

RICHI UGAI PLANS ERECTING THREE STORY BUILDING.

Architect Victor F. Beck is now drawing preliminary plans for a three-story building to be erected on Front street by Richi Ugai at a cost exceeding \$50,000. Richi owns the building which he occupies as well as the old Nebraska House on the east. The latter, which has a frontage of twenty-six feet will be torn down and the present brick building incorporated in a three-story building that will have a forty-eight foot front and run back 132 feet to the alley. The lower floor will be devoted exclusively to restaurant purposes, provisions being made for a lunch room of ample proportions, a dining room 22 x 48, and an office in the front part, and kitchen, store rooms and refrigerating plant in the rear. The second floor will be reached by an elevator and will be divided into eighty-four rooms, nearly all of which will have outside windows. Many of the rooms will have private baths, and at least sixteen will have shower baths. There will also be public baths on both floors, and steam heat and water in each room.

The plans call for a very handsome front.

Fred Walker Arrives Home.

Fred W. Walker, son of Mr. and Mrs. Con Walker, who was honorably discharged after four years' service in the marine corps, arrived home a few days ago and will probably remain for two or three months before re-enlisting in the same service. For seventeen months prior to his discharge he was stationed in Santa Domingo as a member of the expeditionary force of 1700 men sent there during the revolutionary uprising. He was discharged as a sergeant, and when he re-enlists he will be given the same non-commissioned rank at a pay of sixty-three dollars per month. Considering that he receives his clothing and food, medical attention, and pay during any sickness he may have, the position is quite a good paying one.

Fred looks to be in perfect health and expresses no dissatisfaction of treatment in the marine corps.

Japanese Farmer Killed.

Den Sakuno, a Jap farmer living on land about a mile northeast of the Platte Valley school house, was killed Monday evening when he fell beneath the wheels of a wagon loaded with hay. He attempted to climb upon the front of the load when his team started and he fell, a front wheel passing directly over his head and crushing it into a mass of pulp. The funeral was held at the Derryberry & Forbes chapel Wednesday, thirty-two Japs attending the service.

Sakuno was a married man.

Dr. Simms is Called.

Sixty-Four Red Cross Workers.

Sixty-four ladies participated in Red Cross work at the federal building yesterday. Forty members of the Lutheran aid society and the Catholic society assisted in the making of garments, and twenty-four others were at work on dressings and bandages. During the past month the local chapter has worked up one thousand dollars worth of material, and from this time forward it is probable that sum will be needed each month to keep the workers busy.

Sing "America" This Evening.

In every city, town and hamlet in the United States "America" will be sung at eight o'clock this evening, either by community choruses, quartettes or soloists. Arrangements have been made to sing this national hymn at the basket ball game at the Franklin Auditorium, and at the dedication anniversary at the Masonic hall, both of which occur this evening. It is requested that the hymn be sung at eight o'clock in every home in North Platte.

Not only in the United States will the hymn be sung, but in the trenches in France the American boys will sing it heartily.

No amount of increased food production, decreased food use or food substitution and saving will help unless ships for sending food across the Atlantic are available, he said.

The tobacco and cigars to be obtained in France are vile.

The Wilcox Department Store completed moving its fixtures and stock to the new location in K. C. building this week, that is, all but the grocery stock which will remain in the old quarters until closed out. Though not yet altogether straightened out and in the intended shape, the new location presents a very attractive appearance. The second floor is devoted exclusively to the ladies' ready-to-wear and millinery departments, both of which will be strongly featured in the future.

Food Situation Serious.

A Washington dispatch dated yesterday says:

The eastern part of the United States faces a food shortage likely to continue for the next 60 days.

In making this disclosure tonight Food Administrator Hoover declared that the situation is the most critical in the country's history and that in many of the large consuming areas reserve food stores are at the point of exhaustion.

The whole blame is put by the food administration on railroad congestion, which he says also has thrown the food administration far behind in its program for feeding the allies. The only solution he sees is a greatly increased rail movement of food-stuffs to the exclusion of much other commerce.

It was very evident tonight that the railroad administration is inclined to resent Mr. Hoover's blame of the railroads and Director General McAdoo declared he was ready to provide every transportation facility for expediting food movement.

ART EXHIBITION NEXT WEEK AT AUDITORIUM.

The exhibition of pictures at the Franklin auditorium Wednesday, Thursday, Friday and Saturday of next week will be of more than ordinary interest. It consists of carbon photographs and engravings loaned by the Elson Art Pub. Co., Inc., of Belmont, Mass. The collection comprises 200 subjects representing all the principal schools of art and include many reproductions of sculpture, architecture and views from nature.

The exhibition will be open to the public on Wednesday, Thursday, Friday and Saturday afternoons and on Friday evening at the Franklin auditorium. Each afternoon a short lecture will be given and there will be a special musical feature. Friday night, however, is the big occasion. The lecture will be repeated and some special numbers will be sung by the Junior high school glee clubs under the direction of Miss White. Three Folk Games will be given by the pupils of the Washington school. The exhibit will be open from 3 to 5:30 p. m. each afternoon and from 7 to 10:30 Friday evening. A committee of ladies will be in attendance to answer questions and explain the pictures to anyone desiring such information.

Already there is a keen rivalry among the different rooms in the sale of tickets to see which ones will win the prize pictures. These pictures will be awarded Saturday afternoon which is the special day for school children. It is the hope of the club that many pictures may be added through this exhibit to the excellent ones already owned by the city schools. Remember that the entire proceeds of the exhibit will be used for this purpose and every 10 cents admission will help the cause along.

We hope you will not fail to visit the exhibition, and believe you will

be fully repaid for the slight trouble and expense in the pleasure and profit you will gain for yourself, besides helping on the work.

Marching Toward Petrograd.

The German invasion of Russia continues unimpeded. Apparently there is to be no cessation in the eastward march of the enemy until the Russian bolshevik government entirely slakes the thirst of the Teutons for a peace "which corresponds with our interests," as expressed by the German foreign minister.

Southern Estonia has been entered by troops from German warships in the Gulf of Riga or from Moon or Gesel Islands, lying off the shore and a base established from which operations may be carried on against Reval, an important port on the Gulf of Finland; north east and east of Dvinsk the penetration along the railroad lines leading to Petrograd and Smolensk at last accounts had reached more than twelve miles and thence southward to southern Volhynia, the invasion was in progress over wide areas, with the Germans taking prisoners and guns, rolling stock and other booty in large quantities. The line over which the Germans are operating from southern Estonia to Lutsk, is more than five hundred miles in length.
