

WORK OR FIGHT ORDER DEFINED

Provost Marshal General Crowder Rules Baseball Is Not Useful Job.

HITS MANY OCCUPATIONS

Store Clerks and Automobile Salesmen Under Ban—Local Boards Are Told to Use Common Sense.

Washington, June 24.—New regulations issued on Friday to draft boards by Provost Marshal General Crowder to govern application of the "work or fight" order do not rule specifically upon the status of professional ball players or other classes that may be affected, but emphasize the section of the order placing games and sports among the occupations classed as non-useful.

In an oral statement announcing the regulations, officials of General Crowder's office said "at present" the occupation of a baseball player is regarded as nonproductive, but that until a case had been appealed from a local board there would be no ruling on the subject.

"Local boards will consider cases of withdrawal of deferred classification with common sense," General Crowder's instructions say, and they name illness, vacation, the impossibility of securing productive employment without change of residence, as reasonable grounds for waiving the general order. While sales clerks in stores and clerical workers in offices are classed as nonproducers boards are directed to exempt department store executives and skilled workers attached to such establishments.

Traveling salesmen will be considered as engaged in productive employment, but automobile salesmen in cities will not, it is explained. Public or private chauffeurs are held to be nonproducers only when they combine other work with their mechanical duties.

Local boards are asked to assist registrants to obtain new employment through the federal employment service and are given power to postpone action while effort is being made to place men in occupations held productive.

"When it has been determined that a person in deferred classification is an idler or is engaged in nonproductive employment," the instructions say, "the classification and order number of such person will be withdrawn and he will immediately be inducted into the military service."

"The regulations provide that persons engaged in the service of food and drink, or either, in public places, including hotels and social clubs, are engaged in nonproductive employment. This, however, does not include managers, clerks, cooks or other employees, unless they are engaged in the actual serving of food and drink.

"The regulations further provide that passenger elevator operators and attendants and doormen, footmen, carriage openers and other attendants in clubs, hotels, stores, apartment houses, office buildings and bath-houses are engaged in nonproductive employments."

CABINET OF AUSTRIA QUILTS

Premier Seydler Leaves Vienna for Headquarters to Submit Resignation to Emperor.

London, June 24.—Dr. von Seydler, the Austrian premier, left Vienna at midday for the Austrian army headquarters to submit the resignation of his cabinet to Emperor Charles, says a dispatch to the Exchange Telegraph from Zurich.

[Premier von Seydler's tenure of office has been fraught with much bitter conflict. The breaking down of the "hunger offensive" against Italy and Germany's refusal to keep her promise to supply food to Austria, is believed to have led to the cabinet's decision to resign.]

New bread riots started in the Favoriten and Brigittenau districts of Vienna and there are now more than 150,000 munition workers on strike in the Austrian capital.

Upholds Latin Army Plan.

Washington, June 24.—Authority to train in this country and to furnish all necessary equipment to the troops of any other nation engaged in the war on Germany and Austria would be given the war department under an amendment added to the \$12,000,000,000 army appropriation bill by the senate military committee. The eight Central and South American nations which already have broken relations with Germany possess a potential reservoir of not less than 2,750,000 men.

British Admiral Is Dead.

London, June 20.—Admiral Sir Alfred Paget died at Brompton on Tuesday afternoon. Admiral Sir Alfred Paget was at one time British naval attaché at Washington. He was sixty-five years old.

Wants Candy Fed to Yanks.

Washington, June 20.—Candy would be added to the rations of all officers and enlisted men of the American expeditionary forces under a resolution introduced by Representative Gould of New York.

STICKING TOGETHER

This is a time when kings must stick together.—Charles of Austria-Hungary.

U. S. MEN ON HUN SOIL

TROOPS FROM WEST GO INTO KAISER'S LAND.

Soldiers From Wisconsin and Michigan Now Fighting in Alsace Under Gen. W. G. Haan.

Washington, June 20.—The war department on Tuesday authorized formally the announcement of the fact that the Thirty-second division (National Guard) is now fighting in Alsace, on German territory. Since the division has been in action its presence has been identified by the Germans, permitting the fact to be disclosed.

The Thirty-second division is composed of Michigan and Wisconsin troops, which left this country commanded by Maj. Gen. William G. Haan, under whom it was trained at Camp MacArthur, Tex.

It was a soldier of this division, Private J. W. Guyton, who had the distinction of being the first man of the American forces to be killed on German soil. The division took over a sector of the line in Alsace just north of the Swiss border a short time ago.

Several units of the Thirty-second were on board the British liner Tuscania when it was torpedoed and sent down by an enemy submarine last February, and some of the members were among the relatively small number of victims of that disaster.

