

Many ills come from eye strain

Frontal headaches, dizziness, nervousness, exhaustion are symptoms of eye strain. Constant overtaxing of the eye muscles reacts on the whole system. The strain can be removed by properly fitted glasses. Clinton's can fit you with glasses which will be comfortable to wear, improve and protect your sight, and benefit your general health. No medicine used in the examination. Prices are very reasonable.

TWENTY THOUSAND ACRES OF U. P. LAND TO BE CULTIVATED

The campaign of the Union Pacific railroad to bring the spare land along its right-of-way under cultivation has met with great success.

Approximately 26,000 acres will be under cultivation in 1917. Including the branch lines, the right-of-way of the Union Pacific is almost 37,000 miles long, and the right-of-way acres which will be used for raising food crops during the coming summer. If all in one piece, would make a strip of land approximately 100 feet wide and 2,200 miles long.

Most of this land has been leased to the owners of adjoining farms at a nominal rental of \$1 per year. Some of it has been under cultivation in previous years, but the recent appeal of President Wilson for co-operation in increasing the farm yield of the country has given tremendous impetus to the extended use of these right-of-way acres.
