better than did the original Bos-

You Don't Pay for This

There are a lot of important
things about Selz shoes that the eye
never sees—things you don't find in most
shoes. Two of them are accuracy in work-
manship and a careful, scrupulous inspection
to make certain of the Selz standard of real value-
giving service—shoe service to make you happy,
in their selection.

Don't imagine just because a
shoe is made from leather it must be
all right.

Coats made from the finest seal
skins have gone to pieces in a few weeks
while others last a lifetime.

The skins were the same quality
but different hands assembled them. It's
the ability behind the material that establishes the
value—everytime—no matter what it is.

Selz has made good shoes for
nearly 50 years; over six million peo-
ple have found it out—they're wearing them.

LOYAL AMERICANS MUST SAVE

The Nation's needs demand it.
The nation must conserve every
ounce of its energy in these trying
days, and savings are stored energy.

It is the patriotic duty, therefore,
of loyal Americans to save. Begin
today. Start a savings account.

The McDonald State Bank allows
4 per cent interest, compounded
semi-annually, and a savings ac-
count started here and diligently
maintained means the performance
