

## Do you want to earn more?

Could you get more pay if you could do your work better? Many a man has found he could do better work after being fitted with glasses at Clinton's. These properly fitted and perfectly made glasses ended eye strain. He was more efficient in his work because that drag on sight and health was done away with. Consult Clinton's optometrist about your eyes.

## Make Next Year Your Best One

Plan to make your work more profitable the coming year than you have yet experienced.

What? It will take more machinery and equipment and you don't have the ready money?

That is where we come in.

Plan your work and figure what will need and how much it will cost. Figure also how much profit you believe you can make upon the extra investment. Perhaps we can help you plan the cost and profit of this proposition you are thinking about.

We have plenty of money to loan on any farm project which looks good to you and to us.

### SURVEYING FOR EXTENSION TO NORTH RIVER BRANCH

A special to the Lincoln Journal from Gering, dated last Friday, says: "A force of fifteen Union Pacific engineers went to the end of the Gering line ten miles west of this city and began work on cross sectioning an extension of thirty miles, which will take the line approximately to Springer, Wyo., a point in the Goshute Hole territory which is about to be watered by the big south side government canal. It is believed here that the company will start construction not later than early spring, and that this means an early completion of the so-called Medicine Bow cut-off which will make a main line through the North Platte valley.

**Mrs. Beatty Passes Away.**  
Mrs. Willie Beatty, of Brady, died at a local hospital early yesterday morning following an operation performed for organic trouble Tuesday of last week. The remains were taken to Brady yesterday for interment. The deceased was a daughter-in-law of Colonel and Mrs. Wm. Beatty.

**Piano For Sale**  
No reasonable offer will be refused if submitted at once for a high grade second hand piano which we have come into possession of at North Platte. Quality guaranteed and liberal terms will be offered to responsible party. If interested in a proposition of this kind don't fail to write THE DENVER MUSIC COMPANY at Denver, Colorado, at once for particulars. 83-4

**Volunteer Wheat Yields Well.**  
Frank Turpie finished threshing his wheat Saturday, which measured out 1902 bushels or less than half an average crop. From 140 acres he threshed 1800 bushels, the remaining 102 bushels coming from a ten-acre volunteer field. The fact that this volunteer wheat yielded almost per acre as much as did the sown wheat was somewhat of a surprise to Mr. Turpie.

**Men Wanted in the Navy.**  
Postmaster McEvoy has been authorized to receive applicants for enlistment in the United States navy. Applicants, if passed by the local examining physician, will be given transportation to Omaha. If they fail to pass the medical examination in Omaha they will receive transportation home. Young men who contemplate enlisting should call on the postmaster and learn full details.

**Locals and Sterling Tie**  
The Sterling H. S. and the North Platte high school played a seven to seven on the local field Friday afternoon. Each team scored a touchdown and kicked goal in the first half, but neither could win a point in the second half, though every fake and device known to the game was employed. It was a contest in which two evenly balanced teams played the game for all that was in them.

**Stock Cars Hard to Get**  
Station Agent Redmond stated Saturday that he had orders for fifteen cars for the shipment of stock from North Platte, part of the orders having been on file for ten days. Hundreds of stock cars are being shipped west but none seem to be available for Nebraska stations. In the meantime there is a downward tendency on cattle prices, and the delay in shipment means a loss to the shippers.

**For Rent.**  
640 acres, \$1.00 per acre, cash. All good farming or hay land; 160 acres in cultivation; good 4 room house, barn for 8 horses, new grainery 24x36; wagon shed, good well, 10 foot Sampson mill, chicken house, cement cave, 4 miles of wire fence. 6 miles north of Wallace on C. B. & Q. R. R., 12 miles south of Sutherland on U. P. R. R. School house on east section line. W. R. HARDING, Timmerman Hotel, North Platte, Neb.

**The Money Will Come Back**  
Lincoln county's subscription of about \$200,000 Liberty bonds will take some money out of circulation. It is true, but it will in time come back to purchase cattle, hogs and corn. For a short period money may be a little tighter—a little more difficult to get—but eventually conditions will even up and we will all be in normal shape plus the \$200,000 invested in the bonds, and plus the satisfaction of knowing that we did our part in helping the country in the time of need.

