

Canadian Farmers Profit From Wheat

160 ACRE FARMS IN WESTERN CANADA FREE

The war's devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and wheat near \$2 a bushel offers great profits to the farmer. Canada's invitation is therefore especially attractive. She wants settlers to make money and happy, prosperous homes for themselves by helping her raise immense wheat crops.

You can get a Homestead of 160 acres FREE and other lands at remarkably low prices. During many years Canadian wheat fields have averaged 20 bushels to the acre many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.

Mixed farming as profitable an industry as grain raising. The excellent grasses full of nutrition are the only food required for beef or dairy purposes. Good schools, churches, markets convenient, climate excellent.

There is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government is trying farmers to put extra acreage into grain. Write for literature and particulars as to reduced railway rates to Dept. of Immigration, Ottawa, Canada, or

DAIRY FACTS

EXPENSE OF SAVING CALVES

Cost Just as Much to Raise Poor Animal as a Good One—Dispose of Culls Early in Life.

Calf conservation looks like a good thing to many of the wisecracks, says the Farmer's Guide, but is it? Can the farmer afford to save the measly little specimens of bovinity that occasionally appear in the best herds? There are always some culls that cannot be turned to good account either as breeders or for beef. If every calf dropped were a high-class individual that could be raised and fed economically, the situation might be different. It costs just as much and sometimes more to raise a poor calf as a good one, and when you have it raised what is it good for? Let the conservationist go out into the open country and visit a number of farms where he can get next to the actual conditions; then let him study up on the economy of beef production and he may change his mind. Most certainly it is wise to save the good calves, the kind that can be raised into profitable breeders, milk or beef producers, but the other kind had better be disposed of early in life before they have time to become an expense.

SANITATION POINTS

1. Have the herd examined at least once a year by a competent veterinarian. Promptly remove animals suspected of being in bad health. Never add an animal to the herd until certain it is free from disease, particularly tuberculosis.
2. Never allow a cow to be excited by fast driving, abuse or unnecessary disturbance.
3. Clean the entire body of the cow daily. Hair in the region of the udder should be kept short by clipping.
4. Do not allow strong-flavored food, like cabbage or turnips, to be eaten except immediately after milking. Changes in feed should be made gradually.
5. Provide fresh, pure drinking water in abundance.

IMPORTANT FEATURE OF COW

Good Udders and Teats Are Often Overlooked by Dairy Cattle Breeders—Lack Wedge Shape.

There is so much real satisfaction in the milking and handling of cows that have good udders and good teats that it seems very strange that in dairy cattle breeding this important

Part of Splendid Jersey Herd.

feature has been so much neglected and by this seeming neglect far too many cows have small udders and consequently small, short teats.

It will nearly always be noticed that cows with small udders, even in the best dairy breeds, usually carry too much flesh and lack that double-wedge shape which is so desirable in the eyes of the modern and progressive dairyman.

TAINT OF MILK AVOIDABLE

Unclean Utensils Are Common Source of Trouble—Particles Get Into Seams or Joints.

Unless some unusual food has been eaten, milk is delivered from the cow free from taint. It is also free from bacteria. Between the cow and the consumer it picks up a multitude of the latter and sometimes more or less of the former. The milk can be a common source of both. Minute particles of organic matter get into the seams or joints of the can, where they become the habitation of countless bacteria. Disagreeable odors arise as a result of the decomposition which ensues.

Put your nose into the mouth of an empty milk can after it has been cleaned and is ready to use. It is never entirely free from odor. But there is a distinct difference between a "clean" smell and a "foul" one.

HELPS GROWTH OF BACTERIA

Warm Milk Offers Splendid Medium for Growth of Organisms—Handle Milk Carefully.

The warm milk as it comes from the cow offers a splendid medium for the favorable growth of all kinds of bacteria that may gain access to it. To lessen this development milking should be done as carefully and quickly as possible and the milk should be strained and set away or separated.

Children Cry For

Fletcher's CASTORIA

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Some men who believe in the division of labor let their wives do all the work and they do the rest.

Feed the Fighters! Win the War!!

Harvest the Crops—Save the Yields

On the battle fields of France and Flanders, the United States boys and the Canadian boys are fighting side by side to win for the World the freedom that Prussianism would destroy. While doing this they must be fed and every ounce of muscle that can be requisitioned must go into use to save this year's crop. A short harvest period requires the combined forces of the two countries in team work, such as the soldier boys in France and Flanders are demonstrating.

The Combined Fighters in France and Flanders and the Combined Harvesters in America WILL Bring the Allied Victory Nearer.

