

REGISTRARS FOR SEPTEMBER 12 SELECTED BY THE BOARD.

The Lincoln county registration board yesterday selected registrars for each precinct in the county for the September 12th registration. Notification of their appointment will be sent out in a day or two. Those selected for North Platte are:

First Ward—E. C. Baker, Guy Swope, C. M. Trotter and J. B. Hemphill.

Second Ward—B. Buchanan, J. E. Evans, B. M. Reynolds and J. H. Van Clave.

Third Ward—Elmer Coates, Chas. Herrod, G. S. Huffman and W. H. Cramer.

Fourth Ward—C. H. Leininger, C. Lierk, Jr., Nels Nelson and I. L. Miltonberger.

A board of instruction consisting of J. E. Evans, O. E. Wader, Rev. J. H. Curry and A. W. Shilling has also been appointed. The duty of this board is to assist men available for service, and includes preliminary instructions in military drill.

Sign For Mechanical Training.

The following young men, who are registrants, have signed up for special mechanical training at the Kansas state agricultural college at Manhattan:

Peter Meyer, Chas. J. Leth, Fay H. Mudge, Earl T. Hall, R. Abercrombie and John Winn.

Enrollment for this school closed last night. It is not known just the number that will be called from Lincoln county. The men selected will leave September 19th.

Register in Advance.

Nine North Platte men who do not expect to be in town September 12th, have registered in advance; as have also six men who are non-residents, the later doing this in order to send their cards to their home towns before registration day. It is expected that quite a number of railroad men and traveling men who may be out on the road September 12th will register in advance.

To Red Cross Workers.

We are requested to appeal to all Red Cross workers to turn out en masse at the work rooms next Monday and Tuesday afternoons in order that work may be completed for a shipment to be made Wednesday. It is important that this shipment be made on that day, and in order to do so there is much work to be done.

MAKE TENTATIVE PLANS FOR CELEBRATING PERSHING'S DAY.

Representatives of local patriotic societies met last evening and made tentative plans for celebrating Pershing's birthday Friday, September 13th. It is planned to hold the celebration afternoon and evening and among the features will be a parade in which will figure the Red Cross, the Junior Red Cross, the Sammy Girls, the Home Guards of Sutherland, Hershey, Brady and North Platte, the G. A. R., Women's Relief Corps, Sons of Veterans and a big division of mechanics and laborers, organized under the auspices of the local federal labor bureau.

Another feature will be the unfurling of the Lincoln county service flag containing a star for each of the five hundred and seventeen Lincoln county boys who are under the colors. The flag will be 24x36 feet, thus providing space for addition of future stars.

A committee was appointed to organize a chorus of 100 voices to render patriotic songs, and this chorus will sing in the parade, at the unfurling of the flag and at the meeting to be held at the court house park following the parade. W. F. Gurley, of Omaha, will be asked to make the address.

Other features not yet worked out will be included in the program, which will be thoroughly patriotic in its nature. It is hoped to make this celebration a Lincoln county, rather than a North Platte affair, and it is hoped the residents from all parts of the county will attend. We should honor Pershing as our commander on the foreign battle field, and by honoring him we honor the 1,600,000 red blooded American boys who are under his command. Let Lincoln county show by this celebration that Pershing and his men whose presence and help has been responsible for the victorious drive of the allies, are appreciated by us, and that as citizens we are standing back of him and them.

GENERAL RETREAT OF GERMANS ON RHEIMS SOISSON LINE.

The British, after their victorious drive thru the Hindenburg defenses are knocking at the gates of Cambrai, but apparently are momentarily pausing before attempting to force an entrance. Prisoners to the number of more than 16,000 and guns exceeding 100 in number have been taken. Meanwhile the center of greatest activity has shifted to the Franco-American front, where the Germans are in full retreat on a wide front north of the Vesle, with the French and Americans in pursuit and reported as having reached the Aisne in their chase.

Between these two sectors another notable German retrograde movement is in progress. The French pressure in the region north and east of Noyon has forced a German retreatment on a wide front in this sector and advances of five to seven miles have been scored by the French forces within the last forty-eight hours.

