"Over the Top," a picturization of Guy Empey's book, with a well defined plot interlaced, was shown at the Sammy Girls' theatre Friday and Saturday evenings. Owing to a delay in receiving the films but one show could be given Friday evening and this interfered with the attendance, though a good sized audience was present. Saturday evening attendance was large. The film cost \$100 per night, but the net receipts considerably augmented the cash in the Sammy Girls' strong box.

Scenes surrounding beautiful Lake George are shown in "Outwitted" the forthcoming Metro wonderplay starring wonderful Emily Stevens, to be seen at the Sammy Girls theatre on Thursday. There the love scenes between Nan (Miss Stevens) and Billy Bond (Earle Foxe) were taken, and this picturesque locality makes just the right sort of background for the budding romance in "Outwitted." In one of the magnificent rooms in the house of Larson (played by Frank Currier) a celebrated painting, "Portrait of a Lady," by William Chase, is seen, set into the wall above the great fireplace. The use of a dictaphone is cleverly brought into the story of "Outwitted." The audience sees the conspirators place the instrument where the victim's own words will betray him. By means of clever signalling and telephone communication his secret thoughts are told by Nan (Emily Stevens) posing as the "voiled-prophetess."

The History of German Intrigue, Diplomacy and Double Dealing.

The story of "My Four Years in Germany" written by Ambassador James W. Gerard, which will be shown at the Sammy Girls theatre next Friday and Saturday with two performances daily, 7:30 and 9:00 p. m. is the filmed version of the actual experiences of our Ambassador at the court of the Kaiser during his four years in Berlin; and it is said that this production is exceptionally well made and founded upon fact.—NOT FICTION. Throughout the making of the film Mr. Gerard was in close touch with William Nigh, who directed the production, and the scenes and details were staged with painstaking care in every detail. Nothing will so clearly in the minds of the people the reason why America is at war with the autocratic dictator of Europe as a clear and lucid tale of hidden forces working for the downfall of America and the forces of democracy. The result of the German inability to really understand America is clearly shown by the incidents which took place in Germany before the war and in which our Ambassador, James W. Gerard, was involved. The whole history of German intrigue, diplomacy and double dealing is said to be disclosed in an interesting picturization of Mr. Gerard's book. When on October 25th, 1915, the Kaiser shook his fist in the face of Ambassador James W. Gerard and told him that after the war he would stand no nonsense from the United States he did not realize that the patience of Americans would soon reach the breaking point. The whole series of incidents the plot and intrigue, the broken promises, the deliberate disregard of all the rights of a friendly nation in the insane desire to rule the world is shown in the motion picture reproduction of "My Four Years in Germany." The whole page of history from the Zabern incident to the gathering of the American army over there is shown.
