

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these homely spots. Simply get an ounce of ointment—double strength—from your druggist, and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Proof Indeed.

They had been discussing friends and exchanging views about them. Suddenly Jones mentioned Brown-Smith.

"Oh, he's a fine chap!" broke out Clarke enthusiastically. "He's the most wonderful man I know!"

Jones looked startled at the great outburst of praise and asked in surprise:

"Indeed! How do you make that out?"

"Well," explained Clarke, "before he got a motorcar he promised the usual number of people that he would take them out for runs. And," he continued, in tones of awe, "he actually kept his promise to every one of them."—New York Evening Post.

Always Particular.

He had been the nuttiest of nuts before he trod the paths of crime; and he was to be hanged on the following day.

"Have you any request to make?" inquired the governor of the prison, according to time-honored tradition.

"Well, if you could let me tie the noose myself," suggested the condemned one. "Never did care for those ready-made ties—don't want to start now."

Sterilize Drinking Glasses.

Drinking cups and glasses used in restaurants, at soda fountains and other places must be washed five minutes in boiling water containing a 5 per cent solution of lye, according to regulations promulgated by the California state board of health for the enforcement of the law governing the sterilization of drinking utensils.—The New American Woman.

Too Late.

Ellen—"Cheer up, old top, you'll get her yet." Lee—"You're always looking on the dark side."—Panther.

Win the War by Preparing the Land

Sowing the Seed and Producing Bigger Crops

Work in Joint Effort the Soil of the United States and Canada

CO-OPERATIVE FARMING IN MAN POWER NECESSARY TO WIN THE BATTLE FOR LIBERTY

The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contribute; Every Available Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man power is short, and an appeal to the United States allies is for more men for seeding operation.

Canada's Wheat Production Last Year was 225,000,000 Bushels; the Demand From Canada Alone for 1918 is 400,000,000 Bushels

To secure this she must have assistance. She has the land but needs the men. The Government of the United States wants every man who can effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. Whenever we find a man we can spare to Canada's fields after ours are supplied, we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interests.

Western Canada's help will be required not later than April 5th. Wages to competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good board and find comfortable homes. They will get a rate of one cent a mile from Canadian boundary points to destination and return.

For particulars as to routes and places where employment may be had apply to: **U. S. EMPLOYMENT SERVICE, DEPARTMENT OF LABOR**

SUDDENLY REVISED HIS CODE

Exponent of Masculine Street-Car Courtesy Felt Himself Justified Making Exception.

The stout man on the Wade Park car turned to his companion.

"I've formulated a new code of masculine courtesy," he said, "and pledged myself to observe it. When I am fortunate enough to get a seat in a car I hang onto it—with three exceptions. I'll give it up to an elderly woman, to a woman carrying a child and to a sick person. I draw the line at these exceptions. It's my street car courtesy code, revised to date, and in line with prevailing conditions."

He stopped suddenly and stared at a plainly dressed woman who stood close by. Then he quickly arose and gave her his seat.

When the two men left the car the other man said to his friend. "How did you happen to give your seat to that woman?"

"I've enlarged my code."

"Your inflexible code. Yes, but why?"

"That woman has a husband, a son, or brother in the army. But probably you didn't notice it?"

"Notice what?"

"Her service badge."—Cleveland Plain Dealer.

Circumstantial Evidence.

Tommy was making a visit to his grandparents, who owned a large dairy. He had been forbidden to touch the tempting-looking pans of rich cream. One day his grandmother caught him coming up from the cellar with a very suspicious white rim over his upper lip.

"Tommy," she said, "I am afraid, from your looks, that you have been disturbing my pans of cream."

"Oh, no, I haven't," Tommy hastened to explain. "I just ran my tongue gently over the top."—Country Gentleman.

Not So Foolish.

The members of a certain local exemption board shrugged their shoulders cynically when a young man appeared before them limping conspicuously and asked for exemption on the grounds of physical disability.

"Fell down on the ice and hurt yourself, I suppose," one of them suggested.

"No," said the candidate, flushing. "I lost one leg at the battle of the Somme."

Then there was a large silence.—New York Tribune.

Retribution.

"What are you working on, there?"

"A hymn of hate," replied the poet sternly.

"Dear me! Don't you know the American government discourages anything of that kind?"