British Casualties.

London, June 22.—British casualties for the week ending Friday totaled 36,620.

TELEGRAPHIC NOTES

Paris, June 22.—French prisoners who have been in Germany since August, 1914, will be exchanged on June 24, according to the Petit Journal.

Camp Dix, N. J., June 22.—Twenty-five thousand soldiers, so grouped as to form a human Liberty bell, posed here for what is said to be the largest group photograph ever taken. The picture will be used in the Fourth Liberty loan campaign.

Washington, June 22.—Representative Caldwell of New York declared after the meeting of the house military committee with Secretary Baker and General March, chief of staff, that as far as the United States was concerned the war would begin next September. By that time American troops will be equipped to make themselves felt.

New York, June 22.—Twenty traffic managers of grain exchanges in the East and middle West conferred at the offices of the United States Grain corporation to consider modifications likely to be made by the national food administration in the control of grain.

New York, June 22.—Joseph F. Rutherford, successor of "Pastor" Russell as head of the International Bible Students' association, and six of his associates who were convicted were sentenced to 20 years' imprisonment for conspiracy to violate the espionage law.

Kansas City on Ice Rations.

Kansas, City, Mo., June 24.—This city was placed on ice rations as a result of a shortage which ice company officials predicted would become serious if the present intensely warm weather continues.

Aviator Instructor Killed.

St. Louis, June 24.—Lieut. James R. Wheeler, twenty-four years old, of this city, aviator instructor, was instantly killed at Scott field, at Belleville, Ill., near here, when his airplane plunged 500 feet to earth.

TURKS WAR ON U. S.

AMERICAN HOSPITAL AND CONSULATE ARE SACKED.

Violation of Rights in Neutral Country May Cause Drastic Action by Congress.

Washington, June 21.—Sacking of the American hospital at Tabriz, Persia, and seizure of the American and British consulates there by invading Turkish troops was reported to the state department by the American minister at Teheran. If the report as it reached the minister is officially confirmed the outrages may be considered an act of war and settle the long-pending question of whether or not the Ottoman allies of Germany should be formally listed among enemies of the United States.

According to the dispatch the Turks sacked the hospital over the protest of the Spanish consul, in charge as representative of American interests, and in defiance of the Spanish flag flying over the building.

The hospital at Tabriz is a Presbyterian missionary institution, established several years ago. Many American doctors and nurses have been stationed there, but for several months the situation has been so serious that the force has been greatly reduced, and a few days ago it was reported to the state department that the last American had gone.

URGE WILSON IN 1920

Former Governor Ralston Sounds Third Term Call in Indiana State Convention.

Indianapolis, June 21.—Declaring that "the exigencies of the times call for the renomination and election in 1920 of Woodrow Wilson," Samuel M. Ralston, former governor of Indiana, permanent chairman of the Indiana state Democratic convention, fired the opening third-term gun on Wednesday. The demonstration lasted for several minutes. Mr. Ralston followed Vice President Thomas R. Marshall, who, as temporary chairman, delivered the keynote address.

BIG REVOLT SWEEPS KIEV

Forty Thousand Peasants Armed and Organized Are Participating in the Revolution.

London, June 21.—A great revolt has begun at Kiev, according to an intercepted wireless message transmitted from Moscow to the Exchange Telegraph company. Artillery stores have been exploded and there is continuous street fighting. The revolt is spreading to the Poltava and Tchernigov districts. Forty thousand peasants armed and organized are participating in the revolt.

German Paper Is on the Rocks.

Chicago, June 21.—Following a meeting of the directors of the Staats-Zeitung it was announced by Judge Stelk, president of the publication company, that the paper will be sold today or will suspend publication.

A. Busch III in Class 1 A.

St. Louis, June 24.—Adolphus Busch III, son of August A. Busch, millionaire brewer, by reclassification of the draft, has been changed from class 2 A to class 1 A by his draft board. He has a wife and children.

Airplane Strike Is Ended.

Buffalo, N. Y., June 24.—The strike of machinists at the three plants of the Curtiss Airplane and Motor corporation was called off by Andrew T. McNamara, representing the International Machinists' union.

HUNGER MOBBS IN RIOTS AT VIENNA

Hofburg Palace, Residence of Kaiser Charles, Is Attacked by Rioters.

100,000 WORKERS ON STRIKE

Peace Advocates Slain in Berlin, Hamburg and Cologne, According to Censored Dispatch Received in Stockholm.

