**Railroad Committee at Work.**

The committee appointed to solicit subscriptions to the Fourth Liberty Loan from railroad employees began its work yesterday and will continue the work daily and consecutively until every employee residing at this terminal has been solicited. This committee is composed of G. C. Yost, H. L. Heckler, K. M. Sturtevant, W. H. Ledoyt, M. Hayes, W. L. Richards and C. E. Beeder.

The subscriptions of railroad employees can be paid in eight monthly installments of 12 1/2 per cent each.

**Bootlegging at Kimball.**

During the past week twelve men have been arrested at Kimball for bootlegging. A total of 347 pints of booze and five gallons of alcohol were taken from the men. The total fines assessed against the men were \$1,400 and the sheriff took possession of four Ford cars owned by the parties arrested. Certainly these are distressing days for the fellows who think they can make a little easy money by handling booze.

**OCTOBER CALL FOR MEN CANCELLED LAST SATURDAY.**

Secretary Allen, of the local registration board, received a wire Saturday morning stating that the call for ninety men for October 7th to 11th had been cancelled. The message came from the office of Governor Neville. While no cause was assigned for cancelling the call, it is no doubt due to the prevalence of the Spanish influenza in practically all the cantonments in the country. The Lincoln county men who were to have gone next week had been assigned to Camp Funston, a camp that up to the present has been free of the disease, but the authorities are evidently disposed to play safe and will not send more men to any of the camps until all signs of the disease have disappeared. Just how soon the disease will have its run, cannot of course be determined. In the camps on the Atlantic seaboard the influenza has been alarming and many deaths have occurred through pneumonia, which follows the influenza.

Would you like to have a nice diamond ring? Sure you would, but probably you feel that you can't afford to buy the size that would suit you. Here is a plan that will meet everyone's pocket book. Harry Dixon, the Jeweler, will do this: sell you a small stone mounted up in your choice Later when you feel like you can afford a larger stone step in and exchange it for the kind you wish. Dixon will allow you the full price that you paid for it on the new one. Do this until you have the size you wish. Now this will be a way to save your money and have the pleasure of owning a fine diamond. Step in and see DIXON'S fine stock which he is selling at the old price.

**The Treasurer's "Story."**

The annual "story" of the county treasurer will be found in this issue under the heading of "Notice of Tax Sale." It requires nearly nine columns to tell the story of those who have failed to pay their 1917 taxes on real estate. There are over nine hundred tracts of land on which the taxes have not been paid and nearly as many town lots. If the tax on these are not paid by November 1st the land and lots will be sold for the taxes due. The list this year is nearly double the list last year.

**Advisers are Busy.**

The busiest place in town these days is the second floor of the federal building where the registrants go to fill out their questionnaires with the assistance of the advisers. From early in the forenoon until late in the evening a score or more are in the court room all the time waiting their turn and dozens hourly visit the office of the registration board in an adjoining room seeking information relative to the draft.

**Classifying the Men.**

The registration board began yesterday to classify the September registrants who have filled out their questionnaires. This classification will be made as rapidly as the questionnaires are returned to the board. "Get all work completed as rapidly as possible" is the word which comes to the local board from headquarters in Washington.

**"WHAT IS MY BIT?"**

This is the question that is in the minds of every person in Lincoln county. They are asking on every corner, "How many bonds am I going to be obliged to buy in the Fourth Liberty Loan." To certain degree here it is in a nut shell. On Sept. 25th County Chairman man Temple received a wire stating that the Lincoln county quota in the Fourth Liberty Loan drive was \$606,000.00. Just what portion each district will have to raise is not yet known. Upon receipt of this quota each district chairman will be advised what they are obliged to raise in each respective district.

All district chairmen are requested to post up all registration cards that they have in their possession showing the amount of bonds bought in the previous drive and from what bank they were bought. In case there has not been any one registered, such chairman or committeeman in each district or precinct is hereby instructed to all parties register that did not register before.

The county chairman's office at North Platte will send out a letter to every person in the county that gave a listing of any personal or real estate to the assessors in each precinct and as soon as the quota for each district in the county is received the same will be apportioned down to the precinct so that each district and precinct will know exactly what they will have to raise. The individual's quota will have to be on the same basis as before, about 5 per cent of a person's net worth not figuring former bond issues off, but adding on where he has not bought his quota before. Therefore, fair warning is given to all persons that they will be expected to buy the bonds assigned to them or show sufficient cause satisfactory to the committee or the Council of Defense. We feel sure that the Fourth Bond issue will be readily and quickly subscribed and that Lincoln county will have no difficulty in raising its quota.

**BUY A BOND BEFORE THE SUN GOES DOWN.**

Thanking each and every one for their hearty co-operation and for the cause, we remain,

LIBERTY BOND COMMITTEE.

**Previous Liberty Loans.**

The first Liberty Loan was opened May 15, 1917, and was a call for two billion dollars, oversubscribed by one billion dollars. The outstanding feature of the issue was the speed and promptness with which it was planned and conducted.

The second Liberty Loan opened on October 1, 1917, and called for three billion dollars, which was oversubscribed by one billion dollars. Labor and fraternal organizations were especially active in this campaign and the women of the country did efficient work in the interests of the loan.

The third Liberty Loan opened on April 6, 1918, one year from the date of entrance into the war and was oversubscribed by several million dollars. A great feature of this loan was the wide distribution among the people and the fact that all districts promptly and heavily subscribed to the loan. Secretary McAdoo pronounced this loan the soundest of national financing.

Awakened patriotism has made the American people a saving and a bond buying people.