The town of Guiscard has been captured and the French have pressed beyond until they are now but little more than two miles from the important road center of Ham. They are approaching Ham on both sides of the Somme and its speedy fall seems probable. The Germans here are apparently heading back for the St. Quentin-La Fere line.

The Franco-American operation on the Vesle front have been extended further eastward, toward Rheims, and new crossings have been effected on the two and a half-mile front between Ventraux and Jonchery, seven miles of Rheims.

In the north the Germans are continuing to move backward along the Flanders front. The British are accelerating the retirement by sharp attacks, in one of which they captured the village of Avelsteert. They have regained their April line on the southern part of this front, from Neuve Chapelle to Vlinchy, and have pushed beyond it in spots to the eastward of Givency.

The Germans still are clinging to the Meuse ridge, the highest ground of this sector, but from the manner in which they are being forced back further south it seems doubtful if they will be able to hold it much longer.

MEN MUST FIND WORK IN ESSENTIAL INDUSTRIES.

To meet the 1,000,000 unskilled labor shortage, the state directors have been instructed that there can be no temporizing and that drafts must be made upon the nonessential industries in their states. A strict injunction against taking men from farms, railroads, mines, as well as other war industries, has been issued.

The unskilled labor situation is exceedingly critical. Reports from Pennsylvania show that the Midvale Steel Co.'s plant at Coatsville has been forced to shut down certain units for lack of labor. Instance after instance is called to the attention of the employment service where the unskilled labor lack is threatening to close down some highly essential war project. The seriousness of the situation cannot be exaggerated.

The time has come when America must get on a war basis. There are plenty of unskilled workers who are on non-war business and they must be transferred. If we are not to leave our rapidly growing armies in the lurch, if the new fighters to be had under the raising of the draft ages are to be equipped, every able-bodied man in the country soon will have to find work in some essential industry.

An aroused public sentiment, which will brand as a shaker any man who willfully refrains from working at some productive job up to the full extent of his capacity, will be more effective than any laws or regulations.

What perhaps is most needed in our war industries is an infusion of men who will undertake to work as common laborers because of our country's need. Their presence will be an inspiration and example to those already at work and will go a long distance toward reducing the inefficiency and abnormal turn over of labor which exists on many important projects. Americans, like the English and French have done, must learn that "common labor" when performed for one's country in time of war, is worthy of any man, whatever his prior position or experience.

GERMANS FEEL THAT FRENCH SOIL IS RAPIDLY SLIPPING.

Between Ypres and Rheims, with General Mangin menacing the St. Gobain forest and the Chemin des Dames, with Generals Humbert and Debency advancing on St. Quentin and the Franco-Americans in the Vesle, with General Rawlinson before Peronne, General Byng before Lens and General Plume before Arrmentieres the enemy feels the soil of France slipping under his feet.

Commentators point out that in the present offensive, continuity has been maintained (lasting 46 days without a break and that not since the beginning of the war has such an extended series of hammer blows been directed throwing the adversary into complete dismay. The enemy apparently is unable to reorganize his forces to make a stand capable of arresting the onward march of the allies.

PLEASE DO NOT ASK FOR THE TIME OF DAY

On September 1st, we discontinued answering requests for the "time of day." This was done because it is imperative now that all non-essential practices be eliminated to conserve labor and equipment.

When a subscriber lifts his telephone receiver and asks: "What is correct time, please?" it requires as much of the operator's time and an equal use of the telephone equipment as would be needed to complete an ordinary telephone call.

In North Platte alone, 600 requests for the time are made daily. The answering of such requests requires considerable use of equipment as well as the time of operators.

The supply of transportation, labor, raw material and equipment is only sufficient to meet the present demands of the Government and of industries either directly or in directly connected with the prosecution of the War. It is therefore becoming more and more necessary to reduce non-essential services of every kind.

The telephone service is necessarily affected by the general condition of the labor and material market, and the less essential uses of the telephone must be restricted.

War conditions have greatly increased the demands for necessary service, which makes it imperative that telephone facilities be conserved in every possible way.
