SAVE YOUR COUNTRY

By Planting TEN MILLION GARDENS in 1918

By spending a half-hour a day in your garden you can render as great a service to our community and Government as in any other capacity and if as our most brilliant diplomats claim, this awful carnage of war continues for from three to five years, we all, regardless of nationality, creed, color or birth owe to our local community as well as our Government, what service we can render to save us from the privations that would seem inevitable in view of the lessening of European production.

Even though the war should be terminated before we can place this proposition before you, there should be no lessening of production, due to the fact that two years, or more, must elapse before Europe can produce even a small portion of her natural production.

PLANT A GARDEN
 HOWEVER SMALL

AS AN INCENTIVE WE ARE GIVING to every student in our Schools from 1st grade up, as well as the general public a chance to compete for the following prizes. Even though there are four in the family each should have a little patch to care for.

BERT BARBER.
 Pro-German Band Discovered in Lincoln County—60 Farmers Near Bignell Form posse.

The presence of a strongly entrenched, well organized band operating more or less generally throughout this and adjoining counties, has recently been brot to public attention. Slowly but effectively they have been gnawing at the vitals of Uncle Sam. Their methods might well be made a model of trench warfare.

The presence of such a body has been believed for some time, and traces of their work at times clearly discerned, but not until last Thursday evening when a few patriotic farmers met together to discuss the matter, was the full significance of their work brot to light, and the need for speedy and definite action recognized.

A plan was hastily decided upon, and a net drafted. Sixty farmers en bloc representing the south side from Bignell to the Williams Ranch, divided into six divisions, each under a chosen leader, were to meet early this morning with their respective leaders, who are to give out the ammunition, and disclose the plan of attack. Poison has been decided upon as the most quiet and effective method. The day has been set aside as Gopher Day and every man armed with a one-eight ounce bottle of strychnine, and a pocket full of raisins or potatoes, has pledged himself to work assiduously the entire day, prodding the alfalfa fields on his own farm for subterranean passage ways, and when found, dropping in a dainty morsel for Fritzes' brother, the Boche Gopher.

Besides getting started and assisting the farmers of Bignell in organizing to fight gophers, the County Agents office has been active in the placing of approximately 4,000 bushels of seed, of which we have definite knowledge in this county.
