Producing Vaccines and Serums under U. S. License. The Cutter Laboratory, Berkeley, Cal., Chicago, Ill.

**PARKER'S HAIR BALM**  
A potent preparation of astringent, tonic and restorative. For restoring color and beauty to Gray or Faded Hair. Sold by all Druggists.

**EXCELLENT RETURNS FROM THE CANADIAN WHEAT CROP**

**United States Settlers Becoming Rich on Western Canada Lands.**

The large number of United States settlers coming to the Western provinces of Canada are easily explained by the case of Mr. C. Lacy, late of Wisconsin and later of Alberta. Mr. Lacy came to Canada from Wisconsin in the summer of 1914 with \$1,500 available cash in his possession. He rented a half-section of partly improved land in Alberta and commenced summer fallowing. He broke 300 acres with oats, 20 with barley, and 200 with wheat. Also he had two cows and 20 head of young live stock. He was fortunate in buying feed at a bargain and managed to rent the adjoining quarter-section as pasture.

A few weeks ago he decided to realize his profits—and they amounted to \$6,000 absolutely clear from the crop and the stock.

W. J. Winstead, of Brooks, Alberta, says:

"I landed in Brooks, March 18th, 1916, with one car of household effects, and nine head of good horses, and less than \$500 in cash. I have put \$1,500 worth of improvements on my farm. I have 31 head of cattle, 16 head of horses, debts all paid, a new automobile, and a good, stiff bank account. At present prices, I can cash in for \$18,000. I am well satisfied, and expect to double this next year.

I have threshed altogether 7,000 bushels of No. 1 Northern wheat from two hundred acres, which went from 24 to 56 bushels per acre. Seven thousand bushels of wheat, all No. 1 Northern, two thousand bushels of oats, 670 bushels of flax, 700 bushels of barley—all at market prices—well, figure this out for yourself at the market price. I sold 3,100 bushels of wheat at \$1.74, am holding the remainder for \$2.00. Also all the oats, barley and flax for higher prices."

Intelligent farming pays always according to Alex. Wattle, a prosperous farmer. Some figures to prove his contention that he has "made good."

In 1914 Mr. Wattle threshed 40 bushels to the acre from a 30-acre crop. This sold for \$1.60 per bushel, which, after deducting seed, labor, twine, threshing and freight, left a clear profit of \$50 per acre, or a total of \$1,500. From last year's crop of 34 acres, just sold, he received after freight had been deducted, \$1,876.94.—Advertisement.

**Plays Many Pieces Without Stopping.**  
Application for patent rights has been made for a phonograph that is capable of playing several disk records in succession without requiring the attention of an operator, says Popular Mechanics Magazine. The machine also will select special records and render them, or reproduce a single one as many times as desired. Small regulating knobs permit an operator to omit, repeat or stop any particular selection. Furthermore, it is possible to set the machine to stop automatically after playing any record.

**64 YEARS YOUNG!**

Mr. S. P. Benton, Kerrville, Texas, writes: "For several years prior to 1906 I suffered from kidney and rheumatic troubles. Was bent over and forced to use a cane. For these disorders I am glad to say I used **Dodd's Kidney Pills**, which proved to be the proper remedy. I am 64 years young, feel fine and once again stand as straight as an arrow. **Dodd's Kidney Pills** deserve great credit." Get a 50c box at your dealer's to-day. A generous free trial box will be mailed if you send the coupon.

**The Reason.**  
Teacher—What's your father's name, Bennie?  
Bennie—Same as mine—Watkins.  
Teacher—But what is his first name? What does your mother call him?  
Bennie—She don't call him nothin'—she likes him.

**ACTRESS TELLS SECRET.**  
A well known actress gives the following recipe for gray hair: To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

**Quite the Reverse.**  
"I hate to play poker with Hobbs." "A hard loser, is he?" "No; an easy winner."  
There is something wrong with a girl who can't blush.

**POULTRY FACTS**

**EGGS AND MARKET CHICKENS**

**Plymouth Rocks, Wyandottes and Rhode Island Reds Are Most Popular American Breeds.**

American markets prefer fowls that are medium size, that have short, plump bodies and yellow flesh and legs. The breeds that carry these requirements are the Wyandottes, Plymouth Rocks and Rhode Island Reds, says a writer in *Indiana Farmer*. One who wishes to combine the selling of eggs and market poultry will make no mistake if he chooses one of these breeds.

