Farm and ranch loans at lowest rates and best terms. Money on hand to close loans promptly.

43rd BUCHANAN & PATTERSON.

WILL RECOMMEND THAT CITY TAKE OVER CEMETERY

Despite the disagreeable weather, a number of men and women, who are members of the cemetery association, gathered at the court house Friday evening to hear reports of the committees appointed at a prior meeting and to make arrangements to put the North Platte Cemetery in better shape.

One of the committees appointed reported that at the session of the legislature just adjourned a law was passed that cities of this class might own, control and care for such cemeteries, and that the control should be placed in a board of six members. When North Platte became a city of the first class it happened that it got in a group of cities where no law gave this authority with reference to the management of cemeteries. This was evidently an oversight in legislation, as all villages and both smaller and larger cities have this authority to control and manage cemeteries to provide for the improvement and beautifying of such cemeteries.

At this meeting the cemetery association unanimously decided that the best plan to adopt would be to deed the North Platte Cemetery to the city and to turn over the money on hand amounting to about \$2,000 to the city, and to give the city control of the cemetery under the law. The cemetery board must serve without pay and the association investigated the situation and selected three men and three women to recommend to the council for appointment upon this board. The city is given authority to make such a levy as may be necessary to properly improve the cemetery and it is probable that a small levy will have to be made for a year or two to get the cemetery in proper shape, and thereafter the cemetery will probably be on a self sustaining basis. One of the first needs is city water.

The meeting adjourned to meet with the city council this evening to present the plan to the city council for its adoption and for the appointment of the cemetery board. All members of the cemetery association are requested to be present at this meeting of the council, which will be held at the city library. It is believed that there will be no opposition to the plan of placing the cemetery under control of the city. In fact, it is stated on good authority that it is the worst appearing cemetery in the state of Nebraska adjoining any city of the size of North Platte or larger.

Miss Elaine Bundy closed her term of school northwest of town last week and began work in the Brooks studio yesterday morning.

Arthur Bullard has filed an application for admission to the officers' training camp at Ft. Snelling, Minn., which opens May 14th. Mr. Bullard will leave for the camp the latter part of next week.

RAILROAD NOTES

Conductor Gus Anderson, who recently submitted to an operation in an Omaha hospital, is getting along nicely.

Engineer W. D. Jones returned a few days ago from a visit in Lexington where he formerly operated a restaurant.

Conductor Broughton, who has been on the Omaha-Portland run for some time, resigned last week and has enlisted with the Omaha company.

Engineers McNeal, Morris, Eshom, Warren, Cauffman and Johnson, who had been employed on the Wyoming division for several weeks, returned here the latter part of last week.

Supt. Anderson, who was injured recently while transacting business for the Union Pacific in Cheyenne, is getting along nicely at a local hospital.

Wm. Whitlock, Fred Frederickson, Frank Tracy, Fred Barraclough, Andy Washburn and James Minshall left yesterday morning for Omaha to be present at the meeting of the Union Pacific pensioners, which will be held today.

Last week was one of the busiest weeks the Union Pacific has ever experienced, and road men were, to use their expression "run to death." Within twenty-four hours as high as seventy locomotives of incoming or outgoing trains passed over the turn table at the round house.

The Adams, American and Wells Fargo express companies have formally made application to the state railway commission to increase the rates in this state. A thirty-five per cent increase above the present rate is asked. The companies are to be given a hearing some time in June.

CITY AND COUNTY NEWS

Mr. and Mrs. Clyde Fernandes, of Omaha, are expected here today to attend the May ball and visit with Mr. and Mrs. Clyde Cook.

Governor Neville arrived in town Sunday morning and remained until last night visiting friends and looking after his business interests.

Dixon-Perfecto Glasses are something you should investigate. They are guaranteed not to break. Harry Dixon, Graduate Optometrist.

Don't fail to see the new lot of graduation suits that will be placed on sale Thursday of this week at The Leader Mercantile Co.'s.

Leah Porter, the young daughter of Mr. and Mrs. Harry Porter who has been seriously ill with pneumonia for some time, is much improved.

One can waste more energy through defective eyes than by any other human channel. HARRY DIXON, Jeweler and Optometrist.

The Presbyterian aid society will meet Thursday afternoon in the church basement entertained by Mesdames H. F. White, Davidson, and Laughlin.

Havoline Motor Oils and Greases—Pennsylvania Vacuum Cup Tires, 6,000 miles guaranteed, now to be had at the Romigh garage, 107 West 6th street. 29-4.

Ralph L. North returned Sunday evening from Omaha where he went to meet Mrs. North who was enroute here from Grand Rapids, Mich. They will reside on east Third street.

Wilfred Lucas and Constance Talmage are co-stars in the "Microscope Mystery" at the Keith Thursday. Mr. Lucas as a country doctor with a love of microscopic study, solves a murder mystery and saves an innocent girl from being charged with the crime. The comedy part of the program will be "His Last Scent," with Fred Mace.

F. K. Flynn, formerly of this city, who has been in Cuba as a representative of the Luce Sugar Cane Harvester Co., sailed for New York Sunday and will again be located at Watertown, Wis. In a letter to The Tribune he says: "Aside from the seizure of the interned German and Austrian ships and legislation dealing with the supply and prices of food stuffs, Cuba's entry into the war has had no apparent effect on life or business in the island."

James Snyder, retired conductor, has accepted the agency for Lincoln county for the Quikedge Knife and Shear Sharpener, a little machine for everyday use that should be in every household. Mr. Snyder is now canvassing the city and will call and show you the advantage of this sharpener which sells for \$1.50. On each sale made Mr. Snyder donates five cents to the Women's Relief Corps to aid the Corps in charitable work.

Of all cattle diseases, Blackleg is perhaps the most dreaded. The peculiar thing about it is the fact that it almost invariably attacks the best animals. A fat, sleek, thriving calf will succumb where a thin, scrawny, emaciated one is not affected. The disease makes its appearance with a suddenness that is astounding and runs its course in a correspondingly short length of time. A calf may be perfectly well and healthy one day; show signs of Blackleg the following morning and be dead by night.

Considering these facts it is no wonder that the disease is much dreaded. The best authorities admit that there is little use trying to treat it, but fortunately animals may be protected by vaccinating. To get best results this operation should be performed early in the spring before cattle go out to pasture. Blacklegoids, the well-known and widely used Blackleg Vaccine, are unquestionably an effective means of protecting against the disease. All cattle owners should know about them. The manufacturers publish booklets and circulars which give many interesting and valuable points about the cause, nature, symptoms and means of preventing Blackleg. The next time you are in town, ask for copies of these publications at Stone's Drug Store.

To The Housewife who Bakes Her Bread.

Is your bread always the same?

If not, then the food value of the loaf will vary and at times will be positively harmful if eaten as food.

Sour bread, in time, will cause serious stomach troubles. Fermentation of bread dough must be understood to get wholesome and nourishing bread. Good bread is the cheapest and most nourishing food you can buy.

Dickey's Krisp Krust and Dickey's Home Made Bread are pure food products that are baked in a bakery as spotlessly clean as your own kitchen.

It has that fine natural wheat flavor that would be lost if fermentation was not properly conducted. Take no chances but order a loaf of Dickey's Krisp Krust or Dickey's Home Made Bread from your grocer or our store today. Made in 10c and 15c loaves.

Cuts without crumbling and butters without breaking.

DICKEY'S BAKERY.