"Oh, yes. But this is none of the government's business. It is addressed to a neighbor of mine who has played 'Over There' on his phonograph every night for the past seven weeks."—Birmingham Age-Herald.

All It Was Good For.

Judge—Why did you hurl this bottle at the umpire?

Fan—It was empty.—Boston Globe.

Such a Dear Friend.

Ethel—Agnes was at the cat show.

Maud—As an exhibit?—New Haven Register.

In case of emergency patriotism will always find a way.

It's passing strange that some things come to pass.

POULTRY

BRONZE TURKEY IS POPULAR

Largest of All Domesticated Fowls and Most Favored, Whether for Profit or Pleasure.

The Bronze turkey is the largest of all domesticated turkeys, the cocks weighing 36 pounds, and the hens 20 pounds, according to their standard of weights.

Besides the Bronze turkeys, the others of the turkey family are the Narragansett, White Holland, Black Buff, Slate and the Bourbon Red turkeys.

Each of these varieties of turkeys is bred with more or less profit, but

Fine Type of Bronze Turkey.

the Bronze is the most popularly bred of all turkeys, whether for pleasure or profit.

The breeding stock is the first essential feature of profitable turkey raising, and the better, the healthier, the stronger the breeding stock, the greater will be the results.

Vigorous, healthy breeding hen turkeys should always be over one year old, two and three-year-old hens are even better for breeders.

FARMERS SHOULD RAISE MORE CHICKENS AND EGGS.

(Prepared by the United States Department of Agriculture.)

More chickens and more eggs will release more meat for our armies and the allies. They cannot get our chickens and our eggs—we can and like to eat them.

Poultry can be increased more rapidly and more economically than any of the meat animals.

Chickens will live largely, grow and prosper, on waste that never otherwise would be of use, and will eat the infant bugs, particularly orchard pests, before they have had opportunity to do great harm.

Chickens require a minimum of attention. Most of it can be given by women and children. No heavy labor is required.

Chickens will help win the war.

LITTLE DETAILS OF SPRING

Poultrymen Should Clean Out, Disinfect and Whitewash Hen Houses —Look Over Fences.

With the coming of spring, when fowls spend more time out of doors, the poultryman should don his overalls and jumper and set things briskly to rights. There are the houses to clean out, disinfect and whitewash; fences to look over and possibly mend, yards to rake up, spade and sow to rye or oats; brooders and brooding coops to paint and clean and colony houses to get in shape.

DO NOT FRIGHTEN CHICKENS

Hens Disturbed Will Not Lay as Well as They Otherwise Would—Keep Dogs Away.

Hens that are frightened or disturbed will not lay as well as they otherwise would and therefore it pays the care-taker to make friends with the flock and to be sure that dogs and strangers do not disturb the layers.

ADVANTAGES OF SOUR MILK

Keeps Turkeys in Good Health and Reduces Activities of Organism Causing Blackhead.

The feeding of sour milk has been found of advantage in keeping turkeys in good health and in reducing the activities of the organism causing blackhead. Free range and care not to overfeed are most important.

THE BIG WORK IN THE WAR

The War Lord Salutes the Field Marshal.

Such is the striking title to a well-timed cartoon in an agricultural paper, showing the War Lord in salute to the farmer. The meaning of it is that without the assistance that the farmer renders in the matter of providing food for the army the fighting ability of that body would be proportionally decreased. While the army is fighting, the farmer is busy. The promptness with which he sprang into the breach was a patriotism equal to that of the man who enlisted and the farmer's record in this particular was worthy of the high record that has become his. All over the United States the appeal is being met by more production. Fields are enlarged, intensive agriculture has taken the place of slipshod methods, more cattle are being fattened, more hogs grown, veal and lamb have become scarce commodities. This is all in keeping with the food-controller's demands, and with the heartiness that is now prevalent, it would seem as if the requirements of the boys at the front and the allies in Europe would be fully met.

Not only are the tilled acres of the United States being brought into requisition, but the wild pasture lands are doing their share and a pretty large share it is, too. By an arrangement with the United States Government it will now be possible through its employment bureau to secure for the Western Canada fields such help as can be spared. It is thought in this way Canada will have its help to seed its millions of acres of wheat land fairly well met. The large number of young men of the farms who have enlisted and gone to the front has left many of the Western Canada farms weak in the matter of man power. This means that Canada can take all that the United States can spare. The wages will be good and the housing comfortable.

