NO CALL TO COLORS AT LEAST UNTIL MAY.

New insight into the plans of the war department for conducting its part of the war was afforded in a statement made by Secretary of War Baker before the house committee on military affairs. The evidence brought out revealed these principal facts:
 The next draft will not be called until May and probably not until June next, when 500,000 additional men will be certified for service in the national army.
 The calls for these men will be governed by the capacity of the cantonments.
 The provost marshal general in charge of raising the national army desires to disregard the existing plan for the apportioning of men called from the various states and asks for power to call any number from any state.
 General Crowder desires also to have included in the next draft men who have become twenty-one years of age since the general registration last June.
 The war department is without definite estimates of the number who will be in France this year.
 The army now has more officers than are necessary for its present strength.
 Army appropriations for six months at a time may be provided, instead of one year, as at present, owing to the uncertainty as to how long the war will last.
 Secretary Baker unhesitatingly told the committee that the next draft would not be called to the colors before May, and after discussion with some members of the committee, agreed that deferring it until June might be wise. There was strong indication that this plan would be adopted.

Adjudged Insane.
 James Douglas, a Greek, twenty-six or twenty-eight year old, employed by the Union Pacific was adjudged insane by the board yesterday. He first developed mental weakness the early part of last week, and by Saturday night reached such a condition that his brother invoked the aid of Sheriff Salsbury. During Saturday Douglas went to a jewelry store and purchased several diamonds and several watches, but these were later returned. The unfortunate man's hallucination is money, and this is his constant talk. He was a hard worker, very frugal in his living and had \$1,200 on deposit in one of the banks. He was taken to the Hastings asylum last night.

Red Cross Notes.
 The ladies of the Red Cross are working on ambulance pillows and covers, a shipment of which is to be made Friday. Each pillow needs two covers and also an unlimited number needs to be sent with each shipment of pillows. The covers are thirteen by twenty inches finished, and are made of bleached material either new or firm old material. These covers can be made at home as well as in the work room, so if any ladies who have the material and time to make some covers at home would do so and see that they are pressed and at the work room Thursday they can be included in shipment Friday. This will only be one shipment of many so if not included in this shipment they can be sent with a later one. This is an appeal for aid to which we are sure the ladies of North Platte will respond as nobly as they have responded to others.

Big Crowd Assured.
 The riding contest to be staged at the fair grounds next Friday afternoon when a "Kaiser" rider will attempt to ride "Kaiser," the Lee Case mule that has so far thrown everybody who has attempted to stay on him, is attracting much attention, and a big crowd is assured. W. A. Gross, of Wyoming, has deposited \$500 as a guarantee that he has a man who can ride "Kaiser," while Case and his associates have deposited an equal amount on the claim that the "Kaiser" cannot be ridden by the Wyoming man. These bets are not "hot air," for The Tribune man has seen the certified checks. If "Kaiser" is feeling his best, and we hope he will be especially festive, the Wyoming man will need be better than any rider who has attempted to stick on the mule; and many good riders have so attempted.

In addition to this feature, ten outlaw horses have been secured and will be ridden by well known riders of the west.
 The admission will be fifty cents with no extra charge for the grandstand. As Friday is Washington's birthday and therefore a legal holiday everybody will have an opportunity to attend.

Notice To Masons.

Liberal quantities of Cheyenne whiskey was uncorked last Saturday evening and the number of drunks in town is reported to have been greater than during the palmiest days of the saloon. The local police admit they are unable to cope with the unlawful sale of booze, and it is probable that Governor Neville will be asked to send a detective here to ferret out the guilty parties.

SEIZURE OF HOUSEWIVES' FOOD STOCKS IMPOSSIBLE.

The government has never considered any plan of seizing foodstuffs owned by householders. Nor is there any policy of this kind suggested for the future.
 In spite of this fact, the United States food administration has been obliged repeatedly to issue official denials of rumors that the government intends commandeering preserves and canned goods put up in American homes.
 These rumors were originated partly by pro-German propagandists and partly by conscienceless grafters, who sought to profit through buying from misinformed housewives.
 The year 1913 will see home canning and preserving practiced on greater scale than ever before in the nation's history, officials in Washington believe. And they are assuring all patriotic housewives that foods so saved are theirs, and theirs alone.

NUTRITIOUS CORN BREAD.

One New York hotel has arranged a thoroughly patriotic corn bread recipe. It combines cornmeal with rye flour, both of which are being consumed in greater quantities this year in order to release wheat flour for the allied nations. This recipe fills a large pan—16 by 22 inches—and contains the following ingredients: One quart milk, four ounces butter substituted, ten ounces light syrup or honey, three eggs, pinch salt, two pounds cornmeal, one pound rye flour and two ounces baking powder.
 The butter and syrup are thoroughly mixed. Then add the eggs gradually, pour in the milk, then add the rye flour mixed with the cornmeal and baking powder. Bake in a hot oven.
