

The North Platte Semi-Weekly Tribune.

THIRTY-THIRD YEAR.

NORTH PLATTE, NEB., JULY 3, 1917.

No. 49

BLOCK LEASES-BOTH FLOORS HAHLER BUILDING

A lease was executed today whereby the Block's Ladies' Furnishing Goods Store will become the tenant of the Hahler building on the west side of Dewey. This building was damaged by fire a couple of months ago, and will now be rebuilt in accordance with the plans suggested by Mr. Block and as needed by him in making, as he aims, his store the leading establishment of its kind in the west part of the state. Mr. Block leases both floors of the building, the lower room to be used for ladies' furnishings, the second floor exclusively for coats, suits and dresses. A modern front will be put in with large show windows on the second floor in which will be displayed the approved styles of women's wear, which can be seen from the opposite side of the street. In the rear of the lower floor a balcony will be built in which will be located Mr. Block's office and a ladies' rest room. The building will be steam heated, and the lighting will be of the most modern type. Additional light will be provided on the second floor through a skylight. It is expected to have the building ready for occupancy by October first.

The trade of the Block store has so increased that larger quarters were necessary; in fact for a year past the business has been seriously handicapped by lack of room.

In the new quarters a larger and more varied stock will be carried, the merchandise can be displayed to better advantage and customers will have more conveniences, all of which will tend to increase the volume of business.

Everett Evans and Albin Sandall, who are in the naval camp at Norfolk, Va., write that they are feeling fine. They expect to be sent out as second class seamen in a week or two. Ordinarily seamen are trained for six months, but on account of the crowded conditions at Norfolk only six weeks' training is now given, but it is of the most intensive nature.

Entertainments at Luncheon

An enjoyable function was given in town Friday when Mrs. Wm. Jeffers of Omaha, entertained at luncheon in Mr. Jeffers' private car a number of ladies who were school girl friends in North Platte. The luncheon was brilliant in its appointments, and the hostess gracious in her hospitality. Covers were laid for Mrs. Homer Race, Miss Fannie Brown, Mrs. J. B. Hayes and Mrs. D. T. Quigley, now Omaha residents, Mrs. H. H. Wernert, of Kearney, and Mrs. R. C. Langford, Mrs. Adda Turpie, Mrs. A. A. Schatz, Miss Nell Hartman, Mrs. E. F. Seeburger and Mrs. Mary Dunn, of this city. Events of a score of years ago were recalled and related, and the luncheon hours passed most delightfully.

B. of L. F. & E. Picnic.

The Ladies' Auxiliary of the B. of L. F. & E. will hold a basket picnic for all members of the B. of L. F. & E. and families, and also for locomotive firemen who are not members, at the city park July 4th. It is expected that all who attend bring their baskets well filled for dinner and supper. The picnic will begin at ten o'clock in the forenoon. There will be a program of entertainment that is certain to please all who attend.

"The Parson of Panamint" with Dustin Farnum at the Keith tonight portrays a story of the crude type of manhood and womanhood which prevailed the scenes of '49. Into this atmosphere comes a young parson, simple minded and strong hearted. How Mr. Farnum as the parson subdues the town; brings café roasters and church hypocrites into his fold, regenerating their lives and purifying their thoughts makes a lasting impression on the mind.

Thos. Sawyer returned yesterday from a visit in Kansas City. Mrs. Sawyer and children will remain in that city for a week or so.

J. E. Sebastian left last night for Lincoln where he will transact business for several days.

CODY BOAL WEDS MISS ELVA DAY LAST EVENING

Cody Boal, grandson of the late Col. Wm. F. Cody, and Miss Elva Day, daughter of John H. Day, were married last evening at the home of the bride's parents. Only members of the family and a few intimate friends were present. A chalice, Bowker officiated, using the Episcopal church form. The bride was attended by Miss Marie Bowen and the groom by John Baker. House decorations were cut and garden flowers.

Following the ceremony a wedding supper was served and Mr. and Mrs. Boal left on a night train on a wedding trip to Denver and other Colorado points.

The wedding of these two very worthy young people is the culmination of a school friendship, both attending and graduating from the local high school. Mrs. Boal is as bright and good as Mr. Boal is manly, and they start out on life's journey with the best wishes of all friends, and the latter are many.

Though the dispatches tell us that coal at the mines east of the Mississippi river has been reduced a dollar a ton, the operators in Wyoming and Colorado made an advance of 25 and 50 cents a ton on July 1st. This places the price at the same level it was before the recent reduction. Rock Springs coal delivered in your bin in North Platte costs you nine dollars a ton. Though local dealers are up in the air as regards future prices, they are buying and storing coal with a view of supplying patrons this fall and winter regardless of what the prices may be at that time.

Bids for painting the interior walls of the library building will be received by the Public Library Board up to noon Monday, July 9th. The Board desires bids on both one and two coat work with flat paint. Bids are to be filed with the secretary of the board, A. C. Krumpf. The Board reserves the right to reject any and all bids.

It is probable that home grown new potatoes will be in the market before the end of this week. They will probably start at a price of five cents a pound and decline as the supply increases. With the acreage in potatoes this year, the indications are that you will be able to buy them for a dollar a bushel this fall.

Hog Millet Seed for sale. Inquire of Thomas Orton, 209 south Maple street, North Platte.

Fred Garlow sends us a copy of a Cody, Wyoming, paper, telling of the Red Cross drive in that town which resulted in subscriptions amounting to \$5,906. Cody is really a village compared with North Platte and yet subscribed practically as much as we did.

Mrs. Will Breternitz, who visited friends in town last week, returned to her home in Sidney Saturday.

Mrs. Herman Schleuter has returned from Grand Island, where she visited her parents for a week.

