

How About Your Child's Eyes

The chief reason why children do not like school work is because they cannot see the blackboard or printed page clearly. Their eyes are strained in trying to do their work, and this strain wears them out. Properly fitted glasses will change all this. They will protect the eye, improve sight, and prevent permanent injury to vision. Usually the glasses can be left off in a year or two, when the eye has reached its full development.

Have your child's eyes examined at Clinton's before school begins.

HENRY LUNKWITZ ATTEMPTS TO HANG HIMSELF.

Henry Lunkwitz, son of Ed Lunkwitz, who lives on the Birdwood and was due to leave Thursday morning with the Lincoln county contingent for Camp Grant, attempted to hang himself Tuesday near his home. He secured a rope to a rafter of the barn and tying the other end around his neck gently lowered himself until the rope tightened. A brother and sister were present at the time and run to the house to get a knife to cut the rope but while they were absent he concluded he didn't want to die, and pulled himself hand over hand until he caught the rafter and released himself.

For a week past Lunkwitz had been acting in a real demented manner. He imagined Sheriff Salsbury was looking for him; he would point his hand in a certain direction and yell "there he comes," and he would then run like a deer.

Wednesday afternoon Lunkwitz on foot was met on the road north of Hershey by George Mudd who advised him to get to North Platte as quickly as possible. He was not inclined to heed Mr. Mudd's advice, but finally consented to get into the latter's car and he was brought to North Platte and placed in jail, where he was kept until yesterday morning when he was sent out with the rest of the boys to Camp Grant. During the time Lunkwitz was in the sheriff's hands he refused to talk.

It is generally believed that Lunkwitz was attempting to camouflage and that his real condition is normal.
