#### RAILROAD NOTES

##### Bonus Checks for Employees.

The ten per cent bonus checks for employees who receive less than \$1800 per year, were mailed out of the Omaha headquarters yesterday and will be received by North Platte employees today or tomorrow. These checks represent ten per cent of the 1916 salary received by those employees who drew less than \$1800. More than 200 employees in North Platte will receive these checks.

Leonard Robinson, who resigned his work with the Union Pacific, has accepted a position in the Oasis.

General Manager W. M. Jeffers and Sup. of Transportation Whitney, came Sunday morning to attend the funeral of the late Charles Dill.

Freight brakemen Graham resigned his position the latter part of last week and accompanied by Mrs. Graham left for Omaha Sunday morning.

John E. Hennessey, of Oskaloosa, Ia., formerly operator in the Western Union office here, was in town last week while enroute to California to visit for two weeks.

Charles James, formerly of the Union Pacific baggage room, who had been on the Mexican border with the Fourth Nebraska regiment, returned here Saturday evening.

Alfred Cochran, of Omaha, formerly operator in the Western Union office here, visited his brother John V. Cochran for several days while enroute home from California.

A. W. Brown left Sunday morning for Los Angeles to spend three weeks. He will be accompanied by Mrs. Brown who has been taking medical treatment there for several weeks.

Will Blalock, formerly of the train dispatchers' office and who has been in ill-health for some time, has been appointed station agent at Melbeta, a position that will not so closely confine him to indoor work.

The pneumatic gates at the Locust street crossing were placed in service Saturday. They are operated by a signalman in an elevated box on the north side of the tracks. Similar gates were in service a number of years ago, but for some reason were abandoned.

Union Pacific engineers Riley Warren, James McNeil, Kirke Stardevant, W. R. Osborne, Walter Johnston and Cauffman were transferred the latter part of last week to the O. S. L. with headquarters at Pocatello, Ida. They left Sunday evening to take up their duties.

Out in a western lumber camp, Pattie, the idol of the village, prayed that a person might be sent to recite burial for her father. Fairmeadow had just stepped off the train, and his appearance convinced Pattie that her prayer was answered, and from that moment the lumbermen accepted him as their "sky pilot." How Fairmeadow became known for miles around as the "fighting parson" and how he won a victory over himself and the enemies he had himself created makes a gripping picture story. J. Warren Kerrigan and Louise Lovely act the leading parts in this story entitled "The Measure of a Man" at the Crystal Wednesday night.

It's certainly unheard of to give away dress goods absolute free, but The Lender Mercantile Co. will give away free for one hour only on Thursday and Friday of this week, January 25 and 26 at 2 to 3 p. m. on each day. Read this announcement in this issue of The Tribune on another page for full particulars.

Mrs. McDonald Passes Away.

Nancy J. McDonald, wife of Lemuel A. McDonald, died of paralysis at five o'clock yesterday morning after a lingering illness at her home on north Dewey street. She was seventy-six years of age and for some time her condition had been critical. Mrs. McDonald was a highly respected pioneer woman who lived a quiet christian life and bore her sufferings patiently. The bereaved relatives are her husband, three daughters, Mrs. Fred Donaldson, Mrs. William Rose and Mrs. Peter Hayes, of this city, and a son Arthur McDonald, who resides south of town.

The funeral services will be held at the residence Monday afternoon at two-thirty and be conducted by Rev. R. A. Crain.

Frank J. Dunn, who has been associated with the North Platte Drug Co. as manager of the Nyal store, has resigned and will engage in business in the east part of the state about February first. He is a splendid young man who has been justly popular in North Platte, and his friends will wish him well in his new venture.

#### Make Presentations to Officers.

At the close of the afternoon session of the Odd Fellows' district grand lodge Thursday J. S. Hoagland, in behalf of the Walla Walla lodge, presented Grand Sire Gouly with a handsome loving cup, and Dean Bowker, on behalf of the Rebekah Degree and the Odd Fellows, presented Grand Master Hoagland and President Mrs. W. V. Hoagland a beautiful picture that had been purchased by those two organizations.

#### Woman Adjudged Insane.

Mrs. Clara Favinger, whose home is south of Wallace, was brought to town by relatives Friday suffering from mental derangement. In a hearing before a board of insanity she was adjudged insane, and was taken to the state institution at Hastings Friday night by her brother J. W. Morgan, of Campbell and her sister Mrs. Sunday, of Hastings. Mrs. Favinger is forty-three years of age and the mother of thirteen children, eleven of whom are living, the youngest but two months old. She became ill about a week ago and since then has spent her time in singing religious songs and weeping until she becomes hysterical.

