

### Key Your Eyesight as Young as Your Memory

With KRYPTOKS (pronounced CRYPTOKS) you can adjust your vision from near to far as quickly and accurately as when you wear a youth.

Why fuss with two pairs of glasses or wear frantically over your reading glasses, to see objects a few feet away when you can wear KRYPTOKS and enjoy near and far vision in one pair.

### KRYPTOK GLASSES THE INVISIBLE BIFOCALS

KRYPTOKS are fast replacing the old-style bifocals because they are void of lines, seams or humps of any kind. Nobody but the wearer would ever suspect they were anything but single vision lenses.

You can always tell KRYPTOKS by their clear, even smooth surfaces.

### WILCOX DEPARTMENT STORE HAS ENGAGED THE KEITH THEATRE FOR A SPECIAL MATINEE.

There have been reels of moving pictures exhibited in North Platte, but none to compare with the one Wilcox Department store will show at the Keith theatre Tuesday afternoon, Mar. 20th from two to five o'clock. We have seen train wrecks, battle scenes, submarine views, horses plunging from cliffs, nobility at play, whaling crews in the Arctic, lion hunting in the African jungles, etc., but this newest product of the silent drama is the showing of front lacing corsets on living models. The theatre has been engaged for a special matinee, and only women will be in attendance. Many male patrons will be disappointed at learning that they are to be excluded from this theatre on the afternoon mentioned, but as the seating capacity will be taxed, and as the film is of direct interest to women only, the men will have to content themselves with meager descriptions of those parts of the scenario that the women think might interest "very man."

A dozen models of varying types are employed in this picture and the actual fitting of Gossard corsets is shown. Through clever manipulation of the motion picture camera it is possible, at the same time, to see two likenesses of each model advancing on the screen. In this way the contrast between the uncorseted and correctly corseted figure of each model is clearly shown. Around the fitting and model promenades, there has been written a very interesting story entitled, "The Social Key." The Wilcox Department store is to be congratulated on their ability to secure an early run on a film in such great demand.

Complimentary passes are being issued in their corset department and you can get as many as you like for yourself and your friends.

Moving pictures are certainly bringing to our doors sights that a few years ago were considered far beyond the reach of the average man or woman. It is the educating, as well as the entertaining feature of moving pictures that has made possible the wonderful success they now enjoy, and the Wilcox Department store will undoubtedly find themselves besieged for requests for this matinee for women only.

### To the Public.

North Platte people demand something better than costly experiments, such as they have had in the past. Your co-operation is earnestly requested to make our city second to none for sanitary plumbing and satisfactory heating installations. Hereafter I shall employ only experienced workmen and will guarantee all my work absolutely. Estimates cheerfully furnished. 16-2 WM. LYMAN.

### A Hundred Dollar Hog.

A farmer living in the Maxwell section marketed a seven-hundred pound hog Friday for which he received one hundred dollars. It was a big hog, also a big price, and probably brought the seller more money than was ever before paid for a fat hog for market purposes.

### Another Snow

Over two inches of snow fell Sunday night adding another fifth of an inch of moisture to the already well soaked earth. It fell without scarcely a breath of wind and therefore was evenly distributed over the ground. Certainly the soil will be in fine shape for spring plowing.

### Long Distance Telephone Service Means a Clear Track for Each Call

For each long distance call, we must set aside an entire circuit made up of two wires.

Enough of these circuits must be built, operated and kept in repair to provide service to any point at any moment. For many hours each day the wires are idle, but they must always be ready for service should anyone want to use them.

Telephone calls cannot be hung on a hook to be distributed out through several hours, as operators may have time, or wires may be clear, to send them. Every call must be handled as quickly as possible, because there is a party ready to talk.

The large majority of long distance calls are handled in a few hours during the busy part of the day. The rest of the time an expensive equipment is practically idle.

### Only One Conversation On a Circuit

If a railroad company were forced to keep a track clear from one end to the other for each train and haul but one car at a time on that train, freight rates would be extremely high.

Only one telephone message at a time can be carried on the telephone track of two wires. For every telephone call we must have a clear track from one end to the other.

Many long distance lines carry very few calls—not enough to pay the cost of keeping the wires in repair—yet to give a universal service these lines must be held ready for such calls as our patrons want to send.