**Will Open Restaurant**  
The room in the Keith block east of the Frater drug store on Front street is being remodeled and furnished preparatory to occupancy by W. A. Payne, who will conduct a restaurant. Mr. Payne for some time has been conducting a restaurant in the Nebraska House building, but when the property changed hands he concluded to make arrangements to vacate. The new restaurant will be ready for business in about two weeks and will be open day and night.

**Movie Tickets Increase**  
The war tax on moving picture tickets becomes effective Thursday of this week. This is a ten per cent tax; that is a ten cent ticket will cost eleven cents and a twenty cent ticket twenty-two cents, the purchaser paying the tax. The picture show owner, however, does not escape his share of the tax, for he pays a heavy war tax for the privilege of conducting his picture show and also pays a tax on each reel of pictures he shows. The ticket tax will raise a good many hundred dollars for Uncle Sam in North Platte during a year.

**Optimistic Thought.**  
Those only despise the pun who can not make one.

**Much Depends on Family.**  
It doesn't take much to make a whole family happy if it is the kind of family that isn't expecting too much to start out with.

**Slap It On.**  
"Face powder should be applied with discrimination."  
"Eh?"  
"Some girls seem to think all you need is a lot of it."

## Order To Day Whatever you need in Blankets and Beddings

The way our industrious Uncle Sam is gathering up all available cotton and wool materials for clothes and supplies for his Soldier boys, make these values doubly interesting, because higher prices are bound to result when present supplies are used up.

Thrifty housewives will buy today, for future needs, what they require in

### NORTH PLATTE MEN WILL BE SENT TO RUSSIA

Recruiting Officer Dewey spent the latter part of last week in town with the object of securing more enlistments for the engineering corps of the army. He stated to The Tribune that the eight North Platte men who had enlisted in that branch of the service and sent to Ft. Logan had passed the examination and within a short time will be sent to Russia for employment on the railroads of that country—probably upon the Trans-Siberian road, which is said to be of a primitive type, although over five thousand miles in length. Great stretches of this road is through a barren and desolate country, but it is understood that the United States government has made ample provisions for providing comfortable quarters for the men it sends to Russia.

**Myrtle Wood**  
Myrtle wood was awarded the first prize at the Panama exposition by people from all over the world as being the finest finished wood on earth. We have a fine selection now on display in our show windows. Will be pleased to lay aside any article you wish for Christmas. Make your selections early as supply is limited and the goods are very rare.

The county commissioners yesterday selected the names of sixty male residents over twenty-one years of age from whom will be drawn the jury for the December term of court.

**Falling Up Out of a Balloon.**  
If a man falls out of a rising airplane or balloon he will not go toward the earth, but will continue rising into the air for an appreciable time. If the air machine were stopped in its ascent at the time it could catch the man as he came down. If the airship were ascending at the rate of thirty-two feet a second the man would rise sixteen feet before beginning to fall toward the earth. Thus, by reducing the speed of its ascent, the vessel might keep by the side of the man and rescue him. The reason why the man rises is the same as the reason for a bullet's rising when shot from a gun into the air—both the man and the bullet are given a velocity upward, and it takes some time for gravity to negative that velocity.

**Growing Grapes.**  
Grapes will grow almost anywhere and are sure to bear. Grapes can be trained on trellises close to fences or to outbuildings. Spring is the best time to plant, using either one or two year old vines. Frequently cultivation during summer will improve the fruit. Wood ashes make a good fertilizer for grapes, and half a bushel to the vine will not be too much. No pruning will be required the first season, but the second season cut back the strongest canes to three or four buds and remove all others.

### The Nation's Telephone Needs Must be Met First

Since the beginning of the war, the government has been using a great deal of telephone service and equipment, and many of our skilled men have gone into the army signal corps.

Government requirements for telephone service, for equipment and for men have had the right-of-way over all private requests.

We can perform our full measure of service to the nation only when we meet the government's needs first for telephone service, for equipment and for men.
