Save Three Hours out of Every Four Your Horses Work by Using Smith Form-a-Truck \$350 F. O. B. Chicago

Every minute wasted on the road by slow, inefficient hauling and delivery costs you real money. Horses take from three to four times as long to cover the ground as it will take you when you install Smith Form-a-Trucks in your service. Three to four miles an hour is the best horses can do with a ton load. Smith Form-a-Truck replaces the slow time wasting walk of horses with a speed of from ten to fourteen miles an hour under every condition of work. And it costs no more to buy a Smith Form-a-Truck than it does to buy a good pair of horses equal to the work of hauling a ton load. If your hauling or delivery requires all-day service every working day of the year, you must have at least two teams for every wagon. The sturdy, efficient, untiring Smith Form-a-Truck never takes time out for rest, never has to lay off the job. It works steadily day in and day out, always maintaining its high speed, always moving its load quickly, easily, and at lower cost than any other form of service you can buy. Records of service obtained from over 10,000 Smith Form-a-Truck users, show a ton mile cost of less than 8 cents. And the first Smith Form-a-Truck ever sold has been in service four years, covered 20,000 miles and cost only \$8 for repairs. Get a Smith Form-a-Truck, attach it to any Ford, Dodge Bros., Overland, Buick, Chevrolet or Maxwell chassis and end your excessive hauling and delivery costs. Put your hauling problems up to us. It doesn't cost you a cent to learn just how much money we can put back into your pocket that you are now putting into horses. North Platte Truck Co., NORTH PLATTE, NEB. GEORGE GARMAN, Mgr.