London, June 22.—More than 100,000 persons have gone on strike in the Volcan arsenal and the Warschawski airplane works in Vienna, according to a dispatch from Zurich to the Exchange Telegraph. The dispatch adds that riots have occurred at Favoriten, Margerethen, Ottakring and Brigittenau, suburbs of Vienna.

London, June 22.—Serious rioting broke out in Vienna Thursday, says an Exchange Telegraph dispatch from Amsterdam. The mob broke into a number of bakeries, stormed the residence of the premier and also one of the wings of the Hofburg, the imperial palace, the message adds. Cavalry is being rushed to the capital to restore order. It is probable, it is stated, that martial law will be proclaimed. The rioting was in protest against the reduction of the bread ration.

London, June 22.—Heavily censored private messages received in Stockholm indicate that peace demonstrations were held recently in Berlin, Hamburg and Cologne, and that several workmen were killed and many persons arrested, says a dispatch to the Morning Post from Stockholm. The police dispersed the crowds.

According to a dispatch to the Exchange Telegraph from Zurich there has been a considerable number of strikes at Vienna and Neustadt owing to a reduction in the bread rations. At one time the police were compelled to disperse the rioters.

Amsterdam, June 22.—The Berlin Vorwaerts, the German socialist organ, in announcing the increase in the price of bread to 5 pfennigs per pound, says this price will bring the land owners 1,000,000,000 marks surplus profits and necessarily will be followed by increases in the cost of milk, butter and beef.

The socialist party, says the newspaper, has protested formally to the government on the ground that the increases will be sure to create the greatest ill feeling.

Copenhagen, June 21.—As a protest against the government food regulations, workmen and women marched to the Danish parliament building carrying standards bearing inscriptions demanding more bread and more butter.

CALLS FOR WAR ON TURKEY

Resolution in House at Washington Would Also Make Bulgaria Foe.

Washington, June 22.—A joint resolution declaring a state of war with Bulgaria and Turkey was introduced in the house on Thursday by Representative Kelly of Pennsylvania and was referred to the foreign affairs committee. It declares that the military forces of the two governments named have committed acts of war against the government and people of the United States.

Appearing before the senate foreign relations committee in regard to another matter, Secretary Lansing discussed the Tabriz incident, and he and members of the committee were said to agree that if the attack upon the American consulate was made by an organized Turkish military force and not by a mob it would present an overt act sufficient to warrant a declaration of war.

638 DIE ON FRENCH SHIP

Paris Says 1,512 Soldiers and Native Workers Were Rescued From Torpedoed Vessel.

Paris, June 22.—The transport Santa Anna, proceeding from Bizertia for Malta, was torpedoed and sunk on the night of May 10-11, according to the Havas agency. There were on board 2,150 soldiers and native workmen, of whom 1,512 were saved.

RE-ELECT SAMUEL GOMPERS

American Federation of Labor Delegates at St. Paul Are Unanimous.

St. Paul, Minn., June 22.—Samuel Gompers was re-elected president of the American Federation of Labor by acclamation at the annual convention here on Thursday.

Calls 8,976 Registrants.

Washington, June 24.—General Crowder, the provost marshal general, called for 8,976 draft registrants qualified for general military service, to be sent July 15 to various schools for special training.

Bethmann-Hollweg Gravely Ill.

Amsterdam, June 24.—Doetor von Bethmann-Hollweg, the former imperial German chancellor, is gravely ill, according to the Cologne Volkes Zeitung. He recently suffered a stroke of paralysis.

Helping the Meat and Milk Supply

(Special Information Service, United States Department of Agriculture.)

SAVE MEAT WITH MILK.

This is the source of the nearest approach to a Perfect Human Food.

MILK IS PERFECT FOR HUMAN FOOD

Department of Agriculture Urges More Liberal Use of Product to Save Meat.

IT EXCELS ALL OTHER FOODS

There Are Always Sick Children in All Localities Where Milk Is Scarce—Excellent for Body Building Protein.

Milk is the nearest approach to a perfect human food, and it is by far the best food for children. Children must have milk in order to develop properly, and all persons of whatever age need it in order to keep in proper condition.

The advice of the United States department of agriculture is: "Save on other things if you can, but not on milk, your child's best food."

Children who do not get milk, but are given tea and coffee instead, are for the most part sickly. There are always many sick children in cities and in countries where milk is scarce.

When prices go up and mothers begin to economize on milk, more children become sick. That is one of the things that, under any and every condition, the government regards it as essential to guard against.

Food must be saved to feed the army and money must be saved to finance the war, but the nation's children who in a little while will be the nation's men and women must be given their opportunity for health and strength. Incidentally, the liberal use of milk does save meat and other transportable foods.

Needed for Bones and Teeth.

