### AMERICA NOW HAS LARGE FIELD ARMY.

The first American field army is now a reality. The big unit, the first of its kind to fight on foreign soil, was built up division by division. First small detachments of men were brought into the field, billeted with French and British, now whole army corps are thrown into action at once and separately. General Pershing has assumed personal command of the first American army, in addition to his duties as commander in chief.

Corps of the new army are commanded by Major Generals Liggett, Bullard, Bundy, Reed and Wright with various divisional commanders under them. No announcement is made regarding relinquishment of the field command by General Pershing, nor has a successor been named to him but it is probable that it will be necessary to create a lieutenant general. The new American army is occupying the sector which the Huns evacuated.

### Cafe Changes Name.

After going under the name of The Vienna for nearly forty years, the well known eating house on Front street operated by C. C. Hupfer has changed to Liberty Inn, Mr. Hupfer deciding on the change a few days ago, and all signs indicating The Vienna have or will be obliterated. In changing the name to Liberty Inn, the business of the establishment is better conveyed, for it is not only an eating house but a lodging house as well. Under the old name of Vienna the idea was conveyed that it was only an eating house. In these war times Liberty Inn is a very appropriate name, though it will take North Platte people quite a while to drop the name Vienna.

Judge Kinkaid was very enthusiastic over the successes of the allied armies, and was particularly well pleased with the wonderful patriotism of the people evidenced at the points he has visited in western Nebraska. He will return to Washington next week.

Nebraska's War Governor

Gov. Keith Neville

Democratic Candidate for Re-election

Every pledge made to the people has been fully and faithfully redeemed. Prohibition has been energetically and fearlessly enforced. There have been more than 4,800 prosecutions for violations of the liquor law and fines have been assessed aggregating \$100,000. The affairs of the state have been conducted in a careful and business-like manner. The levy for the General Fund which was 4.10 mills in 1915, 3.40 mills in 1916, 3.80 mills in 1917, has been reduced to 3 mills in 1918. The acts and policies of Nebraska's War Governor have been dictated by these considerations: To uphold the President, to support the Government, to sustain our boys who are fighting over there.

His re-nomination and re-election will insure the most effective cooperation between State and Nation in the prosecution of the war.

There Is a Right and a Wrong Way to Use the Telephone

The wrong way to get a telephone number is to call from memory—to "take a chance"—to trust to luck that your memory doesn't play a trick on you with the fickle figures of a telephone number.

The right way is to look in the telephone directory, make sure you have the right number and then give it to the operator slowly and distinctly.

The right way saves annoyance to you and helps build up a higher grade of telephone service for everyone.

See What Our Boys are Doing in France. See The Americans in the Front Line.

THE TRUTH ABOUT THE WAR

TO THE PUBLIC: These official pictures will give the people of this city their first opportunity of seeing our boys in action in France; to understand just what these months of preparation have brought about in combating our common enemy; to enable the worker in the munition factories, the tanner in the field, in fact, every man, woman and child who is doing his or her part to visualize the results of their labor to the present time. They show those who so generously subscribed to the Liberty War Loans, Red Cross, Knights of Columbus, Y. M. C. A., Salvation Army, and other campaigns just what their money has accomplished.