#### Elect District Officers.

The following district officers of the Odd Fellows were elected at the meeting held in this city Thursday: President, J. S. Hoagland, North Platte; vice-president, C. W. Bloom, Lexington; L. D. Root, Hershey; treasurer, Geo. W. Hill, Gandy. The district officers elected for the Rebekah Degree were: President, Mrs. Anna Walker, Cozad; vice-president, Mrs. Esther Large, Sutherland; secretary, Miss Anna McClain, Cozad; treasurer, Mrs. Louisa Peterson, North Platte.

#### Favor Four-Year Terms

By a vote of eighty-seven to seven the lower house of the Nebraska legislature went on record Tuesday morning in favor of the four-year term for elective county officers, it being understood that such a law was not to affect the terms of the present incumbents. The action was taken upon motion of Duffee of Johnson. It was explained that it was done to ward off the horde of lobbyists such as swooped down upon the legislature two years ago to secure a four-year term law to become effective at once.

##### Stock and Dairy Farm for Sale.

640 acres located 7 miles north of Maxwell, well and windmill, 3 miles of fencing, 65 acres in cultivation, balance hay and pasture. Price five dollars per acre. Terms \$1500.00 cash and balance on easy terms, six per cent interest. There is a big bargain in this property.

##### That Farmers' Non-Partisan League.

Editor Tribune: In the Tribune of the 16th, in speaking of the prospective organization of the farmers' non-partisan league in Nebraska, which caused such a political upheaval in North Dakota at the late election, we read "its objects are to react economic conditions entirely for the benefit of the farmer." That is wildly jumping at conclusions, hasty and in a spirit that is very likely to be misunderstood. All classes of the common people were engaged in that revolt. That league will either be a mighty political uplift or a dismal failure, dependent upon its objects and honesty and its promoters. Should it develop into a class politically or party of classes, it will be short lived. Class parties are undemocratic, un-American and can no more come to fruition on Nebraska soil than could a banana in Greenland.

Suppose that before we pass judgment, we wait until such time as we can judge from results. Under present economic conditions no changes can be had without somebody getting hurt. That revolt in North Dakota ousted the old gang of free-booters, and put the people in possession of their own, and created another surprise by supporting the people's president. With all possible opposition such things will happen sometimes, and it is to be hoped more often in the future.

##### MILK IN WINTER.

Why do you cows give less milk in winter than they do in summer? Just because you are not properly fed. The grass and green food that you have eaten in the summer has been stored up in the form of fat. This fat is the source of the extra milk that you give in winter. Feed your cows with R. A. Thomas' Special Winter Feed. It is the best feed for winter. Sold by Derry, Barry & Pugh.

### ASSETS \$840,000.00

To Prospective Building & Loan Borrowers:

Non-resident Building & Loan Companies are advertising the fact that they have reduced the monthly payments of borrowers to \$1.10 per month on each \$100.00 borrowed, making the monthly payment the same as the Mutual Building & Loan Association of North Platte. They fail to state that of the \$1.10 paid to the non-resident company, there is only thirty-five cents credited as a principal payment, the balance seventy-five cents being taken for interest. Of the \$1.10 monthly payment to this association on each \$100.00 borrowed sixty cents is for interest and fifty cents is credited as a principal payment.

This difference in the amount credited the borrower will result in the borrower in the non-resident company being compelled to pay not less than \$25.00 more on each \$100.00 borrowed in order to discharge the debt than they would if they were doing the business with this Association.

#### Polishing Coral.

Although Venice is a center for tourist trade in coral and shell cameos, coral itself is neither gathered nor worked there. The manufacture is confined to Torre del Greco. Polishing coral in quantities is an interesting feature of the work. It is placed in a small bag of strong, raw linen together with crushed pumice stone, and the bag is shaken in a special tub with a hole for drainage under a small column of water. When the coral is well pumiced it is washed and passed into a clean bag. Instead of the pumice the so called "pulimento" (red or white) is used, and the former operation is repeated, first without water, then with a little and finally with much water, when the coral has become brilliant. What the "pulimento" is the inhabitants of Torre del Greco, while so proud and jealous of their industry, have never taken the trouble to find out, as, indeed, what the "acqua ossigenata" (hydrogen peroxide) is, which is used to change the color of the coral, black when extracted from the sea, to red. As for the "pulimento," it is not different from that which the jewelers use to polish precious stones.—Exchange.
