Saturday Attorney Wm. E. Shuman filed a suit in the district court on behalf of Wm. Oltman, of Wallace against the Chicago, Burlington & Quincy Railroad for damages in the sum of \$16,100. Mr. Oltman was a passenger on the train that was wrecked on February 19th near Curtis. The wreck was caused by the spreading of rails and the train went off of the embankment. In the petition the plaintiff claims that his injuries consisted of a broken bone in his left knee joint, blows on the head causing the loss of hearing in one ear and a sprained condition of the back. The plaintiff is a farmer and alleges that he has been unable to do his farm work since the injuries. The case will no doubt be tried at the December term of court.

At the next service fifty odd so expressed themselves, and at Sunday school a week ago Sunday forty came forward. Rev. Raise in Subscription Rates.

Beginning October 1st the subscription price of The Tribune will be raised fifty cents a year. To those who are served by carrier the price will be \$2.00 a year, to those receiving the paper through the mail the price will be \$1.75 per year.

It is not necessary to make detailed statement why this increase is necessary. There is not an item that enters into the printing of a newspaper that has not advanced from twenty to 125 per cent during the past four years. Print paper, one of the principal items and of which The Tribune uses many tons a year, has advanced nearly one hundred per cent.

The publisher has delayed as long as possible this advance but he can do longer do so, for the paper has been furnished considerably below its actual cost and he has thus been losing money on every paper sent out.

The subscriber will also please remember that under a ruling of the war industries board a paper must be discontinued after an arrearage of three months. This ruling will be strictly followed, and practically means that the subscriber must pay in advance.

After October 1st every subscriber who is more than three months in arrears will be chopped off.

ARTHUR BARRACLOUGH HAS HIS FIRST TURN IN THE TRENCHES.

Arthur Barraclough, formerly with the North Platte Electric Co., now in France with Co. C, 105th Signal Corps. In a letter to the home folks under date of August 11th says in part:

"I had my first turn in the trenches about two weeks ago. It was not bad except when 'Jerry' started his artillery working; then you had better go under cover, 'cause when he starts he drops the whole output of the Krupp works on you. When those big boys explode they let you know where they are from, for they go Kraupp-Kraupp. But old Fritz is sure outclassed when it comes to artillery, when we cut loose with a barrage things begin to move. We send ten shells to his one. He is running short on shells now, and he wants to quit the use of gas now—good reason, he don't have the stuff to make gas nor rubber to make masks. The masks we use are the best in the world, and if a fellow uses his head there is small chance of his being gassed.

"While I was on the front I got a full issue of 'seam squirrels.' It is sure a comical sight to see the fellows when they come back sitting outside stripped to the waist on a still hunt for the 'squirrels.' But we got a good bath, had our clothes steamed, and are 'pure' again.

"If the pure-breeds who are preaching against cigarettes knew how much they would deprive a soldier of should they take away their cigarettes, they would keep their traps closed. Its all right for the fellows at home, with a fine bed and everything to eat, to perhaps abstain, but its nery for them to want to take away one of the few comforts of a soldier. And while I smoke a pipe I don't use cigarettes, so I am speaking for the other fellow.

"We have a chorus in the company. They were just singing 'Perfect Day' and it was sure good. There is a Kille in the bunch and his imitation of Harry Lauder is good. Its funny how the Scotch and the Sammles have taken to each other. Our men could not have found a better bunch to fight with, for they are real fighters. The Germans call them 'The Ladies from Hell.' They will do anything in the world for you."

Hershey Times Items.

A delegation of the home guards went out to Gen. LeDoyt's a couple of evening last week and helped him clean his beet field of weeds. George was up against it for help and the guards grabbed his S. O. S. and came to the rescue.

The American Beet Sugar company will soon commence the erection of a new beet dump in the west yards at North Platte. It will be completed in time to handle this year's crop. This will greatly facilitate the handling of the beets in that section.

A westbound tourist making too rapid a turn into town across the bridge near Edmisten's hit the edge and turned turtle. Monday. Fortunately neither he nor his wife, the only occupants of the car, were injured. Nearly fifty or more of our residents were on the scene a few minutes after the accident and soon righted the car. The juice was turned on, in jumped Mr. and Mrs. Tourist, apparently the most nonchalant of the whole aggregation, and off they went just as the turning turtle was an every day occurrence with them.

The current rumor that all Mexicans in this vicinity go armed with both guns and dirks is of such a nature as to disturb the peace and tranquility of our community, and needs a thorough investigation. A white man is copped when caught with a pen knife two inches long, why should a Mex be permitted to have a gun or a dirk of any nature, even in his home. They invariably get into trouble when they have these weapons and the recent shooting affray here is but an instance, a white man may be the next victim. If dealers were made liable under law in selling the Mex firearms and ammunition it might relieve matters some.

If you feel bad; if you are "blue," tired and discouraged, without apparent reason, you need Prickly Ash Bitters, the system purifier. It restores action in the torrid liver, cleanses the stomach, helps digestion, drives out gas and fermented matter in the bowels, and brings back that fine feeling of strength, vim and cheerfulness which belongs only to perfect health. Price \$1.25 per bottle. Gummere-Dent Co. Special Agts.

Plans Raid on Troop Ship.

Washington, Sept. 9—Heeding unofficial reports that Germany is about to concentrate her submarines for a drive upon American transports, the navy department already is providing much heavier convoys for all troopships and plans are under way completely to frustrate this menace. Secretary of the Navy Daniels let it become known Monday.

Secretary Daniels said he had no official information that Germany was planning a thrust against the troop ships from the United States, but unofficial reports to this effect had been reaching the navy department for some time.

A concentration of submarines in an effort to interfere with the troop ships would be the logical course for Germany to pursue, the secretary believed.