The smaller breeds of fowls—those of the Leghorn class—are not as desirable as a market fowl, for the reasons that they have small bodies and do not fatten readily. Some markets discriminate against Leghorns, quite often the prices offered being four or

Barred Rock Pullet.

five, cents under the figures given for the larger fowls. On the other hand, if one expects to obtain the greatest possible income from eggs, it certainly would be advisable for him to handle the smaller fowls. As a class, Leghorns lay better than the larger fowls and consume less feed. A Leghorn pullet will reach laying maturity a month earlier than will pullets of the larger breeds.

The larger breeds, such as Langshans and Cochins, are not raised extensively for the reason that they are considered poor layers. In some sections of the country, where large roasting chickens and capons are in demand, they are profitably grown.

**EGGS ARE MOST PROFITABLE**

Should Be Important Source of Income From Farm Flock—Sell Broilers During Spring.

Eggs for market should be the most important source of income from the farm flock, according to M. C. Kilpatrick of the Ohio college of agriculture. There is a steadily increasing demand for fresh eggs of good quality at profitable prices. In addition eggs are produced with less labor than other poultry products and are more economically marketed.

Poultry for market should be the second source of income. Under present conditions the larger part of the poultry meat produced on most farms is a by-product produced and sold with little regard to the cost of production. The poultryman should plan his work so that while producing eggs for market he may obtain considerable revenue from the sale of broilers during early spring.

**GIVE CHICKENS GREEN FOOD**

During Winter Months Hen Must Be Given Something to Take Place of Bugs and Insects.

One reason why eggs are not laid in the winter months, even where there are pullets, is that the summer supply of worms, bugs and insects is cut off, and no meat substitute is given to take their place.

**WHITEWASH FOR HENHOUSE**

Makes It Lighter, Cleaner and More Pleasant and Healthful for Flock—Clean Walls First.

A good coat of whitewash on the interior of the henhouse will make it lighter, cleaner and more pleasant and healthful for the flock, but be sure and clean the walls thoroughly before applying the whitewash.

**BUILD FLOOR HIGH AND DRY**

It Should Be at Least Foot Above Surrounding Ground to Guard Against Sudden Thaws.

High and dry is a good rule to follow in poultry-house floor construction.

The floor should be built at least a foot above the surrounding ground as a safeguard against flooding by thawing snows or heavy rains.

**Highway Improvement**

**DRAGGING ROADS IN SPRING**

Operations Should Begin Just as Soon as the Frost Starts to Come Out of the Ground.

Nothing adds more immediate value to our farm land than accessibility to markets, such connecting link between the farm and market being a good road. The early dragging of our dirt roads is certainly to be commended. Just as soon as the frost begins to come out of the ground, the farmer should commence dragging.

This is not a laborious job, a good team can put the road between him and the first crossing toward town, even if half a mile away, in good condition in a half day, and he will save many times the cost of such labor or expense during the year. Besides the additional value it adds to the farm, there is that personal pride that we all owe to every community, and especially to ourselves.

**GRADING AND ROLLING ROADS**

Steel Device Invented to Correct Certain Degree Fault of Drags on Dry Highways.

Split logs and drags and commercially manufactured drags involving the basic principle of Mr. D. Ward King's simple split-log drag, have done much for the dirt roads of the nation, and these make up the bulk of the mileage of the country roads of this nation. The originator of this type of drag advanced their use while the road was still muddy, to "puddle" the dirt of the road's surface and so make it more waterproof as well as to smooth the surface of the road. This is the best time to use them, for then they accomplish these two tasks so important to the making of a good dirt road. But for some reason or other the bulk of users of road drags persist in using them only after the surface of the road has become dry and rough after a rain, simply to smooth it up.

When used in this way, all the drags of this type have one basic fault; they leave a ridge of loose dirt in the center of the road. If the weather continues dry and hot, this soon dries and pulverizes into dust, to be blown about with the shifting winds. If it rains, this loose dirt quickly absorbs a large amount of water and turns into mud—much quicker than it would have been if it had been packed firm and hard, instead of being loose and porous. Herewith is shown a drawing of a steel drag of this same kind which is designed to correct to a certain degree at least this fault of drags when used on dry ground. It is designed to pack more or less firmly this little ridge of loose dirt which is

Grader and Roller.

drawn into the middle of the road by the smoothing action of the drag when the road is dry.

