A Popular Place.

Detroit has been often spoken of as the "Wonder City," owing to its marvelous growth in population, jumping from 465,766 in 1910 to 815,448 in 1917, doubling itself in the past seven years. The automobile industry is solely responsible for this miraculous growth. Detroit makes more than two-thirds of all the motor cars made in America, and the Ford Motor Company produces better than two-thirds of all the motor cars made in Detroit. So probably the greatest factor in the growth and general development of Detroit is the Ford Motor Company. About the first question the visitor to Detroit asks is "Where is the Ford?" 18,445 visitors passed through the Ford factory during the month of October. Think of it! They came from every part of the civilized world, and go away in pleased amazement over the aggressive efficiency they have witnessed. Probably the highest tribute this efficiency could receive lies in the fact that these thousands of visitors are conducted through the Ford factory every month without in the least disturbing the even regularity of the more than 33,000 workers.

"Ordinance Order for Dodge Brothers."

(Motor Age.)
Detroit, Nov. 2.—Dodge Brothers have received a contract from the government for \$20,000,000 worth of ordinance. They are to finance the undertaking without outside aid. Some time ago, a 40 acre site for a factory was purchased, and the ground has been broken. It is planned to rush the factory to completion and to have it in operation in the early part of next year, giving employment to about 3,000 men. This supercedes the plan for the Saxon plant lease.

The Sky the Limit.

Arguments in the eastern railroads' 15 per cent advance rate case before the Interstate Commerce commission closed Tuesday with a statement of counsel for the roads that even if this increase is granted they soon will ask for an advance of approximately 15 per cent in class and commodity rates and 10 per cent a ton on coal and coke.

"What is the intention of the railroads?" asked Commissioner McChord. "To make the sky the limit!"

"As cost increases, rates must go up if we are to proceed on a sound basis," answered John S. Patterson of counsel for the railroads.

Smash Hindenburg Line.

Wednesday the British on a thirty-two mile front pushed back the Germans to a depth of five miles, capturing 3,000 prisoners and a large number of guns. At one point the Germans are on their last line of defense.

The infantry charge was preceded by the British tanks which made gaps in the German lines.

LOCAL AND PERSONAL

Mrs. Wm. Jeffers, of Omaha, is the guest of Mrs. E. F. Seeberger and other friends in town, having arrived yesterday.

The campaign for funds for the K. C. war camps has not been pushed very vigorously in North Platte this week, but the success so far is reported to be very satisfactory. The committee is hopeful that the sum allotted to Lincoln county will be raised.

The Columbia Grafanola has the clearest, most natural and distinct tones of any of the various talking machines made. You must hear it before you make your decision, lest you make a mistake. DIXON, the Jeweler.

Subscriptions in Nebraska for the Y. M. C. A. war work fund will amount to not less than \$500,000, which is double the sum allotted to the state in the country at large. The total sum will exceed fifty million dollars, or fifteen million more than the amount asked.

The demand for houses in North Platte is as keen as ever with the supply away under the demand. Yesterday the manager of the Penny Mercantile Co. hunted the town over for a house for a salesman he expects in a few days, but he was unsuccessful in finding a habitation for his new man.

The Tribune acknowledges an invitation to attend the opening of the new home of the First National Bank at Hershey tomorrow. This is a beautiful little building, a credit to the bank and to the village of Hershey.

Don't forget the candy sale of the Junior Glee Club at Derryberry & Forbes' Saturday, November 24.

L. P. Jensen, formerly of the Harcourt & Jensen firm, spent a day or two in town this week visiting Wm. Harcourt. When Mr. Harcourt, who has passed examination for the army service is called to the colors, Mr. Jensen will come here to take the management of the Harcourt Clothing Co.

Mr. and Mrs. J. J. Halligan plan to spend Christmas with their sons Captain Rolfe Halligan and Captain Vic Halligan at Camp Cody. From there they will go to southern California, where Mrs. Halligan will probably spend the greater part of the winter, Mr. Halligan returning after a short visit.

