NORTH PLATTE GENERAL HOSPITAL NOW AN ACCREDITED HOSPITAL

The Success of the Institution Another Boost for North Platte and Western Nebraska.

The North Platte General Hospital has received information from the State Board of Nurses that this institution has been placed upon the accredited list of hospitals in the state of Nebraska. Pupils nurses who enter training will receive a complete and systematic course including lecture and class work as outlined by the State Board of Nurses. Any one wishing to enter training will call and see the superintendent or communicate with her by phone or letter.

It has required strict attention to business, careful medical and surgical treatment, skillful nursing and unswerving judgment in all things pertaining to the institution to bring about an accredited hospital.

- Dr. George H. Harris, Oshkosh, Neb.

The body of Fred J. Beartown was found on the Union Pacific tracks at Sutherland this morning, having been killed in some unknown manner last night. Identification was learned through a pressman's union card found in his pocket issued by the San Francisco union, and it is supposed he was stealing his way east on a train and fell off.

County Attorney Halligan went to Sutherland this morning to view the remains.

The popularity of the Red Cross movement is evidenced by the fact that during the past week an average of six Nebraska towns a day have applied for authority to organize chapters. Nebraska is now a jurisdiction of its own; previously it had been attached to either Chicago or Denver, North Platte being attached to the latter city.

Engineer Mike Hayes says that while coming up on No. 11 Sunday an auto driver drove his car into the train. Realizing that he could not stop the car the driver jumped before it struck the train and escaped injury. The auto wheels were torn off, and some part of the body made a cut an eighth of an inch deep along the full side length of the dining car.

No repairs on the breaks to the fill at the Brady bridge can be made until the river recedes. Not only was the fill broken on each side of the thirty-foot steel bridge—one break being forty and the other thirty-two feet wide—but the water has overflowed the road grade, washing out branches from three to five feet deep. On the island about thirty acres of alfalfa belonging to Fred George has been under a foot of water for a week.

DRAFT QUOTA TO BE FIXED BY 1910 CENSUS

The quota for each state to be raised for the army will be based upon the census of 1910 and prorated among the counties of the state upon the vote for governor cast at the last election, according to information received by Governor Neville yesterday.

In connection with the ruling of the War department, Governor Neville today sent out the following communication to the sheriffs of all counties in Nebraska:

"General Crowder, the provost marshal general, has advised me that the quota for each state to be raised for the army will be based upon the census of 1910 and prorated upon the registration returns. This will mean that every man who did not register will be greatly increased by those who did register.

"The quota for Nebraska will be prorated among the counties of the state on the basis of the vote cast for governor in 1916, and likewise the burden upon the men who registered failure of very slacker who did not register.

"The provost marshal general further advises that the period of leniency has expired and directs that from today you inaugurate a vigorous, aggressive and effective enforcement of the penal clauses of the selective service law, using every means at your command to apprehend all men of the ages designated who have, for any reason, failed to register.

NEW LOCATION.

We wish to announce to our friends and patrons that we are now located in our new Factory Building on east Front street, built for your health's sake—sanitary from top to bottom.

Also for your health's sake wish to call special attention to the sanitary condition of this plant.

We have spared nothing that might add to the cleanliness of this factory for your protection and that of your children's.

We acknowledge having the only sanitary soda water bottling plant in the State, built exclusively along sanitary lines.

We also acknowledge having more sunlight and ventilation than any other bottling plant in the State.

Are the only plant in the State having hot and cold water connections on three floors.

Only plant having three floors. For flushing and scrubbing we are able to turn hot or cold water on any floor in the building.

Special toilet and wash room for employees, something unknown to majority of plants.

Our distilled Water department has been provided with cement floor, special window for ventilating this room, built exclusively for distilled water and our Sanitary Water Still endorsed by the U. S. Government.

A visit to our plant will enlighten the most skeptical of the condition in which Star Pop is made.

We also ask the public to insist on Star Bottled Goods, the Star on the bottle, for your health's sake—costs no more than others put up under unsanitary conditions and pushed off in some cases bottles not being sterilized, cheap and inferior extracts being used.

We never could have built our business to the present magnitude and give you the best factory in the State, by selling the dealers cheap and inferior goods and pushing it off on the unsuspecting public by telling them they have something just as good. The sooner the public speak out and demand these different goods of value, the sooner you will eradicate the unscrupulous manufacturer and dealer.

We feel grateful to the people of North Platte for their support and loyalty for without your support we know we could not have built this up-to-date plant of which we are justly proud.

We may not have agreed with all of you at all times but we assure you our heart is for the best interest of North Platte and surrounding country for which we always work and stand for, and to you, knowing me personally, you are aware of this fact.

We want you to feel you are one of this institution and the dealer or manufacturer that is all self, never lending a helping hand where ever possible, will not get very far in this glorious old world of ours. Our bottled goods "American Made For American Trade."