Just back of the "delivery" end of both blades to the drag is a hinged roller for the purpose of further pulverizing and also of packing this loose dirt. One lever controls the cutting or dragging blades so they can be set at whatever angle is desired, to regulate the degree of cutting which is done by them. Another lever regulates the height at which the rollers may be set, and so the amount of packing they shall do.—Business Farming.

**AUTOIST LEARNED TO GROAN**

Sight of Road Grader in Offing Filled His Heart With Dismay—Drag Is Cause of Smiles.

Speaking of grading operations, the autoist has learned to groan when he sees a road grader, manned by a half-dozen willing men, show up in the offing. He knows that the presence of the grader forecasts bad roads for weeks to come—sod, loose dirt, ruts and bumps, and when the rain comes, with little prospect of quick drying of the sodden mass. But he smiles when he sees a road drag, for he knows that means immediate improvement of the road and permanent benefit.

**Good Roads.**  
The value of farming land depends very largely on the distance from a market. A good road has the effect of shortening the time required for carrying a load of produce to market, which is practically the same thing as shortening the distance.

**Turkestan Is Inferior.**  
The commercial Turkestan alfalfa has been tested quite thoroughly in all parts of the United States and in nearly every case has proved inferior to American-grown strains.

**THICK, GLOSSY HAIR FREE FROM DANDRUFF**

Girls! Beautify Your Hair! Make It Soft, Fluffy and Luxuriant—Try the Moist Cloth.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any store and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all. Adv.

Manufacturers of that country are planning to establish the first paper plant in Argentine.

**100 Years Old**

"The kidneys play a most important part in causing premature old age and death—the more injurious the poisons passing through the kidneys the sooner comes decay"—so says a distinguished physician, who further advises all people who are past thirty to preserve the vitality of the kidneys and free the blood from poisonous elements, such as uric acid—drink plenty of water—sweat some daily and take Anuric before meals.

This Anuric is put up in tablet form, and can be obtained at almost any drug store. For that backache, lumbago, rheumatism, "rusty" joints, swollen feet or hands, due to uric acid in the blood, Anuric quickly dissolves the uric acid as hot water does sugar. Discovered by Dr. Pierce of Buffalo, N. Y.

Prevent premature old age by simply sipping a cup of hot water every morning before breakfast, taking a little Anuric before meals and live to be a hundred.

**The Garden Is Half the Living**—But not unless you have the right kind of a garden. And you can't raise a good garden without good seeds to start with—just good seeds are the best in the world and are the kind for you to plant, and Field's is the place to get them. Write For Garden and Seed Book and Seed Sense, Free. Our Seed Book tells you the real truth about the seeds and gives you common sense instructions about gardening. And Seed Sense is the dearest little garden paper you ever saw. We send it free to our customers. Get these books, and raise a big garden and beat the "High Cost of Living." We will send them free. HENRY FIELD SEED CO., BOX 103, SHENANDOAH, IOWA

**Crack Shot.**

"He's a crack shot."  
"Never knew he handled firearms!"  
"Doesn't. He can send a full shovel of coal through the furnace door without covering the floor."—Buffalo Express.

About the only way a man can fool a woman is to make her believe she's fooling him when she's not.

If free advice was only a good fertilizer all farm lands would be rich.

"Dar's as fine a goon as I ever see, Broder Wickham. Where did you get it?"  
"Missus Rawley," said the carver of the goon, with dignity, "when you preach a special good sermon, I never see you where you get it. Seems to me dar's a 'real' matter sayway."

If anybody asks how you got nervous indigestion, constipation or dyspepsia you couldn't tell, but if you want to get rid of all such painful disorders

**Green's August Flower**

will act promptly in the relief of all stomach and bowel troubles, and your freedom from pain and discomfort will make you feel that life is again worth living. 25c and 75c at druggists and dealers. 51 years of success.

**E. W. Drove**

**Raise High Priced Wheat on Fertile Canadian Soil**

Canada extends to you a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta. This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help feed the world by tilling some of her fertile soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think of the money you can make with wheat around \$2 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed Farming in Western Canada is as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. Military service is not compulsory in Canada but there is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches, convenient. Write for literature as to reduced railway rates to Supt. of Immigration, Ottawa, Can., or to
