The Milky Appearance.
In reply to several inquiries I wish to state that the milky appearance of the city water is due to air in it caused by changing from the new to old pumps for a few days to make repairs. It will clear up if allowed to stand for a minute or two and will disappear entirely within the next day or so. Samples of the water were sent to the state bacteriologist for examination recently and the report just received says the water is O. K.

The Primary Election.

With somewhat more than half of the precincts of the state reporting, Neville leads Bryan for the democratic nomination for governor by about 7,000, and this lead will be increased rather than diminished when the full returns have been received. The result should be very gratifying to Governor Neville, inasmuch that he made no campaign, having evitently arrived at the conclusion that if the people endorsed his administration well and good, if they did not he would not attempt to force himself upon them.

The vote on McKelvie, republican candidate for governor, has not been tabulated, as his opposition was weak and he received practically the full republican vote.

For the nomination for United States senator Morehead, democratic is 10,000 ahead of his nearest competitor, while Norris, republican leads Stant, his nearest competitor by about 2,000 and his nomination is assured. It is generally predicted that at the November election Norris will be defeated, for those republicans who consider themselves 100 per cent American will refuse to support him by reason of his record in the senate.

C. W. Pool will be the opponent of M. P. Kinkaid in this congressional district.

Blocking the Draft Law.

A Washington dispatch says that increased resistance being shown by certain members of congress to the drafting of twenty-one-year-olds in the army, threatens to upset the plans of the war department, of getting eighty American divisions into France by June of next year, it was learned yesterday.

This is the number of men that Chief of Staff March declared the United States should have to bring the war to a successful conclusion by the end of 1919. It is the plan along which the war department preliminary arrangements for troop transportation and supplies are being made.

COUNTY NEWS.

At a recent meeting of the Hershey Home Guard, F. C. Donnelly was unanimously elected captain. A committee was appointed to investigate the proposition of securing uniforms.

The Lutheran congregation south of Hershey will dedicate a service flag next Sunday evening at eight o'clock.

G. S. Thompson has been appointed chairman of the four minute men of Hershey and community by the national publicity committee.

At the primary election in Nichols precinct Tuesday the democrats cast thirty-six and the republicans thirty-seven votes.

John Edminsten, of Hershey, is at Camp Pike, Ark., training school studying for a lieutenant's commission.

Miss Esther Antonides and Mrs. Tiley of North Platte have decided on Tuesday, Sept. 3rd, as the date of their Red Cross entertainment in Brady. Miss Antonides' ability as an entertainer is well known here and Mrs. Tiley is as well recommended, both having given entertainments over the county. The program will be published next week.—Bracy Vindicator.

Enlisting Home Guards—Yes, the Telepost's appeal has been heard as well as the H. G's. of the other towns in the county. J. W. ALLIES GAIN GROUND ON ALMOST THE ENTIRE FRONT.

The tide of defeat still surges, heavily against the German armies in France and Flanders. On the four important sectors French and British arms again have been served, and the entire German front from Ypres, in Belgium to Soissons, on the Aisne, now is more seriously menaced than before. French troops of General Mangin, operating from the region two miles northwest of Soissons to the Oise river and those of General Humbert, fighting between the Oise and the Matz, have materially pushed forward and may compel the immediate evacuation of the entire Somme-Oise salient from Braye to Noyon.

Farther to the north, between Albert and Arras, Field Marshal Haig has followed up his successes of previous days by a new offensive over a front of about ten miles and driven forward his troops for splendid gains over the entire line, capturing a number of villages, taking guns and inflicting heavy casualties. Still farther north the famous Lys sector, a general eastward advance on a front of more than four miles has been made by the British, who have brought their positions appreciably nearer the old 1916 battle line running east of Armentieres.

Interesting if True.
The State Journal says: Mr. McKelvie and Governor Neville are of approximately the same age. They are alike, too, in having the opposition of the same elements among the organized farmers. It is probable that certain members and officers of the farmers' union and the non-partisan league feel so much dissatisfied with both of the regular nominees that they will run a farmer candidate by petition.

Mr. McKelvie is reputed to have a strong farmer following, thru his farm paper, but he has offended some of the leaders, and they are already planning to make him trouble. They can't go to Neville, for he is even less acceptable to them than McKelvie. So the talk of an independent movement which promises to be the most interesting feature of an interesting campaign. It is held to have very little chance of success, but whether it would limit Neville or McKelvie most is the question.

IT'S HART! THAT'S ALL! THAT'S ENOUGH!
Keith Theatre Monday and Tuesday August 26-27

Announcement was made Wednesday by E. C. Liebild, secretary for Henry Ford, that the latter would return to the United States treasury every cent he made in contracts for war material. Many contracts have been awarded the Ford Motor company of which Mr. Ford was a little more than one-half, and he will not retain a dollar of his share. What the other stockholders will do is not known, but Mr. Ford has expressed the desire that they all follow his example.

Learn to Get Along Without Sugar

It has been done before. A hundred years ago refined sugar was unknown. Our ancestors used honey and you can use honey also. Besides there are syrups. The natural sugars of fruits will serve today as they did centuries ago. You will get all the sugar you need in this way. The Allies do it now. England, which before the war used more sugar than we did, has but two pounds per head a month now; France one and a half pounds, and Italy only one. Show yourself a patriotic American and use less than your ration. This is but a slight sacrifice as compared with all that the Allies are doing. Do it yourself.
