

Natural Sequence.
The teacher had explained that a monarchy is a country ruled by a king. The pupils got that.

"If the king dies, who rules?" the teacher continued.

"The queen," someone suggested.
"Yes, under certain circumstances which I shall explain later, that is true. Now, if the queen dies, who takes her place?"

Only one boy ventured to reply.
"The Jack," he said.—The Web.

A MINISTER'S CONFESSION

Rev. W. H. Warner, Route 2, Myersville, Md., writes: "My trouble was sciatica. My back was affected and took the form of lumbago. I also had neuralgia, cramps in my muscles, pressure or sharp pain on the top of my head, and nervous dizzy spells. I had other symptoms showing my Rev. W. H. Warner kidneys were at fault, so I took Dodd's Kidney Pills. They were the means of saving my life. I write to say that your medicine restored me to perfect health." DODD'S KIDNEY PILLS, 50c box, any store. Dodd's Medicine Co., Buffalo, N. Y.—Adv.

Quite True.
Teacher—What did Esau do about his porridge?

Pupil—He made a mess of it.

Ajax may have defied the lightning, but he never bumped into a "U" boat.

If you think you can't it's a cinch you won't.

DAIRY FACTS

CALF-FEEDER IS ARTIFICIAL

Combination Pacifier and Nurse Bottle Attachment for Milk Pails is Shown in Drawing.

Who has not more than once angrily kicked a calf "in the stots" while trying to teach it to take its liquid dinner from a pail instead of from its mother's udder in nature's well approved manner? But the new efficiency movement in the business of farming has approved the artificial method of feeding the calves so as to increase the income to be obtained from milking their mothers. Some ingenious son of a farmer seems to have set himself the task of devising some method of making the calf want to drink from the

New Calf-Feeder.

pail rather than simply, and more or less forcibly, making him drink from it. The result of that thinking is the combination pacifier and nurse bottle attachment for milk pails shown in the accompanying drawing. It consists of a metal float carrying a teatlike attachment on which may be placed a rubber nipple. This arrangement lets the calf hant and suck all it wants to, but still forces it to draw its nourishment from the pail instead of from the maternal udder. All you have to teach it is to stick its nose downward instead of upward in order to get hold of the nourishing teat.—Farming Business.

DAIRY COW AND HER PRODUCT

Every Animal in Herd Should Be Tested Annually for Tuberculosis
—Use Concrete Floors.

It is a good rule to have every cow in a herd tested at least once a year for tuberculosis.

To insure steady motion, a separator must be fastened to a solid foundation. A concrete floor gives this better than anything else.

Sometimes lack of exercise causes barrenness in dairy cattle. It is never well to allow the dairy cow to take on much fat. Always give her plenty of exercise.

The average cow in full milk flow will consume from 30 to 40 pounds of silage to advantage. Add to this some 10 pounds of dry fodder, and the roughage feed is complete.

Only concrete floors should be permitted in a dairy barn. They cost more, perhaps, originally, but they are the cheapest in the long run. For one thing, they make it possible to save some of the liquid manure, a very valuable item.—Clemson College Bulletin.

SIZE OF DAIRYMAN'S INCOME

Noticeable Increase Where Purebred Bulls Are Maintained—Scrubs Do Not Pay for Keep.

Figures recently compiled by the University of Illinois seem to show that there is a definite relation between a good bull and the size of the dairyman's income.

On 124 dairy farms where purebred bulls were kept at the head of the dairy herd, the average farm income was \$1,102 after deducting the taxes, interest on investment, etc.

On 400 dairy farms where purebred bulls were kept at the head of the herd the farm income was found to be \$734 per year, and on 83 farms where scrub bulls were used the farm income was \$243, or failed by \$243 to pay interest on the investment, to say nothing about pay for the owner's time.

FEEDING COWS WHOLE BEETS

Somewhat Larger Yield of Milk and Milk Fat Obtained Than When They Were Chopped.

In a foreign experiment with dairy cows it was found that the feeding of whole beets produced a somewhat larger yield of milk and milk fat than when chopped beets were fed, this increase probably being due to more complete mastication and utilization.

FARMERS' SLICE QUITE THIN

Not Much Money Left for Producer After Creamery Man, Railroad and Retailer Get Theirs.

By the time the creamery man gets his slice out of the milk profits, the railroad another slice, the commission man still another and the retail dealer his, the slice that is left for the man who ought to have the biggest slice of all is pretty thin.

GAS, DYSPEPSIA AND INDIGESTION

"Pape's Diapepsin" settles sour, gassy stomachs in five minutes—Time it!

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it.

Pape's Diapepsin is noted for its speed in giving relief; its harmless ness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any dealer and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

Had Evidence.

Tommie—Grandma, did you used to tickle daddle when he was a boy?

Grandma—Yes, Tommie, why do you ask?

Tommie—Well, then, I guess it's true what teacher said about history repeating itself.

A Kidney Medicine That Stands the Test

I wish to state that in the seven years that I have sold Dr. Kilmer's Swamp-Root I have never known of a single customer who did not feel satisfied with the results obtained from its use and speak very favorably regarding Swamp-Root. They always come back and ask for it and that in itself is a sufficient guarantee of the value of the preparation in the troubles for which it is intended. It is a splendid kidney medicine and I take happiness in handing and selling same.

Very truly yours,

LIENHART PHARMACY,
C. J. Lienhart, Prop.

Dec. 24, 1915. Norman, Neb.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

USING ROAD DRAG PROPERLY

Where Dirt Road Has Been Well Built

Implement Will Keep It in Satisfaction

factory Condition.

If a dirt road is properly built, the road drag will keep it in good condition.

Like any other work there is a best way to do it. These rules from the Highway Magazine, tell how to get the right results.

"Use a light drag."

"Haul it over the road at an angle so that a small amount of earth is pushed toward the center of the road.

"Drive the team at a walk."

"Ride on the drag; do not walk."

"Begin at one side of the road, returning up the opposite side."

"Drag the road as soon after every rain as possible, but not when the

rain has stopped.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted off, root and all, without pain.

A small bottle of freezezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezezone tell him to get a small bottle for you from his wholesale drug house.—Adv.

The Hint Sufficient.

"Pa, why do you insist on my singing when Mr. Rimley calls?"

"Well, I don't like the fellow, and yet I hate to come right out and tell him to go."
