Dry as a Bone in Kansas

In the western part of Kansas the drought is reported extreme by those who come from that section, the grass in the pasture having burned to such an extent as to furnish no food for stock.

During the past ten days several western Kansas stockmen have been in town interviewing real estate men as to the possibility of leasing pasture land that they may bring their cattle here.

Corn Surprises Everybody.

The way in which corn holds up during the hot, dry weather is surprising everybody. In some fields where the cultivation has been poor, the crop has been damaged badly and in some instances has passed the recovery stage, but generally speaking in fields where cultivation was thorough the corn still has a good color.

Wait Until the Telephone Bell Stops Ringing

Party line telephone subscribers occasionally report that as they begin talking another person on the line will interrupt, as though he too had been called.

This trouble occurs because the party called removes his receiver from the hook before the bell stops ringing.

If the receiver is lifted before the bell stops ringing on a party line the ringing current will flow through the bell of the other party on the line, causing it to ring.

Party line subscribers should not lift the receiver from the hook until the bell stops ringing. Otherwise the other party on the line will be annoyed.
