## NO EXEMPTIONS FROM REGISTRATION SAYS CROWDER

Emphasis is laid by Provost Marshall General Crowder on the fact that no man within the prescribed age limit except those already in the regular army or navy, the national guard, in federal service or the reserve divisions of the naval service are excused from registration for military service.

Even convicts and alien enemies are required to register, says a statement issued adding, however, that those liable should not confuse registration with actual drafting for service in the army.

The statement points out also that the application of the draft and calling selected men to colors will furnish the opportunity for those who believe they should be exempted to submit their claims. The process of selection will be carried out, it adds, "by lot, by the fairest system that can be devised."