Children, in larger measure than grown persons, require lime. It is needed, particularly, for their bones and teeth, and in smaller quantities for their blood and other parts of their bodies. Milk is the chief food for lime. A cup of milk contains approximately four times as much lime as an egg. It is the cheapest food for lime.

Milk is also an excellent food for body-building protein. In that respect it is like eggs and meat. Milk protein is especially good for children, but it is good for all and should be used by everybody.

Milk, in addition, is an excellent fuel food. Children, who are much more active than adults, need more fuel to burn in their bodies to help them run and play and work. The fat and the milk sugar burn up as fuel. A quart of milk gives the same amount of fuel as a pound of lean meat. A quart of milk gives the same amount of fuel as eight eggs. Milk, even at advanced cost, is the cheapest fuel food. Take your pencil and make a little comparison in cents.

Skim Milk Also Good.

Whole milk, of course, is the best food. But skim milk is good food, too. It has the lime, the sugar and the protein of the whole milk. It is deficient in fat and has not much of the growth substances as has whole milk. Use whole milk—but do not throw away the skim milk.

Every child, big or little, should have plenty of milk. The big boys and girls need it only slightly less than do the babies, and grown persons need it only slightly less than the big boys and girls.

Be liberal with the milk ration. Do not think of milk merely as a refreshing drink. Think of it as a good, nourishing food—the best food. The children need other foods, of course—vegetables, fruits, cereals. But, most of all, they need milk.

Be sure that the milk is clean and fresh when it is delivered to you, and that you keep it cold and clean and covered until it is used.

To Extend Motor Service.

Because the motor truck route for eggs recently established between Vineland and Millville, N. J., and New York city—about 140 miles—has proven so successful, plans are made to add more trucks to carry vegetables

and fruit throughout the producing season. The truck company has agreed to supply as many trucks as are needed and is glad to get the business, because it fits in with the hauling of merchandise from New York city to Philadelphia, and insures the trucks going back loaded to New York.

DRINK LOTS OF MILK

Be liberal in the use of milk. It is good food—the best food in the world, in fact—and for all the milk that is used a corresponding quantity of transportable food is saved for overseas.

Give the children plenty of whole milk, and drink a fair quantity yourself. It is one of the best bone and body builders.

Do not throw away the skim milk. It contains the protein, sugar and lime of whole milk.

Get acquainted—unless you already are—with the charms of buttermilk. It is a refreshing cold drink—quite as refreshing as any you could buy at a fountain. And it is a fine food. Men can do hard manual labor on buttermilk alone. That has been demonstrated.

Save, certainly, but save the milk. Do not try to save on milk.

MARKETING BUTTER AND CHEESE BY PARCEL POST

Creameries, dairies and individual farms, in various instances which have been authenticated by the bureau of markets of the United States department of agriculture, have developed a successful system of parcel post marketing for butter and cheese. The conclusion reached by specialists of the department as a result of a number of experimental shipments is that well-made butter, thoroughly chilled before shipping, may be marketed successfully by parcel post when packed in a suitable container and where extremely high temperatures are not encountered. Shipments during extremely hot weather frequently are unsatisfactory.

The bureau of markets received 454 shipments of butter, coming distances of from 157 to 536 miles, during various months of the year. Of these shipments 440, or 96.9 per cent, were received in satisfactory condition. The bureau reshipped this butter to various state experiment stations and the shipments arrived in good condition where the temperature and distance were not too great. In general, shipments from Washington were successful when forwarded as far north as Maine and as far west as Michigan and Indiana. Shipments into the South were successful shorter distances.

Farmers' Bulletin 930, "Marketing Butter and Cheese by Parcel Post," issued by the United States department of agriculture, gives detailed advice on methods which have been found advantageous. The bulletin urges that every care and precaution be exercised in making the butter and preparing it for shipment. The shipping container should properly protect the butter, and packages should be posted as near to mail time as possible in order to obtain delivery in the quickest practicable time.

The postal regulations provide that when butter is so packed or wrapped as to prevent damage to other mail it will be accepted for delivery either at the office of mailing or on any rural route starting therefrom. Butter will also be accepted for mailing to all offices to which, in the ordinary course of mail, it can be sent without spoiling when suitably wrapped or inclosed or when packed in crates, boxes, or other suitable containers.

It is well to stamp or write on packages of butter: "BUTTER—Keep away from heating apparatus."

Isolate Affected Calf.

As soon as scours is discovered it is best to separate the affected calf from the others and carefully disinfect the pen.

Build Up a Valuable Herd.

A valuable herd can be gradually built up by raising female calves from the best cows.
