SAMMY GIRLS PROFIT AT A SALE YESTERDAY.

The Sammy Girls were again financial winners at the Doolittle-Osgood sale held at the Doolittle ranch yesterday and their cash balance was increased in the sum of \$235.50. This sum was secured through the sale and re-sale of articles that were donated. LeRoy and Gordon Knott contributed a turkey which was sold, donated to the girls and re-sold many times and netted the girls \$137.50 and the turkey is still owned by the girls. At some future time it will again be used as a revenue-getter.

Mrs. Doolittle donated a calf which brought \$44.25 and Mac-Westfall gave the girls a dozen chickens from which \$51.25 was realized. Eggs brought ten cents each, and enough of these were sold to bring the total up to \$235.50.

Carpenters Ask an Advance.

The Carpenters Union of North Platte is now conferring with contractors in regard to the wage scale for 1918. Last year the scale was forty-five cents an hour, but this, the carpenters say, is too small a wage considering the high cost of living. They are asking that sixty-five cents per hour be the established schedule for this year.

COPPER STOCK MAKES ALEX. ADAMSON RICH

The following article taken from a Los Angeles paper tells of the success of a former North Platte man, one who learned the machinist's trade in the local shops: Alexander Adamson of Douglas, Ariz., is making his periodical visit to Los Angeles. He declares things never were so lively industrially in Arizona as now. "Copper is making a new lot of millionaires in my State," he said. "Copper dividends there amounted to more than \$120,000,000 in 1917. They will be bigger in 1918, for we have got rid of labor troubles, which tied the mines up for months last season. I was lucky enough to get several thousand shares of stock at four bits a share and I sold half of it for \$40 a share. Pretty good clean-up! The balance of my stock is paying dividends of \$2 a share annually. That will keep us all right."

FUNSTON-BOUND MEN PRESENTED WITH SWEATERS.

The nine Lincoln county men who left for Camp Funston last night were each presented with a sweater knit by members of the Sammy Girls club. The presentation occurred in the court room in the federal building at the regular meeting of the girls, which gathering, in the absence of Mrs. McGraw, was presided over by Mrs. J. G. Deeler. In her opening remarks Mrs. Deeler referred to the splendid work the Sammy Girls are doing, and to the love entertained by "Mother" McGraw for the girls.

Preceding the presentation of the sweaters, W. V. Hoagland gave a twenty minute address in which he spoke of war conditions, the principles for which we are fighting, and complimented the Sammy Girls and gave words of encouragement to the young men who were bound for Funston. Short talks were made by T. C. Patterson, Ira L. Bare and J. T. Keefe. The sweaters were presented to the boys by J. E. Evans in behalf of the Sammy Girls and give a nice talk to the boys. Frank Stuart made reply in behalf of the boys.

Preceding the meeting the boys were entertained at supper by a number of leading men, and following the meeting they were informally entertained at the Elks' home until train time. Quite a number of citizens were at the depot to say good-bye. At the close of the Sammy Girls meeting the hundred or more present shook hands with the boys and wished them good luck.

GOVERNOR NEVILLE SAYS NEW DRAFT PLAN IS UNFAIR

A Washington special appearing in today's Bee says:

Governor Neville of Nebraska is considerably exercised over the rumor that the provost marshal general is seriously considering making the number of men in class one the basis for the apportionment of quotas to the states and counties in the next draft.

In a letter to members of the Nebraska delegation, Governor Neville says the rule, if adopted, "would be most unfair and unsatisfactory." In support of his contention he says: "For instance, in Nebraska, in spite of our best efforts to secure uniformity of classification, in some counties a class of men are placed in one class and in another county in a different class. To base the apportionment of quotas upon the number of men in class one would penalize the patriotic communities in which men waived deferred classification and exemption, and it would lessen the burden upon the communities where the men claimed deferred classification and exemption."
