Women's Registration Tomorrow.

Tomorrow will be registration day for women in Nebraska, and though this registration is voluntary, it is estimated there will be in the neighborhood of 200,000 registrations. The number in North Platte should exceed 800; in fact the number should not be less than 1,000, and if more than this latter number all the more creditable will it be to the city.

The polling places for the First, Second and Fourth wards will be at the ward school buildings, and for the Third ward at the Franklin building. The polls will be open from 12 o'clock noon until seven o'clock in the evening.

This registration is needed because we are in a great war and our government wishes to know what her loyal women citizens are willing to do in case of need.

It will not be those additional work upon those who are already doing war work, it may lighten their burdens by calling into service more workers. It coordinates all woman's war activities.

Each woman should register—First, because she loves her country and wishes to serve it.

Second, because going to the polls and registering is in itself an act of patriotism.

Third, because there is no other way for our country to know quickly and directly upon whom to call.

Fourth, through this registration and the work that will follow your son or brother in the field may receive direct benefit.

Every woman over sixteen is eligible to register. Nothing will happen to the woman who cannot keep her pledge—it is all a matter of honor.

Women of North Platte show your colors! Stand by your nation, your state, your city; show your appreciation of the great cause of democracy and stand back of the boys who will soon be fighting in the trenches.

Will you be one of the loyal women in North Platte?
