Dangerous Eyeglasses

are all eyeglasses that are not specially ground and fitted to the eyes for which they are intended. Here your eyes are examined in a specially equipped eye testing room by Optometrists who are skilled men.

All work is carefully inspected and must be perfect before it leaves our shop.

You don't need anyone to tell you that our glasses are a help and a comfort. You are sure of it the moment you put them on.

We have our own lense grinding machinery and can make new lenses or duplicate your old ones on short notice
