OVER 200 SOLDIER BOYS ARE NOW IN TOWN

Company E, Fifth Nebraska, with its one hundred and seventy-two members, mobilized in this city yesterday. The non-resident members arrived Sunday and yesterday, the greater number arriving yesterday morning and on the afternoon train. The citizens' committee, members of the U. S. W. V., the resident members of Company E, and members of Co. L met the arriving delegations at the depot and escorted them to the Franklin auditorium, which will be used as an armory during the stay of the boys in town. The boys will not be outfitted until they reach Ft. Crook, and while they are in town they will be known by the badge they wear. There are now in town, including the Co. L boys and those who have enlisted in the regular branches of the service and are awaiting call, over two hundred young men who will become part of the country's great army which will be put in shape for the trenches in France. They are a clean, healthy looking, bright-eyed lot of young fellows, among the best to be found in the counties from which they come, and they represent Lincoln, Dawson, Keith, Frontier, Perkins, Garden and several other surrounding counties.

I. O. O. F. Notice.

The local order of I. O. O. F. will hold a special meeting for degree work Wednesday evening, July 18th. A large attendance is desired. The session will open at 7:30 sharp.

J. GUY SWOPE, Secretary.

Traffic Over Highway Resumed

The work of repairing the fills at the Lincoln highway bridge was completed the latter part of last week, and the highway is again open to traffic, much to the convenience of those coming from the east end of the county to this city.

The stretch of sand on the highway near the Blankenburg ranch is having a dressing of clay, and when this is properly worked and packed will make a wonderful improvement to that part of the road.

Repairing Buildings

A gang of six or eight men began work yesterday morning repairing the damage done the county fair buildings by the storm Friday night. The damaged buildings will be put in as good shape as before the storm, and the other new buildings will at once be erected. So far as exhibition accommodations are concerned, they will surpass in every way those of last year. In fact the proposed new buildings will give the grounds the appearance of a real county fair.

Building, Building, adding to Dodge Brothers Works, every day of the past two years, and still there is always a great shortage of Dodge cars.

This is only the inevitable result of building honestly, with no compromise with price in any part or department. Two years ago—an unknown factor in industry—today, the third largest producer of motor cars in the world.

Your only protection from substitution of something much less worthy of your good dollars is to drop in and sign up that order for a Dodge car today. I will make delivery exactly in accordance with the date of the filed order.

Several south side farmers who had their stave silos blown down last Friday night, say that they are now satisfied that the material to use in silo building is hollow tile or cement. They believe that had they used either of the two their silos would still be standing.

Fern Eshorn, the six year old daughter of Mr. and Mrs. R. B. Eshorn, of east Sixth street, was knocked down and badly bruised by the Hansen car at nine o'clock Sunday evening. WORK ON THE DEPOT MOVES ALONG RAPIDLY

Brick work on the new depot is progressing rapidly and the walls above the stone base are now several feet high. Fifty men are now employed there and the ground work of the plumbers and electricians has been completed. A base course of white Bedford stone of 800 feet has been placed around the entire building and 7,500 cubic feet of this stone will be used in the construction of the depot. The lumber to be used will amount to 200,000 feet and the number of bricks will be 600,000, in addition to 1,000 yards of concrete. The basement under the kitchen measures 50 by 38 feet and divided into store rooms, and a dining room for the employees. The kitchen on the west end of the first floor is 45 by 52 feet and includes a locker room, linen closets and bakery. The dining room and kitchen will be divided by a wood panel screen. The wood work will be paneled oak and mosaic flooring. The general waiting room, 45 by 110 feet will be in the center of the building and adjoining this will be ladies' rest rooms, gentlemen's smoking room, ticket office, newsstand and vestibules. It will be finished with faced brick and imitation stone cornice and ornamental plastered ceiling. The baggage room on the east will be 50 by 50 feet. The second floor, 110 by 80 feet will be divided into offices for the chief dispatcher, other dispatchers, roadmaster and trainmaster. The balcony will be used for the station master for announcing trains. The wood work throughout the building will be cabinet finished oak, originated by the Jas. Stewart Company, who have the contract for the building. The grounds will be paved to the street on the south and the track on the north. The Union Pacific Railroad sign in cut stone will be placed over the entrance on the north and on either side will be electric name plates. The building will be ready for use early in November.

Services for Company E.

The wardens and vestrymen of the Church of Our Saviour have invited Co. E and the officers to attend the morning services at eleven o'clock Sunday morning. Archdeacon Bowker will deliver the sermon and the choir will render special music.

A solemn high military mass will be read at St. Patrick's church Thursday morning at 10 o'clock for Company E and the officers and friends. Rev. Kavanaugh, of Gothenburg, will deliver a patriotic sermon and be assisted in the services by Rev. Sullivan of Elm Creek, Rev. Maloney of Lexington and Rev. McDaid, the local pastor. The choir, under the direction of Miss Ida Ottenstein, will render appropriate hymns and a number of solos will be given by vocalists of the choir.

Geo. Mudd, who sold 240 acres of land north of Hershey to the Great Western Sugar Co. for \$24,000 cash, is confident that the land was purchased for a factory site. He is confirmed in this belief by the fact that the company has secured right of way for a sewer from the site to the north river, and the right of way for tracks to the Union Pacific main line.

The Franklin auditorium certainly furnishes ideal quarters for the members of Co. E whose homes are outside of town. Four rows of mattresses extend the full length of the room thus providing sleeping quarters for them. Capt. Halligan maintains an office in one of the rooms off the stage, and the corridors furnish a lounging place while the boys are off duty. Strict military discipline is maintained in and around the building.

Mr. and Mrs. W. E. Starr and daughter Thelma will leave tomorrow for a two weeks' visit in Cheyenne, Denver and Colorado Springs.
