

Change in Banking Hours.

On account of the post office Register window closing at 6 p. m. and the General Delivery window at 6:30 p. m. the large amount of mail sent out from North Platte can hardly be prepared on time, and as many bank in Nebraska towns are now closing at 3 and 3:30 p. m., commencing April 1st, 1917, the banking hours of the banks of North Platte will be 9:00 a. m. to 3:30 p. m. This will also bring the working hours of the bank employes more nearly the usual working hours than formerly.

ROMIGH TAKES LEASE ON PIZER'S NEW BUILDING

LEASE MADE FOR TEN YEARS ON NEW BLOCK ON LOCUST STREET

Bids on New Building, Which will be 44x80 Feet, Two Stories, Will Be Asked for Next Week.

J. V. Romigh, agent for the Dodge, Chevrolet and Hupmobile cars, who since last September has conducted a garage in the Ritner building on west Sixth street, has secured a ten year lease on the 44x80 foot two story building which Julius Pizer will erect on the corner of Locust and Sixth streets. This building will correspond in style to Mr. Pizer's building just north. The new building will have plate glass windows on both the west front and the south side. Mr. Romigh will use the south twenty-two feet of the ground floor for a show room and office, the north twenty-two feet for storage and wash room for cars. Space is provided on the north side for an elevator, with a direct entrance there, to from Sixth street. The entire second floor will be used for storage purposes and as a machine shop, the latter to be well equipped with power driven machines such as will be needed in the business. The lower floor will be concrete.

The building will be heated from a plant located in the present Pizer building.

The plans for the new building are about completed and will be placed in the hands of the contractors for bids early next week. It is hoped to begin work shortly after April first and have the building completed not later than June 15th.

The building will be a model one for a garage, occupying as it does a central location, and so constructed as to be convenient for that purpose.

are still \$17, but the price of nearly everything else has jumped.

When the war came everyone in the clothing business thought that wool would go up. The makers of Styleplus Clothes \$17 on account of their extensive advertising were duty bound to keep on supplying the public with "all wool fabrics, expert tailoring, the skill of a great designer," at the known price \$17—provided there was any way on earth to do it.

What happened? These makers bought woollens and linings in tremendous quantity. They kept on advertising "the price remains the same." Volume doubled, manufacturing costs dropped because of the increased production—new efficiency and new economies came to light through the "necessity of the hour."

Incidentally, the makers as well as ourselves have been content with a smaller profit in order to keep your price the same.

Please do not forget—we are the only Styleplus Store here.
