If when riding in a balloon at a height, say, of 2,000 feet a charge of gun cotton be fired electrically 100 feet below the car, the report, though really as loud as a cannon, sounds no more than a pistol shot, possibly partly owing to the greater rarity of the air, but chiefly because the sound, having no background to reflect it, simply spends itself in the air. Then, always and under all conditions of atmosphere, there ensues absolute silence until the time for the echo back from earth has fully elapsed, when a deafening outburst of thunder rises from below, rolling on often for more than half a minute. She Meant Well. The late Sir Wilfrid Lawson, the rigid apostle of temperance, while on a week end visit made the acquaintance of a sharp young lady of seven, to whom on leaving he said: "Now, my dear, we have been talking some time. I am sure you have no idea who I am." "Oh, yes, I have," the little missy replied. "You are the celebrated drunkard."—London Graphic. Father's Opinion. "What is political economy, dad?" "To be perfectly candid, my son, I can't tell you. Sometimes I think there isn't any such thing."—Philadelphia Bulletin. Making a Distinction. Banker—I stole but \$10,000, and I had the opportunity to steal a million. Lawyer—But you didn't. And \$10,000 is a state prison offense.—Town Topics. PRACTICAL HEALTH HINT. Know Your Condition. Careful investigations have shown that the physically perfect man is almost impossible to find. Almost every one who has reached the age of thirty has some impairment or defect of his body. It may be only a defective tooth or a single digestive disturbance, or it may be trouble with the kidneys that will develop into Bright's disease if it is not attended to promptly. Out of 2,000 men and women examined 70 per cent were found to have impairments of a more or less serious nature, while all the remaining 30 per cent had some defects of a minor character. Are you sure you are physically perfect? If you are not, you had better arrange for a careful medical examination. Little defects or impairments if neglected may cause untold suffering and loss. Discover them in time by having your body inspected. MILK IN WINTER. Why do your cows give less milk in winter than they do in summer? Just because nature does not supply them with grasses and green food. But we have come to the assistance of Dame Nature with B. A. Thomas' Stock Remedy which contains the very ingredients that the green feed supplies in season, only, of course, in a more highly concentrated form. We guarantee that this remedy will make your cows give more milk, and better milk, with the same feed. Sold by Derryberry & Forbes. J31

LET US INTRODUCE QUALITY TO YOU Quality in Cigars has been our aim since we began making cigars in North Platte over thirty years ago. We put quality in the first cigars we made, and that same quality is in the cigars we make today. Schmalzried's cigars have stood the test of those more than thirty years. What greater evidence of quality could you desire? If you have not been smoking Schmalzried's cigars, try them—they are certain to please. J. F. SCHMALZRIED.