In addition to this the free homestead lands of Western Canada offer the greatest inducement to the man with limited means who is willing to undergo some of the hardships naturally accompanying this enterprise. There is also the large area of uncultivated lands that are waiting the man with sufficient means to purchase and equip. And this is not expensive. The lands are cheap and the terms very reasonable. Equipped with tractor or horse power the cultivation cost is slight when the return is considered. Yields of wheat varying from 20 to 40 bushels per acre may be relied upon, and with a set price of over \$2.00 per bushel, it is an easy matter to arrive at the cost. Production, including interest on land, has been estimated at figures not exceeding ten dollars an acre. With a twenty bushel yield, at a two dollar price—forty dollars. Ten from forty and you have the profits many farmers made in Western Canada the past year.

The Dominion and Provincial Governments are working conjointly in an increased production propaganda. Among the important steps that have been taken to bring this about is the recent order by which it is made possible to take into Canada tractors that cost fourteen hundred dollars and less in the country of production. This will give those residing in the United States, owning lands in Canada, the opportunity to place them under cultivation at much less cost than in the past. Another inducement is the privilege of taking sheep and cattle in free of duty. Automobiles form a necessary part of the outfit of a good many farmers that would like to move to Canada. These are now accorded free duty. Provision is also made that those requiring seed and unable to obtain it in any other way, may get it from the Government. So from this it will be seen that it is not only the fertile lands of Western Canada that invite the settler, but the ease and

To The American People

There is no foundation for the alleged violations of law attributed to our Company by agents of the Federal Trade Commission and I want to say emphatically that Swift & Company is not a party to any conspiracy to defraud the Government. Nor has Swift & Company been guilty of improperly storing foods or of making false entries or reports.

Conferences of packers, where prices have been discussed, have been held at the urgent request and in the presence of representatives of either the Food Administration or the Council of National Defense. And yet the packers have been accused of committing a felony by acting in collusion on Government bids!

We have done our best, with other packers, large and small, to comply with the directions of the United States Food Administration in all particulars, including the furnishing of food supplies for the U.S. Army and Navy and the Allies, now being handled through the Food Administration.

We will continue to do our utmost, under Government direction, to increase our production and assist the Food Administration. We consider that the opportunity to co-operate whole-heartedly and to our fullest powers with this branch of the Government is our plain and most pressing duty.

The Trade Commission Attorney has, by false inference and misplaced emphasis, given to disconnected portions of the correspondence taken from our private files and read into the Record, a false and sinister meaning with the plain purpose of creating antagonistic public opinion.

The services of the packers of the United States are most urgently needed, and I regret exceedingly that we should at this time have to spend our efforts in defending ourselves against unfounded, unproved, and unfair assertions such as are being daily made public.

L. J. Swift, President
Swift & Company, U.S.A.

cheapness with which a farmer may establish himself.—Advertisement.

Too Much.
A playwright and an actor were in conversation when the former, who has been none too successful of late, exclaimed gloomily:
"People will praise my work after I am dead."
"Well," said the actor, in a consoling tone, perhaps you are right, but don't you think it's a great deal of sacrifice to make for a little praise?"

How to Make Oatmeal Bread

Healthful to Eat—Saves the Wheat

| | |
|---------------------------------|-------------------------------------|
| 1 cup flour | 1 cup cooked oatmeal or rolled oats |
| 1 1/2 cups corn meal | 2 tablespoons shortening |
| 1 teaspoon salt | 1 1/2 cups milk |
| 5 teaspoons Royal Baking Powder | No eggs |
| 2 tablespoons sugar | |

Sift together flour, corn meal, salt, baking powder and sugar. Add oatmeal, melted shortening and milk. Bake in greased shallow pan in moderate oven 40 to 45 minutes.

This wholesome bread is easily and quickly made with the aid of

ROYAL BAKING POWDER

If used three times a week in place of white bread by the 22 million families in the United States, it would save more than 900,000 barrels of flour a month.

Our new Red, White and Blue booklet, "Best War Time Recipes", containing many other recipes for making delicious and wholesome wheat saving foods, mailed free—address