A reciprocal arrangement for the use of farm workers has been perfected between the Department of the Interior of Canada and the Departments of Labor and Agriculture of the United States, under which it is proposed to permit the harvesters that are now engaged in the wheat fields of Oklahoma, Kansas, Iowa, North Dakota, South Dakota, Nebraska, Minnesota and Wisconsin to move over into Canada, with the privilege of later returning to the United States, when the crops in the United States have been conserved, and help to save the enormous crops in Canada which by that time will be ready for harvesting.

HELP YOUR CANADIAN NEIGHBOURS WHEN YOUR OWN CROP IS HARVESTED!!!

Canada Wants 40,000 Harvest Hands to Take Care of Its 13,000,000 ACRE WHEAT FIELD.

One cent a mile railway fare from the International boundary line to destination and the same rate returning to the International Boundary.

High Wages, Good Board, Comfortable Lodgings.

An Identification Card issued at the boundary by a Canadian Immigration Officer will guarantee no trouble in returning to the United States.

AS SOON AS YOUR OWN HARVEST IS SAVED, move northward and assist your Canadian neighbour in harvesting his; in this way do your bit in helping "Win the War". For particulars as to routes, identification cards and place where employment may be had, apply to Superintendent of Immigration, Ottawa, Canada, or to

CARTER'S LITTLE LIVER PILLS

ABSENCE of Iron in the Blood is the reason for many colorless faces but CARTER'S IRON PILLS will greatly help most pale-faced people.

IMPRESSIVE IN HIS SPEECH

Old Soldier Endeavored to Make Vocabulary Fit the Responsibilities of His Position.

An old soldier was for a long time curator of a certain public educational institution. In accordance with the duties of his responsible position it sometimes fell to his lot to remind the students of forgotten regulations.

"Gentlemen," he shouted, on one occasion, when a game of leapfrog was going on in a somewhat shaky gallery, "why this violent disturbance?"

"Well," was the reply, "what business is it of yours?"

"Gentlemen," he responded, indignantly, displaying his full height, "do you know that I am placed here by the governors of this college to conserve this building?"

At another time the prank was played upon him of being simultaneously summoned by two students from different ends of the corridor.

"Gentlemen," he cried out, "I really cannot be unambiguous!"

On another occasion, after heavy rains, there was dire disaster of malodorous flood in the cellars.

"Sir," reported Thomas, to the principal, "the rain has permeated the soil and has resuscitated all the drains to overflowing!"

Back Given Out?

Housework is too hard for a woman who is half sick, nervous and always tired. But it keeps piling up, and gives weak kidneys no time to recover. If your back is lame and aches and your kidneys irregular; if you have "blue spells," sick headaches, nervousness, dizziness and rheumatic pains, use Doan's Kidney Pills. They have done wonders for thousands of worn out women.

A Nebraska Case

Mr. F. Harriet Stump, McLane and Seventeenth Sts., Falls City, Neb., says: "I suffered terribly with kidney trouble for years. There was lameness in my back and sides and the trouble developed into rheumatic pains. It kept getting worse. I tried Doan's Kidney Pills and after using three boxes I was entirely cured. My limbs which had been swollen were again their normal size and all the soreness had disappeared from my joints. The trouble has never returned."

Certain-teed

Certain-teed is tangible—something you can take hold of. It means certainty of quality and guaranteed satisfaction. Behind the name is the definite responsibility of a great business which has reached commanding position in its field because of its ability to manufacture and distribute the best quality products on the most efficient basis. An extensive system of factories, warehouses and sales offices makes possible low manufacturing costs and quick, economical distribution.

Certain-teed Roofing

is the best quality of roll roofing. It is recognized and used as the preferable type of roofing for office buildings, factories, hotels, stores, warehouses, garages, farm buildings, etc., where durability is demanded. It is economical to buy, inexpensive to lay, and costs practically nothing to maintain. It is light weight, weather-proof, clean, sanitary, and fire-retardant. It is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

Certain-teed Paints and Varnishes

are good, honest, dependable products made as good paints and varnishes should be made, from high grade materials, mixed by modern machinery to insure uniformity, and labeled to truthfully represent the contents. They are made by experts long experienced in paint making, and are guaranteed to give satisfaction. Made in full line of colors, and for all different purposes. Any dealer can get you CERTAIN-TEED Paints and Varnishes.

Extravagant.

"Is he extravagant?" "I should say he is. He even pays more than \$10 for his Palm Beach suit."

Our surest prospect in life is death.

The Easier Task.

A circus was in the neighborhood and sonny's father took him. His little playmate, Ethlyn, was afraid to go, but had heard much about the wild animals that were generally with a circus, so her mother told her to ask sonny if he saw the hippopotamus. She thought a moment and said: "Mother, I'll call him and you ask him."

Most people have a spice of goodness in them, but not all try to cultivate it.

He is a lucky man who can stretch the truth without breaking it.

I'm glad there's such a big corn crop—says Bobby
