

### THE ENEMY WE MUST MEET

By William Allen White

(Mr. White, editor, author and King of the war and all of its many angles while on an extended visit to the various battle lines of the Allied armies.)

Back of the German lines every ounce of food is conserved, and distributed with fairly equitable pre cision; every yard of cloth is numbered and is entered into the war strength of the empire. Every pennyweight of German coal is handled with scientific care, and the one end and aim of all this autocratic control of food and clothing and heat is the winning of the war. There is no other purpose in the German mind. Every German mark is a German soldier; every grain of gold is doing its full share to work out that indomitable purpose.

Here in America we must realize that the war will not be won on any front, but in our own hearts. This is a clash of civilizations. We must develop in our hearts a democratic pur pose as strong and as carefully directed as this autocratic purpose of Germany. We, too, must make soldiers of our corn stalks, make defenders of pound, and we must make bullets of our pennies. If we fail to develop this by the consumer. democratic purpose in the eye to eye, knee to knee, hand to hand, struggle on the front, which, after all, only reflects the strength of our convic tion, then our civilization will go down. To fail to support our soldiers with ammunition, with food, with clothing, with coal, will weaken them for the great conflict at the great moment, and that weakening will come from our hearts at home. It will come if we are slow with our financial support of the men. The Liberty Loan furnishes us with the only way we home-stayers can practically show our purpose. Our patriotism will be measured by our performance toward the Liberty Loan. What we lend to our country in this time of need will fathers bought. It is at stake. The autocratic purpose of Germany, iron willed and yet unbroken, almed at world conquest is threatening us. What is freedom worth to you? It is worth what you lend to your government in this hour of its awful need.

# Your Choice? bonds or bondage? Will you lend your money and be free hoard it now and pay

it out in Tribute when Liberty is lost?

IS AMERICA AWAKE? As much as has been said and written in America about the World-War in Europe, it is doubtful if America is yet awake.

A man who returned from Europe six months ago, said, "The farmers of America are feeding to their cattle today better food than millions of people in Germany and Austria have had at times. These people whose governments are fighting us are subsisting on cow beets and straw bread. All Europe is short-rationed and hungry.

This is our war from now on. What happens in Europe is America's deepest concern. There is not enough food in the world. Either our soldiers must skimp their rations or we must skimp ours; either they must do without some necessities or we must do without some of our luxuries. Which shall it be?

Count on the Tomorrows. What will your business be worth if we should lose the war tomorrow? What would you give for a farm in Russia today? What would you give for a farm in America if conditions were such as they are in Russia today? Help produce, help conserve, and help fight by buying Liberty Bonds, for "he also fights who helps a fighter

our wool and cotton and silk, make per cent, wheat and 40 per cent, of every pound of coal an American other ingredients an additional 20 per

be used in baking corn bread. Rolled oats are used largely as breakfast porridge or in oatmeal cookies or in

making muffins, Buckwheat flour may be used in bread making, forming an excellent substitute for one-quarter of the wheat flour, but is especially choice in the form of buckwheat cakes for breakfast.

With 11 wheatless meals needed each week in America to provide enough wheat for the allies, the Food Administration believes the substitutes will all be used to advantage.

## USE LESS WHEAT.

The allied nations have made further increased demands on us for breadstuffs - demands that Americans are obligated to meet.

In the meantime America's meat supply has been greatly increased for some months to come by the unprecedented shipping to market of hogs that averaged 232 pounds each instead of 203 pounds-the nor-

The United States Food Administration, endeavoring to adjust the international food bal-, promptly removed certain dctions in this country on se of meat and at the same sked for a smaller contion of breadstuffs,

areasked to observe only meatless day each week-Tuesday. We will have larger meat stocks for swhile. But our bread ration must be held to a minimum.

In altering its food conservation program the Food Administration emphasizes that the food situation is of necessity, subject to radical changes, caused by crop conditions at home and abroad and by the precarious transportation problem, both in overseas shipping and in America's overburdened

transportation system. The Food Administration will keep the American people fully and frankly advised of each change in the developing situation that they may know definitely the part their food sacrifices play in the world war,

more meat, more fats, more dairy products, more sugar. Their harvests were very short-France had less than half A2-A19. her normal crop of wheat-and the available shipping is small in amount and constantly being lessened by submarines, so that it is now practically impossible to use any ships for the long voyage necessary to bring food from Australia and other remote markets. The food must come chiefly from America. In specific figures it is necessary for us to send to the allies to be done by the help and full co- tions duly filed. operation of all of us over our broad land. We must produce and save

dairy products by about 10 per cent.

Over there they are tightening their belts and doing everything they can. They are eating war bread; they are cutting down their sugar in England to two pounds per person per month, and in France and Italy to one poundhow much are you eating?-and they are using ration cards for most of the staples. We must meet sacrifice with sacrifice. If we don't, we are helping to lose the war instead of helping to win it.