Mr. and Mrs. Wm. Plumer, of Maxwell, leave today for Los Angeles. They spent the winter in southern California and were so well pleased with conditions that they return to perhaps remain permanently.

Miss Schwaiger and Miss Hubbart returned last evening from Kearney.

Mrs. Joseph Sell returned to Omaha yesterday after visiting friends in town.

J. G. Beeler is transacting legal business in Ogalala today.

DRAFT DETAILS DUE IN A FEW DAYS

Dispatches from Washington today state that yesterday President Wilson set in motion the wheels of the huge draft machinery. Army men state that in all probability the first call will result in the raising of one million fighting men, other levies being made as the first call troops are trained for field duty. Further details of the proclamation will be made known within a short time. A proclamation in full will be mailed to every publication in the country with the request that it be published in its entirety.

The local exemption board in North Platte has been organized, and certain instructions have been given the members, so when the president's proclamation is issued giving the dates of the sitting of the board business can start promptly on the date.

Will Present Home Film.

C. D. Tinsley, who represents the Superior Film Co., of Des Moines, Ia., has been in town for several days getting up the scenario and factors for a home film which will be presented at the Keith July 19 and 20. Included in the film will be the semi-centennial parade, a collision between two autos at the corner of Sixth and Dewey, a home scene at the residence of E. R. Goodman and a wedding at the Presbyterian church. These scenes will be interwoven in a drama entitled "The Open Switch." Featured in the home films will be Miss Louise Ottenstein, Mrs. Frank Buchanan, W. J. Tiley, Ernest Rincker and Ralph Coates, and a dozen or more society girls will appear in the wedding scene. The auto collision is booked to occur sometime this forenoon, and the wedding scene will be enacted at the Presbyterian church Thursday evening.

Russia Renews Fighting.

The soldiers of new Russia have assumed the aggressive. For the first time since the revolution last March, Russian troops have begun an attack on an extensive scale. Along a front of eighteen and one-half miles in the region of Brzezany, Galicia, Russian troops have stormed the German positions. Berlin says the Russians suffered heavy losses and were compelled to retire before the German fire. The attack was made in the section south-east of Lemberg, where the artillery firing has been heavy recently.

The merry-go-round sounded its last note at 12 o'clock Saturday night, the fakirs and showmen folded up their tents between midnight and morning, the wild horses were taken back to the ranges Sunday morning, and by Sunday evening the street and store decorations had been removed, thus removing the last vestige of the celebration. Yesterday North Platte resumed the same old business in the same old way, and our fiftieth anniversary has already entered into the nearly forgotten past.

The Independence Day program at the Crystal will be the Blue Bird feature, "Treasure," a military melodrama of patriotic inspiration reflecting the martial mood of two hemispheres today. It is an appeal to loyalty and love of country.

For Sale—1916 Dodge touring car, good condition, cheap; will now outwear two cheap cars. J. V. Romigh, dealer.

The State Industrial School band passed through to Ogalala this morning where the boys will play during the three-day round-up.

June Weather.

The rainfall last month was 2.38 inches, compared with 3.09 inches in June, 1916, and 3.39 inches the same month in 1915. The normal for the month is 3.25, so we were nearly an inch short of the average for June. In June, 1905, we had 7.65 inches. The highest temperature last month was 98 degrees, this occurring on the 24th. The hottest June day we have ever had was 104. Last month, however, was somewhat cooler than the average June. The deficiency in precipitation since January first is 1.14 inches. The highest velocity attained by the wind was 38 miles, this occurring on the 22d.

Division Master Mechanic Beery, of Grand Island, is spending today in town.

Miss Mildred Pfeiffer returned to Grand Island yesterday after a visit with relatives in town.

Miss Katherine Feathers returned to Ogalala yesterday after a week's visit with Mrs. Edw. Weston.

John Keith, who had been in this section for several weeks, left Sunday for his home in Hollywood, Cal.

WHITE FACE CALF SWELLS RED CROSS FUND

Down at Tecumseh, Neb., the Red Cross fund is receiving lifts in rather peculiar manners. Three men gave a yearling white faced calf to be sold at auction. Local auctioneers donated their services and the calf was placed on the block. The animal was knocked off for \$100 to Tecumseh business men, after which the auctioneers passed their hats in the crowd and secured \$88 in addition to the sale funds. The parties buying the calf announced that the animal would be resold in the evening for the same cause. His calfship was sold from the band stand in the court yard during a band concert, the auctioneers' ring being occupied by the best talent in the country. Again the calf was sold for \$100. Hats were again passed and funds amounting to over \$70 raised. And still again the buyer of the calf announced that the animal would be placed on the block next band concert night, Tuesday evening, and be sold.

Mr. and Mrs. Chas. Moore, of Fremont, have been guests of Mr. and Mrs. Eugene Holcombe for several days past.

CHIROPRACTIC
Pressure On Nerves Causes Disease!

Graduate of

Chiropractic is the science of locating and adjusting pressure from nerves.
Every organ in the body is controlled by mental impulses (nerve force) from the brain, these impulses are transmitted over the spinal cord and nerves to the organs.
A subluxation (slight displacement) of one or more Vertebrae (bones) of the spinal column (back-bone) will cause pressure on the nerve as it passes out from the spinal cord between the vertebrae.
Pressure interferes with the transmission of the mental impulses (nerve force.) Disease is the expression of Mental Impulses (nerve force) so interfered with. "Normal mental impulses express HEALTH."
The spine and nervous system are the Chiropractors Special study. The people of this vocation are SPINE SPECIALISTS. Chiropractic is not a cure-all and has not abolished death. We do claim, however, that there is no health system that is so effective for good. If you have tried everything else without results, try Chiropractic Spinal Adjustments and get well.
