle and the groom has been employed as Union Pacific switchman for some time.

Jobbing Houses Next
Station Agent Bullard has interviewed property owners on east Front and east Sixth streets as to what objections they would have to having a spur run up the alley between those streets from the east line of the original town to Pine street. Why the spur? Well some day there will be several jobbing houses located on east Front street and an unloading track in the alley in the rear would be mighty handy. These jobbing houses are sure coming—and you won't have long to wait. The first will be a fruit house, the next a wholesale grocery.

"Shell Forty-three" the Triangle feature showing at the Keith Monday, goes deep into the most important topic of these times. It tears away the false heroics and the glamor of sentimentality with which war is invented and reveals the truth about man's dedication to a purpose which offers no honor, no reward, no ennobling influence, no purging fire at the call of those who make war. It reveals man, not as an individual at all, but as a mere cog in a great social machine which he must protect at the cost, not only of his life, but all that he has lived for.