Nothing will add more cheer to the hearts of the Soldier Boys at Christmas time than a picture of the home folks. Make the appointment today.

BROOKS' STUDIO.

Pete Souder, formerly with the Hendy-Ogier Co., and later employed in an automobile plant in Detroit, is now in the engineering corps at the Great Lakes Naval Training Camp. He has sent his brother Sam Souder a picture of his company, and writes that he likes the work and camp life much better than he expected.

BRATT, GOODMAN & BUCKLEY.

The Vienna Cafe served whale steak to its diners Tuesday, and it was pronounced very good. It will be served Tuesday of each week—meatless day—if it can be secured. Mr. Hupfer received his first consignment of twenty pounds from Seattle, and has placed an order for one hundred pounds, which is due to arrive before next Tuesday. In appearance whale steak resembles the round steak of a beef.

Frank Crutchshinger, construction engineer of the new depot, has been in Omaha for a couple of days transacting business. He is not altogether a happy man. Ninety days ago work on the depot was going along rapidly and smoothly, and everything pointed to the completion of the building by December first. But alack and alas, things began going awry; strikes delayed steel plates for the floor trenches and beams for the balconies, other material was delayed week after week; in fact every day brought great gloom for Crutchshinger, until now the date of the completion of the building is problematical. Work is moving along somewhat slowly; the asbestos shingles are being put on and the concrete for the tile flooring, but other than this not much is doing, and there's still lots to do.

MAY KEEP ENGAGEMENT RING

Jersey City Judge Rules in Favor of Girl Whose Intended Sought Return of Sparkler.

There can be no Indian givers on the Jersey side of the Hudson, so ruled a judge in Jersey City, writes a New York correspondent. As a result of the decision a young swain is out a \$150 diamond ring, which he wanted a blue-eyed, petite blonde to return to him.

The two were engaged, and, according to custom, he placed the sparkler in question on her left hand. They then quarreled because she, according to his testimony, preferred the tango, jazz and fox-trot to sitting on a sofa and discussing their future. Therefore he broke off the engagement and demanded his presents back.

The judge was called upon to decide whether an engagement ring was a gift outright or merely a gift contingent upon the fulfillment of a promise to wed. The court then arranged a little "Solomon Judgment" skit that worked to perfection, so far as the judge and the young woman were concerned.

The Matterhorn.

The Matterhorn was the favorite peak of those who "went in" for the hazardous sport of mountain climbing in the Swiss Alps. Now reports say that there is no more mountain climbing being done. It is easy enough to guess why, writes Niska. For those who went around the world looking for hazardous occupations before the war there is now no need to make extended search, to stop at expensive hotels, or to hire a retinue of guides. Nineteen nations offer the adventurer more or less of a salary along with board, lodging and hospital facilities for the pleasure of risking his neck. No wonder mountain climbing has fallen off.

There are those who say that it will never again regain its old high estate. They rather think aviation will attract most of the devotees who survive the war. But your true mountaineer laughs at such a suggestion. For him there is no thrill to replace the one he feels as he swings by his fingertips over a 500-foot drop.

French Aristocracy Works.

The opening of a shop by Viscountess Gort attracts far more notice in England than it would in France, where many aristocrats earn their living in less lucrative ways than those of a Wend end milliner. The present Marquess de Torcey d'Estalonde keeps an inn at Carnac, the Marquise de Poligne is an omnibus conductor, the Comte de Rosgrand works in a flour mill, the Baron de Soligny is a postman and the Comte de St. Paul is a clerk. M. Jean de Retz of the same family as the famous cardinal is a grave digger; the Comte d'Hauteroche, descendant of the officer who, at Fontenoy, is alleged to have cried out, "Messieurs les Anglais, tires les premiers," is a renard, and the Viscount de Barde-neuche used to clean lamps at the Gare du Nord for three francs a day.

We have been called upon for men for the army signal corps, for telephone equipment for the camps at home and the troops in the field, and for long distance service between the various army headquarters.
