KILLED IN AN AUTO ACCIDENT FRIDAY NIGHT

Max Wickersham, residing north of Wood River, was killed early Saturday morning when the Ford car he was driving overturned on the road leading south to the state farm. In company with a man named Henderchott, Wickersham had been in Deuel county looking up a location. They reached this city enroute home Friday night, and Henderchott suggested that they remain here until the following day. Wickersham was anxious to get home, however, and as the night was one of bright moonlight, concluded to continue the journey. Reaching a point about 200 yards north of the Fremont slough the car struck a bad hole in the road, quickly veered to one side and plunged down the embankment, overturning and pinning both men beneath. Wickersham lay across the side edge of the car resting across his neck, and died before aid could be summoned. Henderchott could not extricate himself but was able to call for help and his cries were finally heard by the family residing in the house near-by. They responded, the car lifted so Henderchott could be extricated and the lifeless body of Wickersham then released. Word was sent to town and a physician summoned, but Wickersham was past aid. Henderchott was badly bruised but not seriously injured.

The body of Wickersham was brought to the Maloney morgue, prepared for burial and sent to Wood River Saturday night. The deceased was twenty-three years of age and leaves a wife and three children.

Hit Hard, Say the Bakers

The government dictum that wheat shall sell for \$2.20 in Omaha, and that a fourteen ounce loaf of bread shall sell at five cents, has cast a gloom over bakers in North Platte as well as in other Nebraska towns. Here in North Platte a sixteen-ounce loaf of bread has been selling for several months past at fifteen cents, or but a fraction less than a cent an ounce. Under this dictum of the government they will receive but a fraction more than one-third of a cent an ounce. It is very apparent that the bakers have been hard hit; in fact unless they have been making an enormous profit on the fifteen and twenty cent loaves, they cannot afford to stay in business.

With wheat at \$2.20, flour will sell for \$11.00. It is figured that the ingredients consumed in working up a barrel of flour into bread is \$2.12, which added to the cost of the flour makes \$13.12. This barrel of flour makes 325 fourteen ounce loaves and at five cents each brings \$16.25 for the product of a barrel of flour and a profit of \$3.13. To this must be added labor, fuel, rent, light and other overhead charges.

It therefore looks as though the baker may cease to bake and the good housewife will be the one upon whom we must depend for our daily bread.

A Traitor at Big Spring.

Last Friday a large flag was given to the Big Spring M. E. church and hung up back of the pulpit. Tuesday afternoon this flag was found lying in the middle aisle of the church. It had been torn from the wall and torn into strips. The state authorities have been notified and a reward will be offered for the detection of the traitor. The whole community is aroused and if the guilty one is discovered an example will be made of him that will be a warning to all others.—Ogallala News.

Expensive Seed Wheat.

Frank Cunningham, the largest wheat grower in Western Nebraska, has placed an order direct with Luther Burbank for ten pounds of the New Burbank wheat. The price is \$4.50 per pound and only ten pounds is allowed one man. Mr. Cunningham sent a draft for \$45.00 and will receive the limit. The price, if you were allowed a bushel would be \$270 or about six kernels for one cent.

This wheat, without special care or cultivation, has been producing at the rate of forty-nine bushels to the acre.

Tighe Says Its Hot.

Down at Kelly Field, Texas, where Ray Tighe is stationed as a member of the aeroplane squad, the temperature one day last week was 120 in the shade—and ten miles to the shade. There are about 300 planes in the camp and 20,000 men, but it is expected there will be double that number of men within the next sixty days. Art Wortman, former reporter for The Tribune, is also at Kelly Field learning to fly.

Hershey is well represented at the M. E. hospital in Omaha, four cases being there at the present time from this, and immediate vicinity. Frank Dymond, operation for appendicitis; Marie McClain, same; Harold Staples, skull injured by being stepped on by horse; and Leonard Olson, operation for rupture. Every one of them are reported as doing nicely. Frank Dymond is expected home the first of the week.—Hershey Times.

No Factory at Julesburg.

The Great Western Sugar Co. has notified the Colorado-Nebraska Beet Growers' Association that no sugar factory will be built at Julesburg this year. The company says the construction of a new factory is not justified by the expectancy of increased tonnage and that the factories already in operation in eastern Colorado can take care of the beets produced.

The parting gift—

A Vest Pocket Kodak.

It is monotony, not bullets that our soldier boys dread. At the front, they will uphold bravely the traditions that are dear to every loyal American heart. But in the training camps and during the months of forced inaction, there are going to be some tedious, home-sick days—days the Kodak can make more cheerful.

There's room for a little Vest Pocket Kodak in every soldier's and sailor's kit. The expense is small, six dollars.

A Sermon On Lumber

In conclusion my friends, we can't get away from this lumber question. Why, every one of us spent our first days in a cradle made of lumber.

Our lives have been lived between walls of two by fours and lath, with rafters over our heads, and matched flooring beneath our feet. We have been sitting in wooden chairs, eating from wooden tables, riding in wooden wagons, and in the course of time will be laid to rest in wooden caskets.

Lumber is King in the Construction World.
